Foreword	iii
Acknowledgement	vii
Table of Contents	ix
OPENING PLENARY - WELCOME AND INTRODUCTORY PRESENTATIONS ON CONCLUSIONS OF TECHNOLOGY SCOPING STUDY	1
Opening Statement: <i>Mr. Staffan Sohlman, Interim Secretary-General, Organisation for Economic Cooperation and Development</i>	3
Welcome Address: <i>Mr. John P. Ferriter, Acting Executive Director, International Energy Agency</i>	7
Keynote Presentations on Conclusions of the IEA/OECD Scoping Study on Energy and Environmental Technologies to Respond to Global Climate Change Concerns:	
<i>Mr. Bill Long, Director OECD Environment</i>	11
<i>Mr. Nobuo Tanaka, Director, OECD Directorate of Science, Technology and Industry</i>	15
<i>Mr. Hans Jørgen Koch, Director, IEA Office of Energy Technology and R&D</i>	19
SESSION 1 - EXPECTATIONS FOR TECHNOLOGY DEVELOPMENT UNDER THE UNITED NATIONS FRAMEWORK CONVENTION ON CLIMATE CHANGE (FCCC)	25
Statements from IEA/OECD Member Countries:	
<i>Mr. Corrado Clini, Director General, Ministry of Environment, Rome, Italy</i>	27
<i>Dr. Michael von Websky, Head of Directorate, Federal Ministry for the Environment, Nature Conservation and Nuclear Safety, Bonn, Germany</i>	31
<i>Mr. Hiroshi Tsukamoto, Deputy Director-General for Global Environment Affairs, Ministry of International Trade and Industry, Tokyo, Japan</i>	39
Rapporteur's Report: <i>Ms. Jan Corfee-Morlot, Environment Directorate, OECD</i>	47
SESSION 2 - STATE OF TECHNOLOGY DEVELOPMENT AND DEPLOYMENT	49
Prioritisation of New Technologies for GHG Reduction: <i>Professor Yoichi Kaya, Department of Electrical Engineering, University of Tokyo, Japan</i>	51

Development and Potential Impact on Greenhouse Gas Emissions of New Energy Technologies: <i>Professor Thomas B. Johansson, Director, Energy, Climate, and Pollution, United Nations Development Programme, New York, U.S.A.</i>	61
Technology and Climate Change: <i>Dr. Nebojša Nakićenović, Project Leader of the Environmentally Compatible Energy Strategies Project (ECS), International Institute for Applied Systems Analysis (IIASA), Laxenburg, Austria</i>	65
The Evolution of the World's Energy System 1860 - 2060: <i>Mr. Georges Dupont-Roc, Head of Energy, Shell Centre, London, U.K.</i>	85
Global Climate Change - A European Motor Industry Perspective: <i>Mr. Don Lindley, Group Executive for Industry Affairs and Legislation, Rover Group, Birmingham, U.K.</i>	115
Pre-Commercial Technologies for Reducing Greenhouse Gas Emissions: <i>Dr. Hermann-Friedrich Wagner, Director, Energy R&D Policy Division, Federal Ministry of Research & Technology, Bonn, Germany</i>	119
Technology for a Sustainable Future -- A Strategic Framework for Advancing Environmental Technologies: <i>Ms. Jessie J. Harris, Deputy Assistant Secretary for Science and Technology Policy, U.S. Department of Energy, Washington, U.S.A.</i>	131
Rapporteur's Report: <i>Mr. Kenneth Friedman, Head of Energy Technology Policy Division, Energy Technology and R&D, International Energy Agency</i>	135
SESSION 3 - APPROACHES AND KEY PARAMETERS FOR SETTING PRIORITIES FOR TECHNOLOGY DEVELOPMENT AND COLLABORATION	139
Technology Foresight - Why? How? <i>Mr. Benjamin R. Martin, Science Policy Research Unit (SPRU), University of Sussex, Brighton, U.K.</i>	141
Approaches and Key Parameters for Setting Priorities for Technology Development and Collaboration: <i>Dr. George P. Marsh, Strategic Studies Department, Energy Technology Support Unit (ETSU), Harwell, Didcot, U.K.</i>	171
Comparing Technology Options to Address Global Climate Change: Experiences With Analytic Methods: <i>Dr. Bradford Ashton, Senior Scientist, Batelle Pacific Northwest Laboratory, Washington, D.C., U.S.A.</i>	179
Long Term Energy Technology RTD Priority Setting Views from the Netherlands: <i>Mr. R. Van Der Wart, Netherlands Agency for Energy and the Environment (NOVEM) Sittard, The Netherlands</i>	205
An Outline on Global Climate Change Concerns: <i>M. Pierre Valette, Head of Unit, Energy RTD Activities, DG XII-F, European Commission, Brussels, Belgium</i>	209
Rapporteur's Report: <i>Mr. Benjamin Martin, Science Policy Research Unit (SPRU), University of Sussex, Brighton, U.K.</i>	211

SESSION 4 - STRATEGIES AND MEASURES TO ACCELERATE TECHNOLOGY DEVELOPMENT IN INDUSTRY, UTILITIES AND RESEARCH INSTITUTIONS	213
Policies to Accelerate Technology Development: <i>Mr. Robert A. Reinstein, Executive Vice President, International Energy Group, Washington, U.S.A.</i>	215
Strategies and Measures to Accelerate Technology Development in Industry, Utilities and Research Institutions - Overview Presentation: <i>Mr. John J. Easton, Jr., Senior International Advisor, Edison Electric Institute, Washington D.C., U.S.A.</i>	219
Strategies to Accelerate Technology Development: <i>Mr. Tamotsu Mukai, Executive Director, New Energy and Industrial Technology Development Organization (NEDO), Tokyo, Japan</i>	223
Acceleration of Technology Development in Industry, Utilities and Institutions: <i>Mr. J.J. de Jong, Ministry of Economic Affairs, Directorate-General for Energy, The Hague, The Netherlands</i>	227
Cost-Effective Steps to Strengthen Strategies and Measures to Accelerate Technology Development: <i>Professor Sergio F. Garribba, Director for Energy, Agency for New Technology, Energy and Environment (ENEA), Rome, Italy</i>	229
Development and Deployment of Technologies to Respond to Global Climate Change Concerns: <i>Mr. Mustafa Mendilcioğlu, Deputy General Director of Energy Affairs, & Mr. Güner Tezcan, Director of R&D, Technology and Environment, Ministry of Energy and Natural Resources, Ankara, Turkey</i>	235
Rapporteur's Report: <i>Mr. Lee Solsbery, Head of Energy & Environment Division, Long Term Co-operation and Policy Analysis, IEA</i>	251
SESSION 5 - ENCOURAGING COLLABORATION IN SPECIFIC TECHNOLOGY AREAS	257
How to Encourage New Collaboration in the Transport Sector: <i>Dr. Howard J. Herzog, Massachusetts Institute of Technology, Energy Laboratory, Cambridge, Massachusetts, U.S.A.</i>	259
How to Encourage New Collaboration in the Energy End-Use Sector: <i>M. Daniel Clément, Chef du Service de la Programmation de la Recherche, ADEME, Paris, France</i>	267
Role of Biotechnology in Responding to Climate Change: <i>Dr. Michael Griffiths, Mike Griffiths Associates, Woking, Surrey, U.K.</i>	277
Some Examples of Ongoing R&D in Japan: <i>Dr. Yukio Yanagisawa, Chief Researcher, Research Institute of Innovative Technology for the Earth (RITE), Kyoto, Japan</i>	281
Rapporteur's Report: <i>Mr. James Tapper, Special Assistant to Executive Director, IEA, Paris</i>	283

SESSION 6 - POTENTIAL TECHNOLOGY COLLABORATION MECHANISMS	287
Experiences with International Collaboration on Technology Development: <i>Dr. John Tilley, Head of Energy Technology Collaboration Division, Energy Technology and R&D, IEA</i>	289
Potential Technology Collaboration Mechanisms, Overview Presentation: <i>Mr. John J. Easton, Jr., Senior International Advisor, Edison Electric Institute, Washington D.C., U.S.A.</i>	291
Technology and the Automobile Industry: <i>Professor. Dr. Achim Diekmann, President, International Organization of Motor Vehicle Manufacturers, Paris, France</i>	295
Climate Change Concerns in Latin America and the Caribbean: <i>Mr. Francisco J. Gutierrez, Latin-American Energy Organization (OLADE), Quito, Ecuador</i>	297
The World Bank's Solar Initiative: <i>Mr. Achilles G. Adamantiades, Industry and Energy Department, The World Bank, Washington, D.C., U.S.A.</i>	305
User-Friendly System-Orientated Tools for Greenhouse Gas Reduction in Process Industry - A Suggestion for International Cooperation within IEA: <i>Professor Thore Berntsson, Chalmers University of Technology, Goteborg, Sweden</i>	313
Do We have the Best Mechanisms for Encouraging International Collaboration on Technology Development? <i>Mrs. Birgitta Palmberger, Swedish National Board for Industrial and Technical Development (NUTEK), Stockholm, Sweden</i>	317
Rapporteur's Report: <i>Mr. Laurie Michaelis, Pollution Prevention and Control Division, Environment Directorate, OECD</i>	321
SESSION 7 - MECHANISMS FOR AN ON-GOING DIALOGUE	323
Mechanisms for an On-Going Dialogue: <i>Mr. Jan-Olaf Willums, Executive Director, World Industry Council for the Environment, Paris, France</i>	325
Joint Implementation and Greenhouse Gas Offsets - The BCSD's Position Statement on Joint Implementation - BCSD Resolution on Climate Change: <i>Mr. Hugh Faulkner, Business Council for Sustainable Development, Geneva, Switzerland</i>	333
International Chamber of Commerce (ICC) Statement to the IEA/OECD High-Level Meeting on Development and Deployment of Technologies to Respond to Global Climate Change Concerns: <i>Mr. Wilfried Czernie, Vice President, Ruhrgas AG, Essen, Germany</i>	339
Rapporteur's Report: <i>Mr. Jeffrey Skeer, Energy Technology Policy Division, Energy Technology and R&D, IEA</i>	343

CLOSING PLENARY SESSION - CONCLUSIONS AND NEXT STEPS	345
Chairman' s Summary of Meeting Conclusions: <i>Dr. D.J. Fisk, Chief Scientist, Department of the Environment, London, U.K.</i>	347
Meeting Rapporteur's Report: <i>Dr. Mel Kliman, Energy Technology Policy Division, IEA</i>	353
HIGH LEVEL MEETING PROGRAMME	357
HIGH LEVEL MEETING PARTICIPANTS	369
