MOTOR LEARNING & PERFORMANCE

◇ FROM PRINCIPLES TO PRACTICE ◇

Richard A. Schmidt, PhD
University of California, Los Angeles

Human Kinetics Books
Champaign, Illinois

Contents

Preface vii

Chapter 1 **Introduction to Motor Performance and Learning** 1
Applications of Knowledge About Skills 3
Skill Definitions 4
The Many Components of Skills 5
Skill Classifications 6
Understanding Performance and Learning 10
Chapter Summary 11

◇ **Part I Principles of Human Skilled Performance** 13

Chapter 2 **Processing Information and Making Decisions** 15
Information-Processing Approach 16
Reaction Time and Decision Making 18
Attention and Human Performance 30
Three Memory Systems 41
Chapter Summary 43

Chapter 3 **Sensory Contributions to Skilled Performance** 45
Sources of Sensory Information 46
Closed-Loop Control Systems 48
Closed-Loop Control Within the Conceptual Model 49
Principles of Visual Control 64
Chapter Summary 74

Chapter 4 **Movement Production and Motor Programs** 77
Motor Program Theory 79
Open-Loop Control Within the Conceptual Model 82
Generalized Motor Programs 92
Chapter Summary 99

Chapter 5 **Principles of Motor Control and Movement Accuracy** 101
Invariant Features in a Generalized Motor Program 102
Determinants of Accuracy in Rapid Movements 109
Chapter Summary 124

Chapter 6 **Individual Differences and Motor Abilities** 127
Study of Individual Differences 128
Abilities and Capabilities 129
Skill Classification and Task Analysis 141
Prediction and Selection 142
Chapter Summary 147

Part II Principles of Skill Learning 149

Chapter 7 **Motor Learning: Concepts and Methods** 151
The Concept of Motor Learning 152
How Is Motor Learning Measured? 156
Chapter Summary 169

Chapter 8 **Preparations and Strategies for Designing Practice** 171
The Stages of Learning 172
Some Considerations Before Practice 174
Basic Principles of Practice 178
Chapter Summary 196

Chapter 9 **Organizing and Scheduling Practice** 199
Organizing Practice 200
Numerous Benefits of Practice 214
Chapter Summary 224

Chapter 10 **Feedback for Skill Learning** 227
Feedback Classifications and Functions 228
How Information Feedback Is Used for Learning 238
Chapter Summary 258

Part III Applying the Principles 261

Chapter 11 **Integration and Application** 263
Pre-Practice Preparations 264
Practice Organization by Stage of Learning 273
Evaluation of Learning 278
Chapter Summary 280

Glossary 283
References 289
Credits 297
Author Index 301
Subject Index 304
