A Game Theory Analysis of Options

Contributions to the Theory
of Financial Intermediation
in Continuous Time

Springer

Table of Contents

1. Methodological Issues	1
1.1 Introduction	1
1.2 Game Theory Basics: Backward Induction and Subgame Perfection	2
1.3 Option Pricing Basics: The General Contingent Claim Equation	5
1.4 The Method of Game Theory Analysis of Options	6
1.5 An Example: Determining the Price of a Perpetual Put Option	7
1.5.1 Step 1: Structure of the Game	7
1.5.2 Step 2: Valuing the Option	8
1.5.3 Step 3: Solving the Game	9
1.5.4 The Solution	11
1.6 Outline of the Book	11
2. Credit and Collateral	15
2.1 Introduction	15
2.2 The Risk-Shifting Problem	16
2.2.1 The Model	17
2.2.2 Valuing the Players' Payoffs	18
2.2.3 Developing an Incentive Contract	18
2.2.4 Dynamically Stable (Renegotiation-Proof) Incentive Contracts	21
2.2.5 The Feasible Dynamically Stable Incentive Contract	23
2.2.6 The Financing Decision	24
2.2.7 The Effect of Payouts	24
2.3 The Observability Problem	25
2.3.1 Costly State Verification	26
2.3.2 Collateral	27
2.4 Conclusion	30

3.	Endogenous Bankruptcy and Capital Structure	33
3.1	Introduction	33
3.2	The Model	34
3.3	The Value of the Firm and its Securities	36
3.3.1	The Value of Debt	36
3.3.2	The Value of the Firm	38
3.3.3	The Value of Equity	39
3.4	The Effect of Capital Structure on the Firm's Bankruptcy Decision	40
3.4.1	The Equity Holders' Optimal Bankruptcy Choice	40
3.4.2	The Principal-Agent Problem of Endogenous Bankruptcy	41
3.4.3	Measuring the Agency Cost of Debt	44
3.5	The Investment Decision	44
3.5.1	Myers' (1977) Underinvestment Problem	45
3.5.2	Risk-Shifting	46
3.5.3	Measuring the Agency Cost of Debt: II	48
3.5.4	The Incentive Effects of Loan Covenants	49
3.6	The Financing Decision	50
3.6.1	Optimal Capital Structure	50
3.6.2	Interest Payments vs. Increase in the Face Value of Debt	54
3.6.3	Equilibrium on the Credit Market	56
3.6.4	Capital Structure and the Expected Life of Companies	56
3.7	An Incentive Contract	58
3.8	Extensions of the Model	60
3.8.1	The Value of the Firm and its Securities	60
3.8.2	The Bankruptcy Decision	61
3.8.3	The Effect of the Payout Rate on Equity Value	62
3.8.4	Effect of a Loan Covenant on the Optimal Payout Rate	63
3.9	Conclusion	64
4.	Junior Debt	67
4.1	Introduction	67
4.2	The Model	67

4.3	The Value of the Firm and its Securities	69
4.3.1	The Value of Senior Debt	69
4.3.2	The Value of Junior Debt	71
4.3.3	The Value of the Firm	72
4.3.4	The Value of Equity	74
4.4	The Equity Holders' Optimal Bankruptcy Choice	76
4.5	The Firm's Decision to Issue Junior Claims	79
4.6	The Influence of Junior Debt on the Value of Senior Debt	84
4.6.1	On the Impossibility of Total Immunization	84
4.6.2	On the Impossibility of Immunization against Negative Influence	85
4.7	Conclusion	86
5.	Bank Runs	89
5.1	Introduction	89
5.2	The Model	89
5.3	The Incentive to Start a Run	91
5.4	A Preliminary Condition for the Existence of Banks	91
5.5	Valuing the Bank's Equity	93
5.6	The Shareholders' Recapitalization Decision	94
5.7	The Bank's Investment Incentives when Bank Runs are Possible	98
5.8	The Bank's Funding Decision	100
5.8.1	On the Feasibility of Viable Intermediation in General	100
5.8.2	Optimal Bank Capital when Asset Risk is Positive	101
5.8.3	Optimal Bank Capital with Zero Asset Risk	103
5.9	A Note on the Equilibrium Deposit Spread	104
5.10	Conclusion	104
6.	Deposit Insurance	107
6.1	Introduction	107

6.2	The Model	107
6.3	Valuing Deposit Insurance, Bank Equity and Social Welfare	109
6.3.1	The Value of the Deposit Insurance Guarantee	109
6.3.2	The Value of Bank Equity	110
6.3.3	The Value of Social Welfare	111
6.4	The Guarantor's Liquidation Strategy and Social Welfare	112
6.4.1	Minimizing the Cost of the Guarantee	112
6.4.2	Maximizing Social Welfare	113
6.4.3	Can Deposit Insurance Enhance Social Welfare?	114
6.5	The Incentive Effects of Deposit Insurance	115
6.5.1	The Investment Decision	115
6.5.2	The Financing Decision	117
6.6	Deposit Insurance when there are Liquidation Delays	119
6.7	Deposit Insurance with Unobservable Asset Value	120
6.7.1	A First Attempt: Extending the Model of Chapter 3	120
6.7.2	Merton's Solution	127
6.8	Conclusion	130
7.	Summary and Conclusions	133
	Table of Symbols	137
	References	143
