CONTENTS

Preface	vii
Nomenclature	ix
Useful Conversions of Units	xiii
1 General Information	1
1-1 General Guidelines	1
General References	4
2 Flow in Straight Tubes and Conduits: Friction Coefficients and Roughness	5
2-1 General Guidelines	5
2-2 Diagrams of Friction Coefficients	14
References	38
3 Flow at the Entrance Into Tubes and Conduits: Resistance Coefficients of Inlet Sections	43
3-1 General Guidelines	43
3-2 Diagrams of Resistance Coefficients	48
References	67
4 Flow through Orifices with Sudden Change in Velocity and Flow Area: Resistance Coefficients of Sections with Sudden Expansion, Sudden Contraction, Orifices, Diaphragms, and Apertures	69
4-1 General Guidelines	69
4-2 Diagrams of Resistance Coefficients	76
References	99

5	Flow with a Smooth Change in Velocity: Resistance Coefficients of Diffusers and Converging and other Transition Sections	101
5-1	General Guidelines	101
5-2	Diagrams of the Resistance Coefficients	110
	References	153
6	Flow with Changes of the Stream Direction: Resistance Coefficients of Curved Segments—Elbows and Bends	159
6-1	General Guidelines	159
6-2	Diagrams of the Resistance Coefficients	164
	References	204
7	Merging of Flow Streams and Division into Flow Streams: Resistance Coefficients of Wyes, Tees, and Manifolds	207
7-1	General Guidelines	207
7-2	Diagrams of the Resistance Coefficients	210
	References	252
8	Flow through Barriers Uniformly Distributed over the Channel Cross Section: Resistance Coefficients of Grids, Screens, Porous Layers, and Packings	255
8-1	General Guidelines	255
8-2	Diagrams of the Resistance Coefficients	260
	References	279
9	Flow through Pipe Fittings and Labyrinth Seals: Resistance Coefficients of Throttling Devices, Valves, Plugs, and Labyrinth Seals	283
9-1	General Guidelines	283
9-2	Diagrams of the Resistance Coefficients	287
	References	317
10	Flow Past Obstructions in a Tube: Resistance Coefficients of Sections with Protuberances, Trusses, Girders, and other Shapes	319
10-1	General Guidelines	319
10-2	Diagrams of the Resistance Coefficients	324
	References	341
11	Flow at the Exit from Tubes and Channels: Resistance Coefficients of Exit Sections	343
11-1	General Guidelines	343
11-2	Diagrams of the Resistance Coefficients	349
	References	392
	Index	395
