1

1 Introduction to Fuel Cells

1.1	Preliminary Remarks 1	
1.2	Fuel Cells as Electrochemical Engines 3	
1.3	Generic Fuel Cell and Stack 6	
1.4	Classification of Fuel Cells 9	
1.5	Potential Fuel Cell Applications and Markets 17	
1.6	History of Fuel Cell Development 23	
1.7	Summary 24	
Applica	tion Study 24	
Problen	ns 25	
Referen	aces 26	

2 Basic Electrochemical Principles 29

2.1	Electrochemical versus Chemical
	Reactions 29
2.2	Electrochemical Reaction 31
2.3	Scientific Units, Constants, and Basic
	Laws 35
2.4	Faraday's Laws: Consumption and
	Production of Species 43
2.5	Measures of Reactant Utilization
	Efficiency 48
2.6	The Generic Fuel Cell 50
2.7	Summary 56
Applica	ation Study 58
Problem	ns 58

References 61

3 Thermodynamics of Fuel Cell Systems

62

- 3.1 Physical Nature of Thermodynamic Variables 62
- 3.2 Heat of Formation, Sensible Enthalpy, and Latent Heat 74

3.3	Determination of Change in Enthalpy for Nonreacting Species and Mixtures 78
3.4	Determination of Change in Enthalpy for Reacting Species and Mixtures 83
3.5	Psychrometrics: Thermodynamics of Moist Air Mixtures 91
3.6	Thermodynamic Efficiency of a Fuel Cell 96
3.7	Maximum Expected Open-Circuit Voltage: Nernst Voltage 106
3.8	Summary 114
Applica	tion Study 116
Problen	ns 116
Referen	nces 119

4 / Performance Characterization of Fuel Cell Systems 121

4.1	Polarization Curve 121
4.2	Region I: Activation Polarization 126
4.3	Region II: Ohmic Polarization 157
4.4	Region III: Concentration Polarization 168
4.5	Region IV: Other Polarization Losses 175
4.6	Polarization Curve Model Summary 181
4.7	Summary 183
Applica	tion Study 185
Problen	ns 186
Referen	ces 189

Transport in Fuel Cell Systems 5 191 5.1 Ion Transport in an Electrolyte 191 209 5.2 Electron Transport 5.3 Gas-Phase Mass Transport 210 5.4 Single-Phase Flow in Channels 233 5.5 Multiphase Mass Transport in Channels and Porous Media 239 5.6 Heat Generation and Transport 263 5.7 Summary 276 Application Study 278 Problems 279 References 281

vi Contents

6 Polymer Electrolyte Fuel Cells 285

6.1	Hydrogen PEFC 285
6.2	Water Balance in PEFC 298
6.3	PEFC Flow Field Configurations and Stack
	Design 325
6.4	Direct Alcohol Polymer Electrolyte Cells
6.5	PEFC Degradation 356
6.6	Multidimensional Effects 362
6.7	Summary 369
Applica	tion Study 371
Problem	ns 371
Referen	ices 374

7 Other Fuel Cells 380

7.1	Solid Oxide Fuel Cells 381	
7.2	Molten Carbonate Fuel Cells 392	1
7.3	Phosphoric Acid Fuel Cells 398	
7.4	Alkaline Fuel Cells 410	
7.5	Biological and Other Fuel Cells 418	
7.6	Summary 418	
Applica	tion Study 419	
Problem	ns 420	
Referen	aces 421	

	Delivery 426
8.1	Modes of Storage 426
8.2	Modes of Generation 438
8.3	Hydrogen Delivery 443
8.4	Overall Hydrogen Infrastructure Development 446
8.5	Summary 448
App Prol Refe	blication Study 449 blems 449 erences 450
9	Experimental Diagnostics and Diagnosis
9 9.1	Experimental Diagnostics and Diagnosis Electrochemical Methods to Understand Polarization Curve Losses 454
9 9.1 9.2	Experimental Diagnostics and Diagnosis Electrochemical Methods to Understand Polarization Curve Losses 454 Physical Probes and Visualization 469
9 9.1 9.2 9.3	Experimental Diagnostics and DiagnosisElectrochemical Methods to Understand Polarization Curve Losses454Physical Probes and Visualization469Degradation Measurements478
9 9.1 9.2 9.3 9.4	Experimental Diagnostics and Diagnosis Electrochemical Methods to Understand Polarization Curve Losses 454 Physical Probes and Visualization 469 Degradation Measurements 478 Summary 478
9 9.1 9.2 9.3 9.4 App	Experimental Diagnostics and DiagnosisElectrochemical Methods to Understand Polarization Curve Losses454Physical Probes and Visualization469Degradation Measurements478Summary478Dilication Study479
9 9.1 9.2 9.3 9.4 App Prob	Experimental Diagnostics and Diagnosis Electrochemical Methods to Understand Polarization Curve Losses 454 Physical Probes and Visualization 469 Degradation Measurements 478 Summary 478 Dilication Study 479 blems 480
9 9.1 9.2 9.3 9.4 App Prob Refe	Experimental Diagnostics and Diagnosis Electrochemical Methods to Understand Polarization Curve Losses 454 Physical Probes and Visualization 469 Degradation Measurements 478 Summary 478 polication Study 479 blems 480 erences 481
