                      |                                                                      | SINOx Emissions Control, Argillon GmbH                                  |
|            |                                                                      | Bernd Ballmert                                                          |
|            |                                                                      | SINOx Emissions Control, Argillon LLC                                   |
2004-01-0076 Reliability of DPF-Systems: Experience with 6000 Applications of the Swiss Retrofit Fleet

Andreas Mayer
TTM
Jan Czerwinski and Jean-Luc Pétermann
University of Applied Sciences, Biel-Bienne
Max Wyser
BUWAL
Friedrich Legerer
AKPF

2004-01-0077 Durability Studies of a Base Metal Catalyzed Particulate Filter in a Severe Non-road Application

Kevin F. Brown
Lubrizol Engine Control Systems
Greg Rideout, Jacek Rostkowski
and Norman Meyer
Environment Canada

2004-01-0078 Experience of Continuously Regenerating Particulate Traps on City Buses in Europe

Bill Ball, David Hully, Philippe Lausseur
and Nick Lyons
Eminox Ltd.

2004-01-0079 Long-Term Durability of Passive Diesel Particulate Filters on Heavy-Duty Vehicles

Ken Kimura
BP
Teresa L. Alleman
National Renewable Energy Laboratory
Sougato Chatterjee
Johnson Matthey
Kevin Hallstrom
Engelhard Corporation

2004-01-0080 Model Studies of Sulphur Deactivation of Nox Storage Catalysts

Erik Fridell and Magnus Skoglundh
Competence Centre for Catalysis, Chalmers University of Technology

2004-01-0577 NOx-Particulate Filter (NPF): Evaluation of an After-Treatment Concept to Meet Future Diesel Emission Standards

Marco Ranalli, Stefan Schmidt and Lee Watts
ArvinMeritor LVS, Air and Emission Technologies
2004-01-0578  Development of a New DPNR Catalyst ................................................. 125  Tatsuji Mizuno and Juji Suzuki  Toyota Motor Corporation

2004-01-0579  Development of a Simultaneous Reduction  
System of NOx and Particulate Matter  
for Light-Duty Truck ................................................................. 131  Akira Shoji, Shinji Kamoshita,  
Tetsu Watanabe and Toshiaki Tanaka  
Toyota Motor Corporation, Japan  
Masahiko Yabe  
Hino Motors LTD, Japan

2004-01-0580  Development of NOx Trap System  
for Commercial Vehicle -  
Basic Characteristics and Effects  
of Sulfur Poisoning - ................................................................. 141  Yoshinori Takahashi, Yoshinaka Takeda,  
Nobuhiro Kondo and Minehiro Murata  
Mitsubishi Fuso Truck & Bus Corp.

2004-01-0581  Development of a Diesel Passenger  
Car Meeting Tier 2 Emissions Levels ............................................. 149  Dean Tomazic and Marek Tatur  
FEV Engine Technology, Inc.  
Matthew Thornton  
National Renewable Energy Laboratory

2004-01-0582  NOx Trap Regeneration with an  
On-Board Hydrogen Generation Device ........................................ 165  Yougen Kong, Sam Crane,  
Palak Patel and Bill Taylor  
ArvinMeritor, Inc.

2004-01-0584  Achieving Tier 2 Bin 5 Emission Levels with  
a Medium Duty Diesel Pick-Up and a NOX Adsorber,  
Diesel Particulate Filter Emissions System  
—Exhaust Gas Temperature Management ..................................... 173  Cynthia C. Webb and Phillip A. Weber  
Southwest Research Institute®  
Matthew Thornton  
National Renewable Energy Laboratory

2004-01-0585  Achieving Tier 2 Bin 5 Emission Levels with  
a Medium Duty Diesel Pick-Up and a NOX Adsorber,  
Diesel Particulate Filter Emissions System  
—NOX Adsorber Management ..................................................... 183  Cynthia C. Webb and Phillip A. Weber  
Southwest Research Institute®  
Matthew Thornton  
National Renewable Energy Laboratory
Systems Approach to Meeting EPA 2010 Heavy-Duty Emission Standards Using a NOx Adsorber Catalyst and Diesel Particle Filter on a 15L Engine

Shawn D. Whitacre
National Renewable Energy Laboratory
Brad J. Adelman, Mike P. May
and Joseph G. McManus
Ricardo, Inc.

Retrofit Program of a EURO 1 and EURO 2 Urban Bus Fleet in La Rochelle, Using the Ceria-based Fuel-borne Catalyst for Diesel Particulate Filter Regeneration (Phase #1)

Daniel Biancotto, Turkay Erol and Henri Georges
AIRMEEX
Jacques Lavy and Brigitte Martin
IFP (Institut Français du Pétrole)
Gilbert Blanchard and Pierre Macaudiere
Rhodia Electronics & Catalysis
Jean-Marie Grellier
CDA La Rochelle
Thierry Seguelong
Aaqius & Aaqius

Influence of the Nitrogen Dioxide Based Regeneration on Soot Distribution

Markus Maly, Michael Claussen and Otto Carlowitz
CUTEC Institut GmbH
Peter Kroner, Marco Ranalli and Stefan Schmidt
ArvinMeritor LVS-Air and Emission Technologies

DPR Developed for Extremely Low PM Emissions in Production Commercial Vehicles

Hisaki Toorisaka, Jinichi Minamikawa, Hironori Narita,
Toshikatsu Muramatsu and Testuichi Kominami
Hino Motors, Ltd.
Takeshi Sone
Tokyo Roki Co., Ltd.

Ash Storage Capacity Enhancement of Diesel Particulate Filter

Kazutake Ogyu, Kazushige Ohno,
Sungtae Hong and Teruo Komori
IBIDEN Co., LTD
2004-01-0950  Asymmetrical Channels to Increase DPF Lifetime..................243
S. Bardon, B. Bouteiller, N. Bonnail,
P. Girot, V. Gleize and L. Oxarango
Saint-Gobain CREE
P. Higelin
Laboratoire de Mécanique et d'Energétique
J. Michelin, S. Schuerholz and F. Terres
Tenneco Automotive - Heinrich Gillet GmbH & Co. KG

2004-01-0951  Durability Study on Si-SiC Material for DPF(2)...............255
S. Ichikawa, Y.Uchida,
A. Kaneda and T. Hamanaka
NGK Insulators, Ltd.

2004-01-0952  Engine Bench and Vehicle Durability Tests
of Si bonded SiC Particulate Filters.............................263
A. Schäfer-Sindlinger and C. D. Vogt
NGK Europe GmbH
J. Okumura, T. Toyoshima and S. Hashimoto
NGK Insulators, Ltd.

2004-01-0953  New Cordierite Diesel Particulate Filter
Material for the Diesel Particulate
- NOx Reduction System .............................................273
Yoshiyuki Kasai, Shinichi Miwa
and Tatsuyuki Kuki
NGK Insulators LTD.
Kouji Senda and Yoshitsugu Ogura
Toyota Motor Corporation

2004-01-0954  Further Durability Enhancement of
Re-crystallized SiC-DFP ...........................................281
Kazushige Ohno, Kazunori Yamayose,
Hiroki Sato and Kazutake Ogyu
IBIDEN Co.,LTD.

2004-01-0955  Properties and Performance of Diesel
Particulate Filters of an Advanced Ceramic Material ..........289
Cheng G Li*, Frank Mao
and Steven B. Swartzmiller
Dow Automotive
Sten A. Wallin and Robin R. Ziebarth
The Dow Chemical Company

2004-01-0958  Diesel Particulate Filter
Operational Characterization ......................................297
Robert J. Locker, Constance B. Sawyer, Shinjini Menon,
Peter Floerchinger and Angus G. Craig
Corning Incorporated
2004-01-0959 Study on Reliability of Wall-Flow Type Diesel Particulate Filter ..............................................................307
Tatsuyuki Kuki, Yukio Miyairi,
Yoshiyuki Kasai, Makoto Miyazaki and Shinichi Miwa
NGK Insulators, Ltd.

2004-01-1289 The Development and In-Field Demonstration of Highly Durable SCR Catalyst Systems .........................323
A. P. Walker, P. G. Blakeman,
T. Ilkenhans, B. Magnusson and A. C. McDonald
Johnson Matthey, Environmental Catalysts and Technologies
P. Kleijwegt and F. Stunnenberg
Chevron Oronite Technology
M. Sanchez
Cummins Inc

Lothar Hofmann, Klaus Rusch and Stefan Fischer
SINOx Emission Control, Argillon GmbH
Bertrand Lemire
SiemensVDO Automotive

2004-01-1291 NOx Control Development with Urea SCR on a Diesel Passenger Car ......................................................349
Paul Tennison, Christine Lambert and Michael Levin
Ford Research & Advanced Engineering

2004-01-1292 Technical Advantages of Urea SCR for Light-Duty and Heavy-Duty Diesel Vehicle Applications ...............357
Christine Lambert and Robert Hammerle
Ford Research & Advanced Engineering
Ralph McGill
Oak Ridge National Laboratory
Magdi Khair and Christopher Sharp
Southwest Research Institute

2004-01-1293 Diesel SCR NOx Reduction and Performance on Washcoated SCR Catalysts ..............................................367
Tinghong Tao, Yuming Xie, Steven Dawes
and Isabelle Melscoet-Chauvel
Corning Incorporated
Marcus Pfeifer and Paul C. Spurk
Umicore AG & Co. KG
2004-01-1294  LOTUS: A Co-operation for Low Temperature Urea-Based Selective Catalytic Reduction of NOx ................................................................. 377
   Anders Palmqvist, Edward Jobson, Lennart Andersson,
   Roland Granbro, Marcus Wendin and Lucas Megas
   Volvo Corp.
   Patrick Nisius, Andreas Wiartalla and Gerhard Lepperhoff
   FEV Motorentechnik GmbH
   Phil Blakeman, Thomas Ilkenhans and Dennis Webster
   Johnson Matthey PLC
   Gunnar Haefler
   Siemens Laser Analytics AB
   Patrick van de Voorde
   EPIQ Sensor-Nite N.V.
   Peter Schmidt-Zhang and Ulrich Guth
   Kurt-Schwabe-Institut für Mess- und Sensortechnik e.V.
   Mikaela Wallin
   Chalmers University of Technology

2004-01-1419  Comparative Analysis of Different Heavy Duty Diesel Oxidation Catalysts Configurations ................................................................. 389
   Peter Flörchinger, Marcos G. Ortiz
   and Roychelle Ingram-Ogunwumi
   Corning Incorporated

2004-01-1420  Diesel Emission Control Devices -Design Factors Affecting Mounting Mat Selection ................................................................. 395
   James R. Olson
   Unifrax Corporation

2004-01-1421  The Development of a RTD Temperature Sensor for Exhaust Applications ................................................................. 401
   C. Scott Nelson, David Chen,
   Joseph Ralph and Eric D’Herde
   Delphi Corporation

2004-01-1422  Diagnostics for Diesel Particulate Filters ................................................................. 411
   M. J. van Nieuwstadt and D. F. Trudell
   Ford Motor Company

2004-01-1423  The Study of Particle Number Reduction Using After-Treatment Systems for a Heavy-Duty Diesel Engine ................................................................. 419
   Mitsuru Hosoya, Seiji Shundo and Masatoshi Shimoda
   Hino Motors, Ltd.

2004-01-1424  Homogeneous Loading and Regeneration of Diesel Particulate Filters using Progressive Spin Elements ................................................................. 425
   J. Oesterle, G. Gaiser and P. Zacke
   J. Eberspaecher GmbH & Co KG
2004-01-1425 Combined NOx and PM Exhaust Gas Aftertreatment Approaches for HSDI Diesel Engines
Holger Herrmuth, Thomas Cartus, Robert Ducellari and Otfried Derschmidt
AVL List GmbH, Austria

2004-01-1427 Low Sulfate Generation Diesel Oxidation Catalyst
Yasuharu Kanno, Takashi Hihara, Takeshi Watanabe, Katsuaki Katoh and Makoto Nagata
N.E. Chemcat Corporation

2004-01-1430 Pre-filter Diesel Oxidation Catalyst Development for DOC-CSF System
Yasuyuki Banno, Yasushi Tanaka, Takashi Hihara and Makoto Nagata
N.E. Chemcat Corporation
