CREEP OF ENGINEERING MATERIALS

A Journal of Strain Analysis Monograph

Edited by
C. D. POMEROY

MECHANICAL ENGINEERING PUBLICATIONS LIMITED
LONDON

Contents

	<i>Page</i>
Introduction	vii
Notation	ix
1. Time-dependent deformation of rocks, by C. D. Pomeroy	1
2. Time-dependent strains and creep in rock and soil structures, by R. H. Bassett	11
3. Creep of coal, by Hon-Yim Ko and K. H. Gerstle	39
4. Creep of concrete, by J. M. Illston	47
5. Creep of ceramic materials, by B. Wilshire	67
6. Creep deformation of metals, by H. Fessler and T. H. Hyde	85
7. Creep rupture, by F. A. Leckie and D. R. Hayhurst	111
8. Use of existing steel data in design for creep, by A. M. Goodman and I. W. Goodall	127
9. Some practical examples of creep in metal components and the resulting design problems, by F. P. Frost	153
10. Creep of fibre reinforced thermosetting resins, by J. D. Sturgeon	175
11. Creep of thermoplastics, by M. W. Darlington and S. Turner	197
12. Time-dependent behaviour of bituminous materials, by S. F. Brown	215
Index	233
