# Proceedings of the 6th International Conference on **Robot Vision and Sensory Controls**

3-5 JUNE 1986, PARIS, FRANCE

Edited by M. Briot

Nachrichtentechnische Bibliothek  
der Techn. Hochschule Darmstadt  
Inv.-Nr.: 99 39 E14

## RoViSeC 6

ULB Darmstadt

18885425

An international event organised jointly by IFS (Conferences) Ltd, Kempston, Bedford, UK and SEPIC, Paris, France

Published by:  
IFS (Publications) Ltd, UK  
Springer-Verlag, Berlin · Heidelberg · New York · Tokyo

# CONTENTS

## Opening Session

<b>Systems integration in commercially available robotic vision systems</b> D. W. Braggins, Machine Vision Systems Consultancy, UK .....	1
<b>Sensor-guided generic assembly</b> K. Selke and A. Pugh, University of Hull, UK .....	11

## Sensor Systems

<b>Identification of multicoloured objects using a vision module</b> J. Bajon, M. Cattoen and L. Liang, ENSEIHT-GTTSI, France .....	21
<b>A vision for strain analysis</b> H. A. Laird, K. R. Gilmour and D. McKeag, University of Ulster, UK .....	31
<b>Fibre optic colorimetric sensor</b> P. Ollion, Bertin et Cie, France .....	41
<b>A high resolution tactile sensor for part recognition</b> H. van Brussel and H. Belien, Katholieke Universiteit Leuven, Belgium .....	49
<b>A new method for a fast and accurate recognition of 2D overlapping parts</b> S. Tan and D. Juvin, CEN/Saclay, France .....	61
<b>Circular array sensor, control algorithm, and hardware for fast tracking of planar contours</b> W. J. Bogers, Eindhoven University of Technology, The Netherlands .....	69
<b>Real-time image processing for a smart metal laser cutter</b> E. Lamotte, IISA/ETCA, B. Burg and X. Merlo, ETCA/CTME/OP, L. Foulloy, IUT Génie Electrique, and B. Zavidovique, ADFAC/ETCA, France .....	81

## Applications 1

<b>Classifying and coping with lighting variation</b> G. W. Davis, Allen-Bradley Company, USA .....	89
<b>Inspection of moulds by 3-dimensional vision</b> G. Nicolas and J. P. Hermann, Régie Nationale des Usines Renault, France .....	99
<b>A hierarchical classifier for non-coded photo-cassettes based on visual label identification</b> J. Gässler and R. Massen, Transfer Centre Constance for Image Data Processing, West Germany .....	107
<b>A multisensory approach to shoe sole assembly</b> P. M. Taylor, G. E. Taylor and I. Gibson, University of Hull, UK .....	117

## Mobile Robots and Sensory Controls

<b>Three dimensional perceptory systems for autonomous mobile robots</b> M. Briot and A. R. de Saint-Vincent, Laboratoire d'Automatique et d'Analyse des Systèmes, France .....	127
<b>A new 3-D sensor for mobile robot location and artificial picture synthesis</b> Shi-Jie, S. Monchaud, F. Noureddine and R. Prat, INSA-LATEA, France .....	139
<b>A robot force/temperature sensing gripper for heavy industry</b> J. Jeswiet and W. Nshama, Queen's University, Canada .....	151
<b>Industrial use of ultrasonic ranging sensors in robotics</b> M. Guichard, Peugeot SA Cera and A. Renault, AKR, France .....	157
<b>Automatic sensor-based corrections in the programming of robot trajectories</b> H. I. El-Zorkany and B. Tondu, National Research Council of Canada, Canada .....	165
<b>A dual video tracking system</b> P.-Y. Coulon and D. Cellard, ENSERG-INPG, France .....	179
<b>The design of a 3D vision sensor suitable for robot multisensory feedback</b> S. R. Ruocco, Middlesex Polytechnic, UK .....	187

## 3D Sensors and Inspection

<b>A fast 3-D sensor with high dynamic range for industrial application</b> G. Doemens, R. Buerger, W. W. Goebel, G. Haas and R. Schneider, Siemens AG, West Germany .....	197
<b>The quantification of qualitative aspects: a problem of perception and communication</b> A. Michel, VISITEC, Belgium .....	209
<b>Optical considerations in a 3D laser tracking instrument</b> R. Mayer and G. A. Parker, University of Surrey, UK .....	217

## Applications 2

<b>Laser dimensional measurement sensor applied to robot welding</b> R. Brunet, P. Turon and F. Lacoste, CILAS-ALCATEL, France .....	229
<b>Laser range finding sensor for robotics</b> H. Clergeot, D. Placko and S. Guillon, LESIR-ENSET, France .....	235
<b>A study on direct vision sensor for welding visual sensing</b> Li Yen, Wu Lin and Chen Dinghua, Harbin Institute of Technology, China .....	245
