Mechanical Engineering Publications Limited

CONTENTS

SPARK IGNITION ENGINES

C382/011	The thermal properties of engine deposits and their effect on combustion chamber heat transfer <i>T K Hayes, J E Peters and R A White</i>	1
C382/030	Optimization of combustion chamber design <i>J Chapman, A Draper, G S Fairhead and S Wallace</i>	9
C382/074	Gaseous and methanol fuels in lean burn and stoichiometric engine concepts with emphasis on exhaust gas emissions — thermodynamic simulations <i>J J Seppen and R R J Ter Rele</i>	19
C382/098	A transient engine mapping model for analysing and predicting fuel consumption and emissions <i>H C Watson and B Alimoradian</i>	27
C382/015	The role of cooling water and lubricating oil temperatures on transient emissions during SI engine warm-up <i>G E Andrews, J R Harris and A Ounzain</i>	37
C382/009	SI engine cold start behaviour and fuel calibration <i>P J Shayler, R M Isaacs and T H Ma</i>	51
C382/109	The influence of fuel on inlet valve deposits in petrol engines <i>P Daneshgari</i>	61
C382/087	Analysis of hot-wire anemometry in automotive applications <i>F Arcari, L Merlini and U Ghezzi</i>	69
C382/103	Assessment of chamber and inlet port designs using multidimensional flow modelling <i>R Taghavi and A Dupont</i>	83
C382/084	Twin spark engine <i>A Piccone, P Lanati and P Scapecchi</i>	91
C382/126	The IAPAC two-stroke engine with compressed air assisted fuel injection: origin and reduction of pollutant emissions <i>P Duret and J-F Moreau</i>	99

TRANSMISSIONS

C382/124	Four speed automatic transmissions: a new generation of microprocessor-based control system <i>F Leorat</i>	109
C382/079	Hydro-electronic tension belt continuously variable transmission for passenger cars <i>K F Schneider</i>	117
C382/048	Electronic control of continuously variable transmission and its extension to engine transmission management <i>W T M Gieles</i>	135
C382/089	Simulations of vibrations in powertrains to minimize gear rattling <i>A Laschet</i>	139
C382/043	Effects of gear tooth contact on automobile transmission gear noise <i>I Nakagawa, N Maruyama, K Morikawa and N Hitomi</i>	147
C382/096	Effect of final drive ratio on driver's behaviour and fuel consumption in real urban traffic <i>S Gassmann and B Breuer</i>	153
C382/117	Automotive driveline dynamic behaviour simulation <i>G Ambrosi and L Orifino</i>	159

C382/118	Dynamic evaluation of a driveline with composite driveshaft <i>M Gilardi and L Orifino</i>	171
C382/021	Interfacial contact behaviour of transmission synchronisers <i>M J Haigh, D C Barton and A de Pennington</i>	183
C382/017	Computer aided analysis of general mechanical transmission systems—some examples <i>A Hedman</i>	193
C382/024	Induced torque amplification in viscous couplings <i>H Taureg and J Horst</i>	199
C382/092	A 'new family' transmission range—its design and development <i>M P Stemmer</i>	213
C382/108	Drive line with energy recovery for local authority vehicle <i>G Lexen and A Schmidt</i>	227
	DIESEL ENGINES	
C382/061	The influence of diesel fuel quality on exhaust gas emissions <i>A Buchsbaum and W Bohme</i>	233
C382/070	The development of a 1.8L diesel engine for passenger car application <i>P J Lawrence, D Knight and W A Carnochan</i>	239
C382/140	Improvements in transient diesel engine performances by electronic control of injection <i>J Martin</i>	255
C382/112	Electric hybrid drive systems for application in road vehicles <i>P Walzer and A Kalberlah</i>	267
C382/116	Pulse charging—a new approach for dynamic charging <i>O Schatz and T Steidele</i>	275
C382/095	Effect of ceramic insulation on the performance, heat release pattern and heat transfer in a turbocharged diesel engine <i>N Hay, W G Barr and B A French</i>	283
C382/073	The installation of a low noise diesel engine into a 5.6 tonne truck <i>R A Farnell, R A Pettitt and B W Towch</i>	293
C382/069	Improvements in the performance and reliability of a turbo intercooling diesel engine <i>F Gonzalez Balmas and F Payri Gonzalez</i>	305
C382/122	The combustion chamber shape parameters and their influence on emissions of a direct injection turbocharged diesel engine <i>P Belardini, C Bertoli, F E Corcione and G Police</i>	313
	STEERING	
C382/134	Optimization on steering mechanism for high-speed coaches <i>J Nemeth</i>	325
C382/136	The PSA approach in the design of four-wheel-steering vehicles <i>E Lescaut</i>	331
C382/081	Improved active safety of a passenger car by additional four-wheel steering <i>P Mittermayr, P Lugner and K O Endlicher</i>	339
C382/052	The application of Taguchi methodology to solving steering wheel noggle vibration <i>R Bosworth</i>	347
C382/065	Electric servo drive for front and rear wheel power steering <i>W Schleuter</i>	361

ALL WHEEL DRIVE

- C382/076 All wheel drive system with slip speed control 369
A L Miller, J J Coogan and S R Anderson
- C382/040 Four wheel drive in a new series of mid-sized passenger cars 381
D Manthey and O Fleischmann
- C382/055 All wheel drive and a concept of 'central' drive distribution 389
M Fajdiga and N Janicijevic

TRUCK SUSPENSION AND BRAKES

- C382/013 New modular anti-lock braking system (ABS) for trailers 395
E Petersen, H Kaess and K-H Hesse
- C382/119 Composite leaf springs for light commercial vehicles 405
E Faroni and S Quaranta
- C382/059 Electronically controlled air suspension (ECAS) for commercial vehicles 411
K H Schoenfeld and H Geiger

BRAKES

- C382/053 Surface crack initiation in ventilated disc brakes under transient thermal loading 419
A H D'Cruz
- C382/051 An experimental investigation into drum brake squeal 431
A M Lang and T P Newcomb
- C382/057 Modelling of friction materials tribological properties for the assessment of braking force distribution 445
J Todorovic, C Duboka and Z Arsenic
- C382/047 Influence of tyre and suspension dynamics on the braking performance of an anti-lock system on uneven roads 453
P van der Jagt, H B Pacejka and A R Savkoor

ENGINE INVESTIGATIONS

- C382/082 Experimental and theoretical analysis of the flow in exhaust pipe junctions 461
P Flamang and R Sierens
- C382/005 Energy savings in hydraulic coolant circuits 471
E H Fisher, R A Marshall and J Haigh
- C382/056 Cylinder liner's oscillation 479
M Mazuran
- C382/046 Prediction of crankshaft and flywheel dynamics 487
I T Martin and B Law

TYRES

- C382/014 Road and tyre non-uniformities: simulation of their effects inside a vehicle 499
F N Mambretti
- C382/131 Development of a tyre monitor 509
M J Hebert

VEHICLE DYNAMICS AND TRACTION CONTROL

- C382/123 A mathematical model of road excitation and its interaction with a non-linear model of a car 511
E Pellegrino and U Tornar
- C382/049 Calculation of the vehicle swept path by dynamic simulation for better understanding of articulated vehicle behaviour 517
R E Schuurman

C382/113	Anti-slip-control system with high safety and comfort <i>R Kupper and N Hover</i>	523
C382/036	Possible approaches to a traction control system <i>H H Demel and A S Sigl</i>	533
VIBRATION AND SUSPENSIONS		
C382/058	The design and advanced development of a semi-active suspension <i>C Charalambous, A Brunning and I L Crawford</i>	539
C382/034	Variable suspension damping using electro-rheological fluids <i>R Stanway, J L Sproston and X Wu</i>	547
C382/018	Vibration testing of commercial vehicle cooling packages <i>M A Bonyad, B D A Phillips and D Wilcock</i>	559
COMPUTER AIDED ENGINEERING		
C382/039	Impact of CAE in powertrain design <i>M J Wright and R M Janczak</i>	565
C382/125	An expert system for maximum performance in packaging <i>C Houellebecq, J P Delmas, P H Mazas and J L Escudie</i>	579
GENERAL OVERVIEW		
C382/026	Fuel economy—a new approach to optimization <i>H J Forster</i>	583
C382/023	A totally integrated vehicle electronic control system <i>Y Ohyama</i>	595
C382/115	Microcomputers in safety related vehicle applications <i>R Faller</i>	601
LATE PAPER		
C382/094	Feedback control in the truck suspension design <i>K J Jedrzejczyk and J W Osiecki</i>	609
