PREFACE	xi
I Survey of Developments in Money and Macroeconomics	
1 Recent Developments in Monetary Theory	3
With Stanley Fischer From <i>Journal of Monetary Economics</i> , 1976	
Introduction	3
The Theory of Money Demand	4
Money, Inflation, and Growth	10
The Welfare Cost of Inflation, the Optimum Quantity of Money, and Inflationary Finance	13
Disequilibrium Theory	16
The General Equilibrium Approach to Monetary Theory	19
The New Microfoundations of Money	21
Rational Expectations and the Phillips Curve	25
Conclusions	34
References	34
II The Equilibrium Approach to Business Cycles	
2 The Equilibrium Approach to Business Cycles	41
Equilibrium Business Cycle Theory	41
Policy Implications	55

Market Clearing	60
Econometric Policy Evaluation	61
Empirical Testing: Observational Equivalence Problems	62
Some Invalid Testing Procedures	67
Empirical Findings	68
Concluding Comments	73
References	74

③ Rational Expectations and the Role of Monetary Policy 79

From *Journal of Monetary Economics*, 1976

Introduction	79
A Rational Expectations Model with Imperfect Information	80
Monetary Policy	93
Conclusions	103
Appendix 1: Results When u_t Is a First-Order Markov Process	105
Appendix 2: Systematic Growth in Money and Output	107
References	109

④ A Capital Market in an Equilibrium Business Cycle Model 111

From *Econometrica*, 1980

Setup of the Model	113
Solution of the Model under Full Current Information	123
Solution of the Model under Incomplete Current Information	126
Concluding Remarks	133
Appendix: Derivation of the Conditional Expectation of Money Growth	133
References	136

⑤ Unanticipated Money Growth and Economic Activity in the United States 137

Analysis of Money Growth	138
Analysis of the Unemployment Rate and Output	142
Price Level Estimates	159
Concluding Observations	167
References	168

▣▣▣ Alternative Approaches to Macroeconomics

⑥ A General Disequilibrium Model of Income and Employment 173

With Herschel I. Grossman

From *American Economic Review*, 1971

Analytical Framework	175
Patinkin's Analysis of the Labor Market	176
The Concept of Unemployment	177
Clower's Analysis of the Consumption Function	178
General Disequilibrium Involving Excess Supply	179
General Disequilibrium Involving Excess Demand	181

Summary	183
References	184

7 Suppressed Inflation and the Supply Multiplier 185

With Herschel I. Grossman
From *The Review of Economic Studies*, 1974

Analytical Framework	187
The Behaviour of Firms	188
The Behaviour of Households under General Market Clearing	189
The Behaviour of Households under Suppressed Inflation	191
The Determination of Output and Employment under Suppressed Inflation	195
Extensions of the Analysis of Household Behaviour	199
Appendix	200
References	201

8 A Theory of Monopolistic Price Adjustment 203

From *The Review of Economic Studies*, 1972

Static Optimization Model	204
Optimization Subject to Stochastic Demand	207
Extensions of the Model	211
References	212

9 Long-Term Contracting, Sticky Prices, and Monetary Policy 213

From *Journal of Monetary Economics*, 1977

Introduction	213
The Gray-Fischer Analysis	214
The Employment Rule	218
Incomplete Information	221
Some Conclusions	223
References	224

IV Public Debt

10 Public Debt and Taxes 227

From *Federal Tax Reform*, 1978

Some Data on Public Debt	228
Economic Effects of the Debt-Tax Choice	230
Finite Lives and Related Matters	232
Imperfect Private Capital Markets	233
Uncertainty about Future Taxes	234
Misperception of Future Taxes	235
The Volume of Government Expenditure	235
Public Debt and the Timing of Taxation	236
The Burden of the Public Debt	237
Fiscal Policy	239
References	240
