The Nature of Credit Markets in Developing Countries:
A Framework for Policy Analysis

<u>Chapter</u>	<u>Table of Contents</u>	<u>Page No.</u>
I.	<u>Introduction and Summary of Results</u>	
1.1	Background and Problem to be Addressed	1
1.2	Selective Review of the Literature	10
1.3	The Special Nature of the Credit Market	16
1.4	Summary of Results	27
II.	<u>The Basic Model with Risk Neutrality</u>	
2.1	Repayment under Uncertainty: An Overview	42
2.2	Dependence of Uncertain Returns on Loan Taken	43
2.3	Dependence of Repayment on Returns	45
2.4	Definition of Competitive Equilibrium	47
2.5	Derivation of Demand and Supply Curves for Loans	49
2.6	Definitions of the Pessimism Factor	53
III.	<u>Identical Expectations and Definition of Loan Market</u>	
3.1	Efficiency of Competitive and Monopoly Equilibrium	55
3.2	The Competitive Loan Market: Comparative Statics	60
3.3	Analysis of Effects of Changes in Pessimism Factor	62
3.4	Implication for Equity Decisions and Debt-Equity Ratio.	64
3.5	Prime Borrowers and the Prime Rate Convention	65
3.6	Loan Terms Under Monopoly	67

Table of Contents (continued)

IV.	<u>Differential Expectations as a Cause for Inefficiency</u>	
4.1	The Degree of Inefficiency	70
4.2	Analysis of the Competitive Market under Differential Expectations	74
4.3	Absence of Credit Rationing in Free Markets	77
4.4	Implications for Long Term Loans, Lending to Small Entrepreneurs and Loans for New Products and Exports	80
4.5	Policy Analysis	83
4.6	Comparative Statics: Similarities and Difference from Identical Expectations	88
4.7	Effect of Collateral Non-availability on Loans And on Policy Prescriptions	89
4.8	The Unconventional Case	94
4.9	The Pseudo-Monopoly Solution	95
V.	<u>Competitive Monopoly as the General Loan Market Form</u>	
5.1	The Formal Model	97
5.2	The Process of Reaching Equilibrium	100
5.3	Implications for Credit Markets	101
5.4	Role of Transaction Costs	105
5.5	Macro Implications and Role of Bank Intermediation	107
VI.	<u>Honest and Dishonest Borrowers: The Problem of Moral Hazard and Existence of Markets</u>	
6.1	The Problem and Its Analysis	110
6.2	Implications of The Model	114
6.3	Research and Development in Banking and the Difference between Private and Social Benefits	118

Table of Contents (continued)

VII.	<u>Lack of Information and Adverse Selection</u>	
7.1	Outline of The problem	123
7.2	The Formal Analysis	125
7.3	Non-lending to Certain Categories of Firms	128
7.4	Absence of Long-Term Loans and Other Implications	131
VIII.	<u>Conclusions and Suggestions for Further Work</u>	
8.1	Overview	133
8.2	Changes in Degree of Uncertainty	136
8.3	Non-perfect Market on Deposit Side	137
8.4	Risk Aversion on The Part of Borrower or Lenders	137
8.5	Multiperiod Loans	138
8.6	Implications for Entrepreneurial Savings.	138
	<u>Footnotes</u>	
	Chapter I	139
	Chapter II	144
	Chapter III	146
	Chapter IV	148
	Chapter V	151
	Chapter VI	152
	Chapter VII	153
	Chapter VIII	153
	References	154

Table of Contents (continued)

Mathematical Appendices

Appendix 1:	Basic Model	158
Appendix 2:	Identical Expectations	167
Appendix 3:	Differential Expectations General and Competitive	173
Appendix 4:	Differential Expectation, Monopoly Case	185
Appendix 5:	Moral Hazard	190
