<b>Chapter 1</b>	<b>MODELS AND DECISION MAKING IN MARKETING</b>	<b>1</b>
	<i>Mathematical models in marketing</i>   1	
	<i>Managerial decision areas in marketing</i>   3	
	<i>Strategy formulation</i>   4	
	<i>Future development of mathematical models in marketing</i>   5	
<b>Chapter 2</b>	<b>INTRODUCTION TO MATHEMATICAL PROGRAMMING</b>	<b>7</b>
	<i>Linear programming—the simplex method</i>   7	
	<i>Duality</i>   14	
	<i>The transportation problem</i>   16	
	<i>Lagrange multipliers</i>   21	
<b>Chapter 3</b>	<b>A REVIEW OF RANDOM VARIABLES</b>	<b>27</b>
	<i>Discrete random variables</i>   28	
	<i>Discrete Markov chains</i>   30	
	<i>Continuous random variables</i>   34	
	<i>Compound random variables</i>   35	
	<i>Sums of independent random variables</i>   37	

<b>Chapter 4</b>	<b>INTRODUCTION TO STATISTICAL DECISION THEORY</b>	<b>40</b>
	<i>A simple decision problem</i>   40	
	<i>Analysis using opportunity losses</i>   43	
	<i>Formal presentation</i>   45	
	<i>Linear utility functions</i>   47	
	<i>Linear utilities, two acts, normal probability distributions</i>   48	
<b>Chapter 5</b>	<b>PRODUCT DECISIONS</b>	<b>53</b>
	<i>What is a product?</i>   53	
	<i>Forces favoring the multiproduct firm</i>   54	
	<i>Factors influencing the search for new products</i>   57	
	<i>Product variation vs. new product development</i>   58	
	<i>Steps in the product development process</i>   59	
	<i>Product profile analysis: a method for evaluating potential new product alternatives</i>   63	
	<i>The cost of uncertainty in the new product decision</i>   70	
	<i>The value of additional information in the new product decision</i>   75	
	<i>The commercialization decision</i>   79	
	<i>The DEMON planning system</i>   80	
	<i>The DEMON decision system</i>   84	
	<i>Simplification of the product line</i>   90	
	<i>The product life cycle and timing</i>   91	
	<i>Leader or follower</i>   96	
	<i>Summary</i>   97	
<b>Chapter 6</b>	<b>THE PRICING DECISION</b>	<b>99</b>
	<i>Monopoly</i>   100	
	<i>Competition</i>   104	
	<i>Neither monopoly nor competition</i>   105	
	<i>Follow the leader</i>   107	
	<i>Cost-plus</i>   109	

<i>Price discrimination</i>		111
<i>An example of non-price competition: industrial reciprocity</i>		113
<i>Effects of the time dimension</i>		119
<i>Competitive bidding</i>		121
<i>A model for competitive bidding</i>		122
<i>A pricing model for competitors with undifferentiated product</i>		127
<i>A pricing-advertising model for competitors with undifferentiated product</i>		130
<i>Characterization of the pricing process</i>		133
<i>Summary</i>		134

## **Chapter 7      DISTRIBUTION SYSTEMS      136**

<i>Channels of distribution</i>		136
<i>Product classifications and distribution systems</i>		138
<i>The functions of the distribution system</i>		141
<i>Information flow</i>		143
<i>Service objectives of the distribution system</i>		144
<i>Transportation modes and the cost of distribution</i>		145
<i>The storage function and inventory models</i>		146
<i>Location of storage and distribution facilities</i>		147
<i>Warehouse location model—fixed sites</i>		149
<i>Warehouse location model—sites not fixed</i>		156
<i>Location model for retail sales facilities</i>		160
<i>Organizational relationships in the distribution system</i>		165
<i>Systems analysis of distribution problems</i>		168
<i>System stability and redesign</i>		169
<i>Summary</i>		170

## **Chapter 8      SALES FORCE MANAGEMENT      172**

<i>Allocation as a key sales force management problem</i>		173
<i>Allocation of effort among products</i>		173
<i>Call policy—new accounts</i>		176

*Call policy—regular accounts* | 181  
*The value of additional salesmen* | 185  
*The addition of sales outlets (or salesmen)* | 187  
*Establishment of sales territories* | 190  
*Summary* | 192

**Chapter 9 MASS COMMUNICATIONS 193**

*Advertising vs. personal sales* | 193  
*Objectives of an advertising program* | 196  
*The measurement of effectiveness* | 198  
*Determination of the appropriation* | 200  
*Selection of advertising media: the CAM model* | 207  
*Linear programming approaches to media selection* | 229  
*Audience duplication* | 234  
*A different approach to media scheduling* | 238  
*Summary* | 245

**Chapter 10 CONSUMER PURCHASE BEHAVIOR 246**

*The neoclassical economic model* | 247  
*The classical psychological model* | 248  
*Markovian analyses* | 250  
*Linear learning models* | 256  
*A penetration model* | 262  
*An improved penetration model* | 266  
*The negative binomial distribution* | 269  
*Summary* | 273  
*Appendix* | 274

**Chapter 11 INFORMATION FOR MARKETING DECISIONS 277**

*Information systems* | 278  
*Information management problems* | 279

<i>Types of information systems</i>	281
<i>Data inputs</i>	283
<i>Model inputs</i>	288
<i>The information system of the future</i>	289

## CASES

<i>The Atlantic Monthly Company</i>	291
<i>Community Savings Bank</i>	305
<i>Modern Shirt Company</i>	313
<i>Vasa Corporation</i>	319
<i>Blanke, Inc.</i>	333

<b>AUTHOR INDEX</b>	<b>337</b>
<b>SUBJECT INDEX</b>	<b>343</b>
