Chapter 1 An Introduction to Disaggregate Demand Modeling in the Transportation Field

| | | |
|-----|---|----|
| 1.1 | Demand Forecasting | 2 |
| 1.2 | <u>Disaggregate Demand Models</u> | 4 |
| 1.3 | Random Utility Model Forms | 9 |
| 1.4 | Calibration of Discrete Choice Models | 19 |
| 1.5 | Prediction with Discrete Choice Models | 22 |
| 1.6 | Practical Considerations in Demand Modeling | 26 |

Chapter 2 Maximum-Likelihood Estimation: Computational Aspects

| | | |
|-----|---|----|
| 2.1 | The Maximum-Likelihood Method | 30 |
| 2.2 | Choice Probability Calculation Methods | 41 |
| 2.3 | Likelihood Evaluation | 58 |
| 2.4 | Maximization Methods and Computer Output Interpretation | 61 |
| 2.5 | Properties of the Log-Likelihood Function | 78 |
| 2.6 | Summary | 81 |

Chapter 3 Statistical Aspects of Multinomial Probit Model Calibration

| | | |
|-----|--|-----|
| 3.1 | Model Specification Considerations | 84 |
| 3.2 | Statistical Properties of MNP Estimators | 97 |
| 3.3 | Model Updating | 108 |
| 3.4 | Goodness-of-Fit Measures and Tests | 112 |
| 3.5 | Summary | 122 |

Chapter 4 Prediction: Mechanical Aspects

| | | |
|-----|--------------------------------|-----|
| 4.1 | Two Common Figures of Merit | 126 |
| 4.2 | General Prediction Techniques | 135 |
| 4.3 | Shortcut Prediction Techniques | 146 |
| 4.4 | Prediction of Equilibrium | 155 |
| 4.5 | Calibration Revisited | 165 |
| 4.6 | Summary | 168 |

Chapter 5 The Statistical Interpretation of Predictions

| | | |
|-----|--|-----|
| 5.1 | Confidence Intervals on the Mean: Binary Models | 171 |
| 5.2 | Confidence Intervals on the Mean: Multinomial Models | 183 |
| 5.3 | Prediction Intervals | 188 |
| 5.4 | Other Considerations | 193 |
| 5.5 | Summary | 196 |

Appendix A Some Properties and Definitions of Matrices, Determinants, and Quadratic Functions

| | |
|--|-----|
| Quadratic Function | 198 |
| The First and Second Derivatives of a Quadratic Function | 198 |
| Quadratic Forms | 199 |
| Diagonalization of Symmetric Square Matrices | 199 |
| Properties of Definite and Semidefinite Matrices | 199 |
| Maxima and Minima of Quadratic Functions | 200 |

Appendix B The Algebra of Expectations with Matrices 202**Appendix C** Some Properties of the Multivariate Normal Distribution

| | |
|---|-----|
| The Standard Normal Distribution and the Logistic Curve | 204 |
| The Multivariate Normal Distribution | 206 |
| The Chi-Square Distribution | 207 |
| The Distribution of Some Quadratic Forms | 207 |

Appendix D Some Definitions and Properties of Convex and Concave Functions

| | |
|---|-----|
| Convex Sets and Convex (Concave) Functions | 210 |
| Differential Properties of Convex Functions | 211 |
| Unimodality of Convex Functions | 211 |
| Other Properties of Convex Functions | 212 |

| | |
|-------------------|-----|
| <i>References</i> | 213 |
|-------------------|-----|

| | |
|--------------|-----|
| <i>Index</i> | 217 |
