## Table of contents

Preface	VII
<i>Dams, floods and safety</i>	
Dams and valleys safety: A present and future challenge <i>A. Betâmio de Almeida &amp; T. Viseu</i>	3
Dams and safety management at downstream valleys <i>E. J. Plate</i>	27
The use of performance parameters in monitoring the safety of dams <i>C. J. Veesaert</i>	45
Dams and flood risks <i>F. Lempérière</i>	51
Optimization of available resources for dam safety <i>R. Martins &amp; T. Viseu</i>	57
On risk perception and cost negotiation for downstream valleys <i>L. Valadares Tavares</i>	63
Dam-break studies in Italy <i>L. Natale</i>	69
Potential downstream risk assessment in Spanish dam safety legislation <i>J. Penas</i>	79
<i>Social sciences applied to valley safety management</i>	
Risk versus standard based approaches to dam safety: The consequences for community involvement in decision making and safety management in the Australian context <i>G. J. Syme</i>	91
Dam failure versus flood risk perception <i>M. L. Lima</i>	103
Social sciences involvement in dams and safety management of downstream valleys: A first approach to Arade and Funcho's dam break flood risk perception <i>D. Sousa e Silva</i>	111

Positive illusions related to dam risks <i>S.A.Silva &amp; M.L.Lima</i>	123
Land use management and dam break flood risk: The Arade River case study <i>V.Campos &amp; P.Farrajota</i>	127
 <i>Advanced technologies for valley safety management</i>	
Detection and assessment of dambreak-scenarios <i>K.Kast &amp; A.Bieberstein</i>	133
One and two-dimensional modelling of a dam-break flood propagation on a complex natural valley: A case study <i>A.Bento Franco &amp; A.Betâmio de Almeida</i>	143
GIS-based floodplain management in urban developing areas <i>F.N.Correia, M.G.Saraiva &amp; F.N.Silva</i>	149
Creating a land use management decision support system for areas subject to dam break flood risk <i>P.Farrajota &amp; V.Campos</i>	169
A GIS for dam and valley safety management <i>M.Gamboa &amp; M.A.Santos</i>	173
A database for dam safety management <i>J.P.Fernandes &amp; M.J.Andrade</i>	179
 <i>Practical emergency and crisis planning</i>	
Federal Energy Regulatory Commission dam safety program: A cooperative approach for safety <i>C.G.Tjoumas, R.A.Corso, D.J.Mahoney &amp; J.W.Gotzmer</i>	189
Below the spillway: Ensuring effective warnings in a crisis <i>J.Handmer</i>	201
A new focus on emergency planning for dam safety <i>G.R.Sorensen</i>	213
Canadian perspective on dam safety and emergency preparedness planning <i>B.Hurdall</i>	219
Emergency response plans in France ‘DAMS’ <i>G.Magne</i>	235
Safety plan for the Zambezi Valley beyond Kariba Dam <i>D.Z.Mazvidza, P.Kapinga &amp; K.Gurukumba</i>	239
Portuguese Civil Protection System <i>J.Vasconcelos</i>	245
Author index	247
