Contents

Editors' preface *page* ix
List of contributors xi

Part I Introduction

1 Address in honor of Jacques Drèze 3
Gérard Debreu

Part II Incomplete markets, increasing returns, and information

2 Asset pricing and observability 9
Jayasri Dutta and Heraklis Polemarchakis

3 The nonneutrality of money in a production economy with nominal assets 31
Michael Magill and Martine Quinzii

4 General equilibrium theory with increasing returns: The existence problem 65
Jean-Marc Bonnisseau and Bernard Cornet

5 Increasing returns and new developments in the theory of growth 83
Paul Romer

6 Stability of cycles with adaptive learning rules 111
Roger Guesnerie and Michael Woodford

7 Sunspot equilibrium as a game-theoretical solution concept 135
Françoise Forges

8 Provision of quality and power of incentive schemes in regulated industries 161
Jean-Jacques Laffont and Jean Tirole

Part III Equilibrium and dynamics

9 Stability of a Keynesian adjustment process 197
Jacques Drèze

10 Capacity adjustment in a competitive industry 233
Jean Gabszewicz and Philippe Michel

11 Economic dynamics with learning: Some instability examples 247
Jean-Michel Grandmont and Guy Laroque

12 On the uniqueness of equilibrium once again 275
Andreu Mas-Colell

Part IV Employment, imperfect competition, and macroeconomics

13 Risk sharing, the minimum wage, and the business cycle 299
Jean-Pierre Danthine and John B. Donaldson

14 A medium-term employment equilibrium 319
Edmond Malinvaud

15 Optimal government policy in a macroeconomic model with imperfect competition and rational expectations 339
Jean-Pascal Benassy

16 Imperfect competition, rational expectations, and unemployment 353
Claude d'Aspremont, Rodolphe Dos Santos Ferreira, and Louis-André Gérard-Varet

17 Competition for customers 383
Egbert Dierker

Part V Applied general equilibrium models

18 Trade policy modeling with imperfectly competitive market structures 405
Alasdair Smith and Anthony J. Venables

19 Seminonparametric Bayesian estimation of consumer and factor demand models 425
William A. Barnett, John Geweke, and Michael Wolfe
