PART I INTRODUCTION

1 Economic Development Redefined	3
1.1 The traditional approach to economic development	3
1.2 The global strategic transition – a new approach	8
1.3 The book's structure	12
2 The Global Strategic-Transition Model	17
2.1 The unfolding technological paradigm	17
2.2 The dynamics of global strategic transition	21
2.3 Conclusions	28

PART II PROGRESS OF THE GLOBAL STRATEGIC TRANSITION

3 The Unfolding Technological Paradigm	31
3.1 In the beginning	32
3.2 Charting the course of the global strategic transition	35
3.3 Conclusions	41
4 The State of the Third World	43
4.1 An analytical framework	43
4.2 Development difficulties at the end of the twentieth century – a new interpretation	59
4.3 Conclusions	78
5 The State of the Second World	79
5.1 The real nature of economies in transition	79
5.2 The real meaning of 'transition'	82
5.3 The rise and fall of the Soviet world	85
5.4 The beginning of strategic transition	100
5.5 Conclusions	102

PART III TRADITIONAL THEORY, POLICY, AND VISIONS	
6	Traditional Development Theory 107
6.1	The productionists 107
6.2	The poverty-trap theorists 115
6.3	The global-polarization theorists 116
6.4	The institutionalists 119
6.5	Conclusions 125
7	Traditional Development Policy 126
7.1	The state or the market? 126
7.2	General policy issues 134
7.3	Specific policy issues 141
7.4	Conclusions 157
8	Traditional Visions of the Future 158
8.1	The productionist vision 158
8.2	Historicist visions 161
8.3	Conclusions 170
 PART IV STRATEGIC DEMAND	
9	The Global Dynamic-Strategy Model 175
9.1	The global context 175
9.2	The driving force 177
9.3	The dynamic mechanism 178
9.4	Strategic demand and strategic confidence 180
9.5	Strategic demand and strategic response 182
9.6	Conclusions 183
10	The Driving Force 185
10.1	The driving force 186
10.2	The strategic-imitation model of decision-making 190
10.3	The role of rules 198
10.4	Conclusions 201
11	The Global Strategic Demand–Response Mechanism 202
11.1	Fluctuations in global strategic demand 202
11.2	The changing structure of global strategic demand 203
11.3	The strategic demand–response mechanism 207

11.4	The growth–inflation curve	208
11.5	Conclusions	214

PART V STRATEGIC RESPONSE

12	The Strategy Function	219
12.1	What is the strategy function?	219
12.2	Does the aggregate production function exist?	224
12.3	Conclusions	228
13	Population	229
13.1	Demographic or strategic transition?	230
13.2	Low-level equilibrium trap or strategic deficiency?	250
13.3	Conclusions	253
14	Capital Accumulation	254
14.1	The role of physical capital	254
14.2	The role of human capital	261
14.3	The dynamic-strategy solution	263
14.4	Conclusions	264
15	Technological or Strategic Change?	265
15.1	The traditional approach to the role of technological change	265
15.2	The dynamic-strategy approach to technological change	273
15.3	Conclusions	279
16	Institutional Response	280
16.1	Orthodox approaches	280
16.2	The strategic approach	290
16.3	Conclusions	298
17	Government and Strategic Leadership	299
17.1	The orthodox approach to government	300
17.2	The strategic approach to government	307
17.3	Strategic leadership	315
17.4	Conclusions	319

PART VI CONCLUSION

18	Strategic Predictions and Policies	323
18.1	Strategic predictions of the future	323

18.2	Strategic policy	327
18.3	Conclusions	336
	<i>Notes</i>	338
	<i>Glossary of New Terms and Concepts</i>	344
	<i>Bibliography</i>	356
