

Population Bulletin of the United Nations  
**Below Replacement Fertility**

Special Issue Nos. 40/41 1999

## CONTENTS

	<i>Page</i>
Preface . . . . .	iii
Explanatory notes . . . . .	xii

### PART ONE. REPORT OF THE EXPERT GROUP MEETING ON BELOW-REPLACEMENT FERTILITY

<i>Chapter</i>		
I.	FERTILITY TRENDS AMONG LOW FERTILITY COUNTRIES . . . . .	4
II.	DETERMINANTS OF BELOW-REPLACEMENT FERTILITY . . . . .	6
III.	FUTURE EXPECTATIONS FOR FERTILITY.. . . .	8
IV.	SUSTAINED BELOW-REPLACEMENT FERTILITY: REALITIES AND RESPONSES . . . . .	10
V.	POLICY INTERVENTIONS IN RESPONSE TO BELOW-REPLACEMENT FERTILITY. . . . .	12
VI.	PANEL SESSION . . . . .	14
	A. Presentations by the panel. . . . .	15
	B. Questions and answers . . . . .	16
VII.	CONCLUSION . . . . .	18
	<i>Appendix. Summary of country papers . . . . .</i>	20

### ANNEXES

I.	AGENDA . . . . .	29
II.	LIST OF PARTICIPANTS . . . . .	29
III.	LIST OF DOCUMENTS . . . . .	30

### PART TWO. BACKGROUND PAPERS

Fertility trends among low fertility countries <i>Population Division . . . . .</i>	35
Determinants of below-replacement fertility <i>Jean-Claude Chesnais . . . . .</i>	126
Future expectations for below-replacement fertility <i>Population Division . . . . .</i>	137
Sustained below-replacement fertility: realities and responses <i>Michael Teitelbaum. . . . .</i>	161
Policy interventions in response to below-replacement fertility <i>Paul Demeny . . . . .</i>	183

## PART THREE. COUNTRY PAPERS

The fertility transition and prospects in China and other Eastern Asian countries <i>Zhenghua Jiang</i> . . . . .	197
The future of French fertility: back to the past, or a new implosion? <i>Jean-Claude Chesnais</i> . . . . .	212
The future of the family and future fertility trends in Germany <i>Jürgen Dorbritz and Charlotte Höhn</i> . . . . .	218
Recent fertility change in Ireland and the future of Irish fertility <i>James McCarthy and Jo Murphy-Lawless</i> . . . . .	235
Levels and trends of fertility in Italy: are they desirable or sustainable? <i>Antonio Golini</i> . . . . .	247
Below-replacement fertility in Japan: trends, determinants and prospects <i>Ryuichi Kaneko</i> . . . . .	266
Fertility trends in Russia and the European newly independent States: crisis or turning point? <i>Sergei V. Zakharov</i> . . . . .	292
Fertility trends in Sweden up to 1996 <i>Britta Hoem and Jan M. Hoem</i> . . . . .	318
Fertility in the United States: current features and future trends <i>S. Philip Morgan</i> . . . . .	334

## TABLES AND FIGURES

*Fertility trends among low fertility countries*

## Tables

1. Levels and trends in total fertility rates, 1975-1996 . . . . .	36
2. Classification of countries or areas by level of total fertility rate: 1975-1996 . . . . .	43
3. Trends in the index of total fertility rate and percentage change: 1975-1996 or more recent year . . . . .	47
4. Classification of countries or areas according to percentage total decline in total fertility rate: 1975-1996 . . . . .	51
5. Change in total fertility rates and average annual percentage change: 1975-1980 to 1990-1996 . . . . .	52
6. Classification of countries or areas according to average percentage decline in total fertility rate: 1975-1996 . . . . .	55
7. Completed fertility, total and average annual percentage decline, selected European countries, 1945-1960 cohorts . . . . .	56
8. Age-specific fertility rates: 1975 and 1996 or most recent year . . . . .	59
9. Change in age-specific fertility rates: 1975-1996 or most recent year . . . . .	62

<i>Tables</i>	<i>Page</i>
10. Contribution of each age group to total fertility rate: 1975 and 1996 or most recent year . . . . .	85
11. Trend in mean age of women at childbearing and direction of change: 1975-1996 or most recent year . . . . .	91
12. Trend in mean age of women at birth of first child, selected European countries: 1975-1995 or most recent year . . . . .	94
13. Trend in annual number of births and percentage total change: 1975-1995 . . . . .	98
14. Classification of countries or areas by percentage total decline in annual number of births: 1975-1995 . . . . .	100
15. Births by birth order to total number of live births: 1975-1995 . . . . .	101
16. Direction of change of percentage births of first and subsequent orders: 1975-1995 . . . . .	118

<i>Figures</i>	
I. Trends in total fertility rates: 1975-1996 . . . . .	40
II. Comparative levels of total fertility rates: 1975 and 1996 . . . . .	45
III. Trends in age-specific fertility rates: 1975 and 1996. . . . .	65
IV. Fertility contribution of each age group to total fertility rate: 1975 and 1996. . . . .	89
V. Trend in mean age at childbearing: 1975 and 1996 . . . . .	96
VI. Distribution of births by birth order: 1975 and 1995 . . . . .	104

*Future expectations for below-replacement fertility*

<i>Tables</i>	
1. Selected characteristics of low fertility countries or areas . . . . .	137
2. Expected periods when fertility will reach replacement level in countries or areas where TFR in 1990-1995 was at or below 2.10: medium and high variants . . . . .	141
3. Age patterns of fertility at replacement level for late, intermediate and early childbearing . . . . .	146
4. Index of population change: low fertility regions . . . . .	150

<i>Figures</i>	
I. Distribution of countries according to fertility levels in 1990-1995 and duration at below-replacement fertility. . . . .	139
II. TFR trajectories in 1990-2050, currently below-replacement regions: medium, high and low fertility variants . . . . .	143
III. Age patterns of fertility in Japan and the Russian Federation . . . . .	148
IV. Population of low fertility regions, 1995-2050: medium, high and low variants . . . . .	152
V. Population group 0-4, more developed regions: 1995-2000 . . . . .	153
VI. Proportion of the age group 65+ in the populations of low fertility regions, 1995-2050: medium, high and low variants. . . . .	154
VII. Projected total fertility rates: Austria, 1995-2050 . . . . .	158

<i>Figures</i>		<i>Page</i>
VIII.	Population by age and sex: Austria, 2050 . . . . .	159

*Sustained below-replacement fertility: realities and responses*

<i>Table</i>		
1.	Mean age of women at birth of first child: 1980 to most recent data . . . . .	175
<i>Figures</i>		
I.	Fertility decline in the Western community: 1960-1983 . . . . .	164
II.	Total period fertility rates. . . . .	167
III.	Completed fertility of female birth-cohorts . . . . .	170
IV.	Mean age of women at first marriage. . . . .	172

*The fertility transition and prospects in China and other Eastern Asian countries*

<i>Tables</i>		
1.	CBR and TFR in four Asian countries . . . . .	198
2.	Total fertility rates in selected countries and areas of East Asia and South-east Asia . . . . .	199
3.	The vital statistics of Shanghai and whole country. . . . .	200
4.	Basic social services indicators. . . . .	202
5.	Infant and neonatal mortality in China . . . . .	202
6.	Fertile women in China: 1981-2000 . . . . .	206
7.	Median variance of population projection for China. . . . .	207
8.	Output of population projections by different research agencies. . . . .	208
9.	Elderly population in China: selected years . . . . .	209

*The future of French fertility: back to the past, or a new implosion?*

<i>Tables</i>		
1.	Net reproduction rate of female birth cohorts: France . . . . .	213
2.	Total fertility rate: France, 1946-1996 . . . . .	216

*The future of the family and future fertility trends in Germany*

<i>Tables</i>		
1.	Women by cohorts and number of children in Germany: cohorts 1901/05-1960 . . . . .	224
2.	Average age at first marriage and first birth: Germany, 1950-1996 . . . . .	227
3.	Population aged 18 and over by age groups and living arrangements: West Germany, 1994 . . . . .	229
4.	Total fertility rates, total first marriage rates and total divorce rates: East Germany, 1980-1996 . . . . .	231
<i>Figures</i>		
I.	Total fertility rates: Germany, 1871-1995 . . . . .	222
II.	Total fertility rates: Germany, 1950-1995 . . . . .	223
III.	Total first marriage rates: Germany, cohorts 1950-1995. . . . .	226
IV.	Total fertility rates, total first marriage rates and total divorce rates: East Germany, 1989-1996 . . . . .	232

*Recent fertility change in Ireland and the future of Irish fertility*

## Tables

1.	Age-specific fertility rates: Ireland, selected years, 1975-1995 . . . . .	237
2.	Age-specific female first marriage rates: Ireland, selected years, 1975-1990 . . . . .	239
3.	Age-specific marital fertility rates: Ireland, selected years, 1975-1990 . . . . .	239
4.	Age-specific non-marital fertility rates: Ireland, selected years, 1975-1990 . . . . .	241

## Figures

I.	Total fertility rates: Ireland, 1975-1995 . . . . .	237
II.	Non-marital births: Ireland, 1975-1995 . . . . .	241

*Levels and trends of fertility in Italy: are they desirable or sustainable?*

## Tables

1.	Completed fertility for female generations born between 1944 and 1964 and total fertility rate, 1975-1995: Italy and some countries of European Union . . . . .	248
2.	Estimates of completed fertility by birth order for female generations born between 1924 and 1963; period total fertility rate, and live births: Italy, 1952-1996 . . . . .	248
3.	Period total fertility rate in divisions; minimum and maximum values among regions and provinces: Italy, 1977 and 1994 . . . . .	249
4.	Distribution of regions and provinces by period fertility group: Italy, 1994 . . . . .	249
5.	Estimates of completed fertility by number of children in divisions; minimum and maximum values among regions: Italy, cohort born in 1963 . . . . .	250
6.	Share of women aged 25, and of men aged 30, who do not live in any kind of partnership, by birth cohort: Italy, 1995-1996 . . . . .	252
7.	Completed fertility of women up to the indicated ages, and number of children ultimately wanted, by birth cohort: Italy, 1995-1996 . . . . .	255
8.	Projections of population by large age-group and three hypotheses of fertility: Italy, 1997-2047 . . . . .	257
9.	Projections of female population in reproductive age by large age-group, and three hypotheses of fertility: Italy, 1997-2047 . . . . .	258
10.	Possible effects of a sustained below-replacement fertility on size and age profile of population, by length of low fertility period before recovery up to replacement level: Italy . . . . .	262

*Below-replacement fertility in Japan: trends, determinants and prospects*

## Tables

1.	Trends in proportion never married, by age: Japan, 1970-1995 . . . . .	271
2.	Trends of TFR and TMFR: 1975-1990 . . . . .	277
3.	Contribution of socio-economic composition changes to marriage delay between female cohorts: a multiple decomposition analysis . . . . .	279

<i>Tables</i>	<i>Page</i>
4. Trends of high school and college enrolment rate, by sex . . . . .	282
5. Assumption and highlights of the latest population projection: Japan . . .	286

<i>Figures</i>		<i>Page</i>
I. Trends of total population, and population by three age brackets . . . .		267
II. Trends of number of births, and total fertility rate . . . . .		269
III. Trends of proportion never-married women in reproductive ages . . . .		273
IV. Trends of mean age at first marriage, by sex . . . . .		274
V. Age pattern of first marriage rate . . . . .		275
VI. Average, ideal and expected family size per married couple. . . . .		276
VII. Average process to first marriage of Japanese women, by marriage type		278
VIII. Average process to first marriage, by marriage year . . . . .		278
IX. Labour force participation rates, by age and sex: Japan, 1975, 1985 and 1995. . . . .		283
X. Trend and prospects of total fertility rate in Japan . . . . .		288

*Fertility trends in Russia and the European newly  
independent States: crisis or turning point?*

<i>Tables</i>		<i>Page</i>
1. Total period fertility rate in Russia and selected developed countries. . .		298
2. Completed fertility in Russia and selected European countries . . . . .		299
3. Proportion of never-married women up to age 50 and older: Russia, se- lected birth cohorts . . . . .		299
4. Perception of ideal family size according to nationally representative sample surveys: Russia, 1969 and 1996 . . . . .		302
5. Distribution of women by number of children ever born alive by age 50: Russia, different birth cohorts . . . . .		302
6. Distribution of women by number of children ever born: Russia, differ- ent marriage cohorts . . . . .		303
7. Certain indicators of fertility and nuptiality for females: Russia and se- lected countries, 1993-1994 . . . . .		306

<i>Figures</i>		<i>Page</i>
I. Rate of natural increase: Russia and European newly independent States, 1960-1995. . . . .		294
II. Post-war trends in total period fertility rate against the background of different groups of developed countries: Russia, 1946-1995. . . . .		300
III. Age-specific fertility rates and TFR in Russia: 1958-1996. . . . .		305
IV. Age-specific fertility rates in Russia: actual, 1992 and projected, 1993-2015 . . . . .		309

<i>Annex tables</i>		<i>Page</i>
A.1. Rate of natural increase: European USSR successor States, 1960-1995		311
A.2. Period total fertility rate: European USSR successor States, 1951-1995		312
A.3. Mean age at childbearing: European USSR successor States, 1980-1995		313

A.4.	Non-marital births: European USSR successor States, 1980-1995. . .	313
A.5.	Period age-specific fertility rates: Russia, 1958-1996 . . . . .	314
A.6.	Completed fertility in female birth cohorts: Russia . . . . .	315

### *Fertility trends in Sweden up to 1996*

#### *Figures*

I.	Total fertility rate: Sweden, 1962-1996 . . . . .	320
II.	Childless women, by age and year of birth: Sweden, 1945-1976 . . .	323
III.	Mean age at first birth: Sweden, 1974-1996 . . . . .	326
IVa.	First births per 1,000 childless women, by age (15-28): Sweden, 1960-1996 . . . . .	327
IVb.	First births per 1,000 childless women, by age (29-39): Sweden, 1960-1996 . . . . .	328
Va.	Proportion with a second child 30, 48 and 72 months after first birth: Sweden, 1970-1995. . . . .	329
Vb.	Proportion with a third child 30, 48 and 72 months after second birth: Sweden, 1970-1995. . . . .	330

### *Fertility in the United States: current features and future trends*

#### *Tables*

1.	Total fertility and age-specific rates: selected countries . . . . .	336
2.	United States total fertility and age-specific rates, 1995: by race and Hispanic origin . . . . .	344
3.	United States total fertility and age-specific rates, 1994: by education, race and Hispanic origin . . . . .	345

#### *Figures*

I.	Trends in total fertility rate and crude birth rate: United States, 1917-1995 . . . . .	337
II.	Total fertility rate accounted for by each birth order: United States, 1917-1992 . . . . .	339
III.	Total fertility rate accounted for by age groups: United States, 1917-1995 . . . . .	340
IV.	Total fertility rate, by age and parity . . . . .	342
V.	Total fertility rate, by race and origin: United States, 1960-1995 . . .	343
