## 1 INTRODUCTION

- Labour market restructuring and social change  
  1
- Britain as a case study  
  2
- The 1991 Census 1% and 2% SARs  
  3
- A new typology of sex-segregated and integrated occupations  
  7
- Recent trends in occupational segregation  
  15
- Cross-national comparisons  
  19
- Structure of the book  
  21

## 2 PROFILES OF INTEGRATED AND SEGREGATED OCCUPATIONS

- Theoretical and methodological approaches to occupational segregation  
  28
- Qualifications and careers  
  33
- Other job characteristics  
  39
- Workplace characteristics  
  43
- Personal characteristics of workers  
  46
- Social relations at work: divorce and remarriage rates  
  47
- Labour turnover  
  49
- Reversion to sex-typical occupations  
  56
- Conclusions  
  59

## 3 OCCUPATIONAL SEGREGATION, SOCIAL STRATIFICATION, AND THE PAY GAP

- Occupational segregation and social stratification  
  66
- Social stratification scales  
  68
- Social class and occupational segregation  
  69
- Average hourly earnings and the pay gap  
  73
- Occupational segregation and the pay gap  
  76
- Occupational grade and earnings  
  79
- Cross-national comparisons: Britain and the USA  
  81
- Conclusions  
  83
## Contents

4  WOMEN WITH DISCONTINUOUS EMPLOYMENT HISTORIES  86
   The composition of the non-working population  87
   Job characteristics  88
   Personal characteristics  93
   Housing groups  93
   Conclusions  97

5  A DIFFERENTIATED PART-TIME WORKFORCE: MARGINAL JOBS, HALF-TIME JOBS, AND REDUCED HOURS JOBS  102
   The rise in part-time employment  102
   Three types of part-time job  114
   Basic features of part-time jobs  120
   Workrates in the four categories of working hours  125
   Characteristics of full-time and part-time workers and jobs  126
   Part-time work and occupational segregation  134
   Labour turnover  135
   A comparative perspective on part-time work  138
   Conclusions  142

6  WORKING STUDENTS: STUDENTS IN FULL-TIME EDUCATION WITH FULL-TIME AND PART-TIME JOBS  145
   Student jobs in Britain  145
   Student jobs in the USA  149
   Statistical innovations: double coding of economic activity  150
   New combinations of work and study  153
   Double coding in the 1991 Census SARs  156
   National estimates  159
   Workrates among students  161
   Personal characteristics of working and non-working students  165
   The characteristics of student jobs  165
   The importance of student jobs in the marginal workforce  171
   Conclusions  173

7  HOMEWORK AND TRAVEL TO WORK PATTERNS  178
   Editing the census data on homeworkers  180
   Trends in homework and home-based work  184
   National travel to work patterns  187
   Key features of homework  191
   Personal characteristics of homeworkers  197
   Conclusions  198
Contents

8 SMALL FIRMS AND THE SOLO SELF-EMPLOYED 200
   New perspectives on the self-employed 201
   National estimates 207
   The social class location of the self-employed 209
   Occupational segregation among the self-employed 212
   Labour turnover 214
   Personal characteristics 215
   The overlap with homework and home-based work 217
   Conclusions 218

9 THE DRUG DEALERS: A CASE STUDY OF PHARMACY, AN INTEGRATED OCCUPATION 221
   Profile of a professional labour market 222
   Labour turnover and non-working women 224
   Occupational grade, earnings, and the pay gap 226
   Self-employment 227
   Other characteristics of pharmacists 228
   Ethnic minorities and women in pharmacy 228
   Comparisons with the USA 230
   Occupational segregation, discrimination, and work orientations 231
   Conclusions 234

10 CONCLUSIONS 235
   Occupational segregation as a structural feature of the labour market 235
   Changing patterns of working hours 237
   Erosion of the boundary between employment and economic inactivity 239
   Self-employment as an indicator of work orientations 240
   Connected choices 241
   Equal opportunities, work orientations, and labour market outcomes 244
   Looking ahead 249
Contents

Annex A  Labour Market Data in the 1991 Census 1% and 2% SARs
  Earnings estimates 251
  1990 Standard Occupational Classification (SOC) 252
  The Registrar-General’s Social Class and Socio-Economic Groups (SEG) 253
  Goldthorpe’s class schema 254
  The Cambridge scale of social status 256
  ISCO88 256
  ISEI 257
  SIOPS 257
  Occupational segregation variables 258
  Multiple statuses and double coding in the census 259
  Self-employment status coding 259
  Revised classification of homeworking and home-based work 261
  Retrospective employment data 262

Annex B  1991 Census 10% Sample Data on Occupational Structure and Sex Ratios
  Sex ratios within occupations: 371 occupational groups 266
  Sex ratios within occupations: 78 occupational groups 280
  Sex ratios within occupations: 10 major groups 283

Annex C  The International Standard Classification of Occupations (ISCO88): Occupational Sex Ratios and Part-Time Work Rates by Type of Occupation 284
