Table of Contents

Foreword x

Preface xii

Acknowledgment xvi

Section I:
Introduction to the Book Context

Chapter I
General Introduction 1
Organizations 1
Technology 3
General Systems Theory 4
The Nature of Theory of Organizations 6
Rationale for a New Theory on Organizations 7
The Scope of the Book 8
Motivations for this Research 10
Summary 15
References 15
Endnotes 21

Section II:
Organizational Cognition

Chapter II
Rationale for Organizational Cognition 23
Introduction 23
Preliminaries of Bounded Rationality and Contingency for Organizations: Cognition vs. Uncertainty 24

The Role of Organization Design in Organizational Cognition 26
Summary 31
References 32
Endnotes 33

Chapter III
A Theory of Organizational Cognition **35**
Introduction 35
Background, Critical View and Advancements 35
Ten Principles of Organizational Cognition 37
Hierarchic Levels of Cognition in Organizational Systems 38
Attributes of the Organization and the Environment 39
Organizational Cognition and the Environment 44
Definitions of the Organization 45
Cognitive Definition of the Environment 50
Cognitive Relations Between the Organization and the Environment 51
Cognitive Networks of Organizations 53
Summary 53
References 54
Endnotes 58

Section III:
Cognitive Machines

Chapter IV
Rationale for Cognitive Machines **62**
Introduction 62
Unification of Organizational and Technological Theories 62
Summary 65
References 65
Endnotes 67

Chapter V
Principles of Cognitive Machines **68**
Introduction 68
Humans, Cognition and Machines 68
Definitions of Machine Intelligence, Cognition, Autonomy and Complexity 69
Definition of Cognitive Machines 72
Contingency for Cognitive Machines 72
Theories and Technologies Behind Cognitive Machines 72
Summary 77
References 77
Endnote 80

Chapter VI
Design of Cognitive Machines **81**
Introduction 81
A General Structure of Information-Processing Machines 82
A Framework of Cognitive Machines 82
Levels of Symbolic-Processing 83
Processes within the Cognitive Machine Framework 84
Summary 93
References 94
Endnotes 96

Section IV:
Cognitive Machines in Organizations

Chapter VII
Analysis of Cognitive Machines in Organizations **99**
Introduction 99
Capability Boundaries of Cognitive Machines 99
The Role of Cognitive Machines in Conflict Resolution 103
Theorem for Cognitive Machines, Organizations and the Environment 106
Cognitive Machines, Designers and Organizations: Relationships 106
Summary 108
References 109
Endnotes 110

Section V:
Industrial Case Study

Chapter VIII
The Organization of Study **113**
Introduction 113
Approaches to the Study of the Organization 113
The Organization: NEC/NOB 114
The Pursuit of Excellence in the Organization 117
Scope, Purpose and Motivations for the Study 117
Strategy and the Expected Findings 118
Summary 119
References 120
Endnotes 120

Chapter IX
Organizational Cognition in the Industrial Case Study 122
Introduction 122
The Capability Maturity Model: Overview 122
Organization Process Capability, Maturity and Performance 124
Mature vs. Immature Organizations 124
Organizational Cognition vs. Organization Process Maturity 125
Organizational Cognition vs. Organization Process Capability and Performance 126
Organizational Cognition vs. Organizational Learning 127
The CMM in NEC/NOB 128
Summary 130
References 131
Endnotes 132

Chapter X
A Cognitive Machine in the Organization of Study 133
Introduction 133
Objectives 133
Scope of the Application 134
The Pursuit of Innovation in the Organization 134
Management Control in the Organization 135
Cognitive Machines in Management Control 136
The Management Control System 138
Design of the Cognitive Machine 140
Analysis of the Cognitive Machine 146
Summary 149
References 150
Endnotes 152

Chapter XI
Findings for the Industrial Case Study 153
Introduction 153
The Organization Process 154
Data of the Organization Process 156
Data Analysis 157
Organizational Findings 159
Summary 161
References 162
Endnote 162

Section VI:
Implications and the New Organization

Chapter XII
Implications of Cognitive Machines for Organizations 165
Introduction 165
On Information Technology and Economic Growth of Organizations 165
On Information Technology and Cognitive Machines 166
On Cognitive Machines in Organizations 166
Summary 169
References 170
Endnote 171

Chapter XIII
Beyond the Thresholds of Manufacturing Organizations 172
Introduction 172
Motivations 172
A Review of Manufacturing Organizations 173
Customer-Centric Systems 175
Management Perspectives 175
Socio-Technological Perspectives 178
Organizational Systems Theory Perspectives 183
Summary 187
References 188
Endnotes 190

Chapter XIV
The New Organization: Towards Computational Organization Management Networks 191
Introduction 191
The Scope of the New Organization 192
Cognitive Information Systems (CIS) 192
Participation of CIS in the Organization 192
Organization Functional Layers: The New Organization 193
Definition of Computational Organization Management Networks (COMN) 199
Structure and Processes of Computational Organization Management Networks (COMN) 200
Summary 200
References 202

Section VII:
General Conclusions

Chapter XV
Contributions and Extensions 205
Introduction 205
On the Unification of Organizational and Techological Theories 205
On Organizational Cognition 206
On the Design of Cognitive Machines 206
On Cognitive Machines and Organizational Cognition 207
On Cognitive Machines in Conflict Resolution: Analysis 208
On Organizational Cognition and Environmental Complexity 208
On Cognitive Machines, Organizations and the Environment 209
On the Participation of Cognitive Machines in Organizations 209
On the Industrial Case 210
On the Implications of Cognitive Machines for Organizations 214
On the Thresholds of Manufacturing Organizations 214
On the Computational Organization Management Networks 214
Further Extensions 215
On the Future of Organizations 217
Summary 217
References 219
Endnote 220

Appendix Section **221**

Glossary **312**

About the Authors **315**

Index **317**
