SIR
INNOVATION & INTEGRATION

8UDM & 2RWHM

The 8th International Conference on Urban Drainage Modelling
The 2nd International Conference on Rainwater Harvesting and Management

7th ~ 12th September, 2009
Tokyo, Japan

8UDM

Organized by

- International Water Association (IWA)
- International Association of Hydraulic Engineering and Research (IAHR)
- The University of Tokyo

Supported by

- National Institute for Land and Infrastructure Management (NILIM), MLIT
- Bureau of Sewerage, Tokyo Metropolitan Government
- Public Works Research Institute (PWRI)/ International Centre for Water Hazard and Risk Management (ICHARM)
- Japan Institute of Wastewater Engineering Technology (JIWET)
- Japan Sewage Works Association (JSWA),
- Association for Rainwater Storage and Infiltration Technology
- Association of Water and Sewage Works Consultants Japan
- Japan Society on Water Environment (JSWE)
- The Japan Society of Hydrology and Water Resources

2RWHM

Organized by

- International Water Association (IWA)
- People for Rainwater, Japan
- Safe and Sustainable Infrastructure Research(SIR), Seoul National University, Korea

Supported by

- Foundation of River and Watershed Environment Management (FOREM), Japan
- Prince Sultan Bin Abdulaziz International Prize for Water (PSIPW)
- Korean Society of Water and Wastewater (KSWW)
- Korean Society on Water Quality (KSWQ)
- Society of Rain Masters, Korea (SRM)

Bibliothek Wasser und Umwelt
(TU Darmstadt)

61601686

CONTENTS

Keynote Lectures

8th Sep.

Chair : Mr. Taehyung Kim

Prof. Toshio Koike (The University of Tokyo, Japan)

K-1

Hydrological Process Down-scaling for Reduction of Damages by Water-related Hazards and Climate Change Adaptation

Prof. Mooyoung Han (Seoul National University, Korea)

K-2

Rainwater Revolution: From Drain City to Rain City -Case Studies in Korea-

Special Workshop

8th Sep.

Chair : Prof. Hiroaki Furumai

Prof. Taikan Oki (The University of Tokyo, Japan)

S-1

Climate Change and World Water Resources in the 21st Century

Mr. Takashi Sakakibara (National Institute for Land and Infrastructure Management, Japan)

S-2

Challenge to Sustainable Urban Stormwater Management in Japan

Prof. Taegoo Lee (Semyung University, Korea)

S-3

The Application of the Rainwater Management System to Ecological Site-planning in Korea

Dr. Koki Ishikawa (Association of Water and Sewage Works Consultants, Japan)

S-4

Recent Application of Urban Runoff Model in Japan

Dr. Jungsoo Mun (Seoul National University, Korea)

S-5

The Case Study of Star-city Rainwater Harvesting System

Dr. Makoto Murase (People for Rainwater, Japan)

S-6

Innovative Skywater Projects - Solving Water Crisis in Sumida City, Tokyo

Mr. Jeonghan Gim (Geomarine Co., Korea)

S-7

Design for Rainwater Harvesting and Utilization in Suwon Sports Complex

Morning Lectures 1

9th Sep.

Chair : Prof. S. Vigneswaran

Dr. Jiri Marsalek (UNESCO, Canada)

M-1

Rainwater Harvesting in the Context of Integrated Urban Water Management

Prof. Tsuyoshi Miyazaki (University of Tokyo, Japan)

M-2

Water Transport in Soils under Continuous Rainfall Infiltration

Morning Lectures 2

11th Sep.

Chair : Dr. Fumiyuki Nakajima

Prof. Slobodan Djordjevic (University of Exeter, UK)

M-3

1D, 2D and 3D Modelling of Urban Flooding

Prof. Tadashi Yamada (Chuo University, Japan)

M-4

Increasing Local Downpours and Recent Technology of Urban Flood Prediction in Japan

SESSION 1

9th Sep.

1-R : Technical Issues in Rainwater Harvesting & Management (RWHM)

Chair : Dr. Jaya Kandasamy

- | | |
|---|------|
| Suhwan Jang, Jiyong Choi, Eunjeong Lee, Myungsook Jung, Daeho Hwang | 1-R1 |
| <i>Trends of Landscape Index Change According to an ICM Model and Their Implications on the Reduction of Rainwater Runoff</i> | |
| Qu, Y.Y, Beecham, S | 1-R2 |
| <i>Modeling Unsteady Flows and Velocities in Siphonic Roofwater Harvesting Systems</i> | |
| Mohammad Ghafouri | 1-R3 |
| <i>Flood Spreading and Recharge; the Anchor of Sustainability of Agricultural Activities in Arid Zones-case Study; Dehloran, Iran</i> | |
| J.-Q. Li, Y. Liu, W. Che, G. Meng, H. Liu | 1-R4 |
| <i>Review on Technical Code and Re-thinking of Urban Rainwater Utilization in China</i> | |
| S. Abbott, B. Stevenson, B. Caughley, A. Ward | 1-R5 |
| <i>An Appraisal of Products and Systems Designed for Improving the Quality of Roof-collected Rainwater</i> | |

1-B : Climate Change and Urbanization (UDM)

Chair : Prof. Maksimovic Cedo

- | | |
|--|------|
| M. Kleidorfer, M. Moederl, R. Sitzenfrei, C. Ulrich, W. Rauch | 1-B1 |
| <i>A Case Independent Approach on the Impact of Climate Change Effects on Combined Sewer System Performance</i> | |
| Van-Thanh-Van Nguyen, Nicolas Desramaut, Tan-Danh Nguyen | 1-B2 |
| <i>Optimal Rainfall Temporal Patterns for Urban Drainage Design in the Context of Climate Change</i> | |
| J. Marsalek, W.E. Watt | 1-B3 |
| <i>Urban Storm Drainage in Changing Climate: A Case Study of Residential Drainage Adaptations</i> | |
| Xu Youpeng, Xu Jintao, Ding Jinjia, Chen Ying, Zhang Xingqi | 1-B4 |
| <i>Impacts of Urbanization on Hydrology in the Yangtze River Delta, China</i> | |
| Nan Zhao, Yi Liu, Jining Chen | 1-B5 |
| <i>Spatially Modeling the Industrial Water Pollution under Economic Structural Change: Mapping the Regional Emission Based on Individual Firms</i> | |

1-C : Inundation/Flooding (1) (UDM)

Chair : Prof. Toda Keiichi

Inkyun Jung, Geunae Park, Seongjoon Kim

1-C1

*Development of Distributed Storm Runoff Model for Urban Flood Simulation through Road Drainage Network***Z. Vojinovic, S. Seyoum, M. Mwalwaka, A. Fikri**

1-C2

*Effects of Model Schematization, Geometry and Parameter Values on Urban Flood Modelling***P. Stauer, M. Siekmann, J. Pinnekamp**

1-C3

*Simulation of Water Levels on Large Impervious Areas***Vojinovic Z, Fikri A, Seyoum S**

1-C4

*Lidar Filtering Algorithms and DTM Generation for Urban Flood Modelling Applications***A.S. Chen, S.S. Djordjević, J. Leandro, D.A. Savić**

1-C5

*An Analysis of the Combined Consequences of Pluvial and Fluvial Flooding***1-D : Quality Model (1) (UDM)**

Chair : Prof. Bertrand-Krajewski Jean-Luc

Thomas Ruby Bentzen

1-D1

*3D Numerical Modeling of Transport, Deposition and Resuspension of Highway Deposited Sediments in Wet Detention Ponds***L. Vezzaro, E. Eriksson, A. Ledin, P.S. Mikkelsen**

1-D2

*Modelling Removal of Micropollutants in Stormwater Treatment Systems***Keisuke Kojima, Shinji Kobayashi, Tomonori Kindaichi, Noriatsu Ozaki**

1-D3

*Modelling of Wet Deposition of Atmospheric PAHs by the Consecutive Measurements in an Urban Area, Japan***Carlos Vélez, Arnold Lobbrecht, Roland Price, Arthur Mynett**

1-D4

*Design of Urban Wastewater Systems Capable to Deal with Dynamic Loads***Lariyah M. S, Mohd Nor M. D, Chua K. H, Norazli O, Zuleika Z, Hidayah B**

1-D5

Development of Stormwater Gross Pollutant Traps Decision Support System (DeGPT) for Tropical Urban Water

SESSION 2

9th Sep.

2-R : UNESCO IHP Session (RWHM)

Combining Rain Culture with Rainwater Harvesting Technology for Sustainable Development in South and East Asia

Chair : Dr. Jiri Marsalek

Mooyoung Han

2-R1

Korean Traditional Rain Culture and Technology and Its Modern Application for Climate Change Adaptation

Makoto Murase

2-R2

Innovative Rainwater Museum in Japan

J. Ghodoosi, J. Tabatabaee Yazdi

2-R3

Water Harvesting, An Iranian Artistic Heritage

Teh Tai-Ring, Khin Aung Thein, Waldemar Pickardt

2-R4

Rainwater Harvesting for Households in Early Recovery Programs after Disaster, an Experience of Ceramic Water Jar for Rain Water Harvesting in Myanmar after Cyclone Nargis 2008

2-B : Uncertainty and Sensitivity Analysis (1) (UDM)

Chair : Prof. Tait Simon

G. Freni, G. Mannina

2-B1

The Influence of the Prior Distribution on the Uncertainty Analysis Assessment of a Urban Drainage Stormwater Quality Model

G. Freni, G. Mannina, G. Viviani

2-B2

Data Availability Impact on Integrated Modelling Reliability throughout Identifiability Analysis

Hauke Sonnenberg, Matthias Barjenbruch, Kai Schroeder, Erika Pawlowsky-Reusing

2-B3

Dimensioning of a Stormwater Tank Using Long-Term Simulation and Assessment of Uncertainties

Breinholt, A., Grum, M., Mikkelsen, P.S.C

2-B4

Uncertainty Analysis of Urban Drainage Modelling

2-C : Inundation/Flooding (2) (UDM)

Chair : Dr. Fukami Kazuhiko

Masato. Sekine, Jun Nakamura

2-C1

*Numerical Simulation of Inundation in Underground Space in Highly Urbanized Area in Tokyo***A. Hurford, C. Maksimovic, J. Leitao**

2-C2

*Urban Pluvial Flooding in Jakarta: Applying State-of-the-art Technology in a Data Scarce Environment***Keiichi Toda, Daisuke Yamamoto, Nozomu Yoneyama, Yasuko Kuwano**

2-C3

*Risk Analysis of Underground Inundation Considering Evacuation Difficulty***B. Evans, A. Chen, S. Djordjević, D.A. Savić**

2-C4

*A Cellular Automata Based Approach to Generalising Digital Terrain Models for 2D Flood Modelling***2-D : Quality Model (2) (UDM)**

Chair : Dr. Himeno Shuji

M. Mrowiec

2-D1

*First Flush Quantification, Modeling and Management***Egodawatta P, Thomas E, Goonetilleke A**

2-D2

*Incorporating pollutant build-up and wash-off processes in event based stormwater quality modelling***A: Dembélé, Bertrand-Krajewski J-L, B. Barillon**

2-D3

*Chronological Evolution of Calibration and Test of Stormwater Quality Regression Models***D. McCarthy, A. Deletic, G. Mitchell, C. Diaper**

2-D4

Sensitivity Analysis of an Urban Stormwater Microorganism Model

SESSION 3

9th Sep.

3-R : UNESCO IHP Session (RWHM)

Combining Rain Culture with Rainwater Harvesting Technology for Sustainable Development in South and East Asia

Chair : Prof. Thorsten Schuetze

Orlando F. Balderama

3-R1

Development of Decision Support System for Small Reservoir Irrigation System in Rainfed and Drought Prone Areas

M.M. Islam, M.R. Kabir, F.N.-F. Chou

3-R2

Acceptability of the Rainwater to the Slum Dwellers of Dhaka City

Anh Dzung Dao, Mooyoung Han, Viet-Anh Nguyen, Xuan-Quynh Ho, Taehyung Kim

3-R3

Flooding Mitigation Plan at Downtown of Hanoi by Rainwater Harvesting

Changyeol Choi, Elizabeth Khaka

3-R4

Cooperation of UNEP with UN Agencies for Rainwater Harvesting as a Tool of Climate Change Adaptation

Taehyung Kim

3-R5

ESCAP's Experiences for Eco-efficient Water Infrastructure Development: Strategic Planning Process for Storm-water Harvesting in Urban Areas

3-B : Uncertainty and Sensitivity Analysis (2) (UDM)

Chair : Dr. Freni Gabriele

N.E. Simões, J.P. Leitão, Č. Maksimović, A. Sá Marques, R. Pina

3-B1

Sensitivity Analysis of Surface Runoff Generation in Urban Floods Forecasting

M. Métadier, Bertrand-Krajewski J-L

3-B2

From Mess to Mass: a Methodology for Calculating Storm Event Pollution Loads with Their Uncertainties, from Continuous Raw Data

C.B.S. Dotto, A. Deletic, T.D. Fletcher, D.T. McCarthy

3-B3

Stormwater Quality Models: Do They Work?

3-C : Inundation/Flooding (3) (UDM)

Chair : Prof. Sekine Masato

T. Ozaki, T. Ishigaki, K. Toda

3-C1

*Estimation Method of Inundation Hazard in Urbanized Residential Area Using Rainfall Data***Pham Van Quan, Hiroaki Furumai, Futoshi Kurisu, Ikuro Kasuga**

3-C2

*Characterization of Urban Flood Mapping with Pathogenic Pollution in Downtown of Hanoi by Inundation Simulation and Water Quality Monitoring***M.H. Hsu, C.J. Huang, A.S. Chen**

3-C3

*A Study on Inundation Potentials of the Taichung City and Its Surrounding Drainage Basins***J. Leandro, S. Djordjevic, A. Chen, D. Savic**

3-C4

*Flood Inundation Maps Using an Advanced Visualization Algorithm for 1D/1D Models***3-D : Quality Model (3) (UDM)**

Chair : Mr. Vezzano Luca

V. Gamerith, Bertrand-Krajewski J-L, M. Mourad, W. Rauch

3-D1

*Sizing of Combined Sewer Infrastructures: Sensitivity of Storage Tank Efficiency to Long Term Pollutant Load Modelling***H. Kon, Y. Sato, K. Mukai, T. Kim**

3-D2

*Combined Sewerage System Improvements and Modeling of Service Area in Sakai City***J.P. Rodríguez, S. Achleitner, M. Möderl, W. Rauch, Č. Maksimović, N. McIntyre, M. Díaz-Granados, M. Rodríguez**

3-D3

*Sediment and Pollutant Load Modelling Using an Integrated Urban Drainage Modelling Toolbox: An Application of City Drain***K. Takeya, S. Himeno, S. Fujita**

3-D4

Quantitative Evaluation of the Effect of Pollution Load Based on Long-Term Continuous Observation of CSO

SESSION 4

10th Sep.

4-R : Non-point Source Management (RWHM)

Chair : Prof. Taegoo Lee

H.P. Zhang, Y.P. Zhu, P. Liu, L. Chen

4-R1

Expressway Runoff Harvesting and Utilization: A Case Study in Shanghai

Eunju Lee, Leehyung Kim, Heeman Kang

4-R2

Consideration of Regional Rainfall Data for NPS Unit Load Determination Method in Korea

C.Y. Wu, C.M. Kao, C.E. Lin, C. W. Chen, C. D. Dong

4-R3

Application of Constructed Wetland for River Water Quality Improvement and Non-Point Source Pollution Control: a Case Study in Taiwan

Qitao Yi, JianghuaYu, Weiwei Lu, Youngchul Kim

4-R4

Factors Affecting Nitrogen Retention in a Stormwater Wetland during Dry and Wet Days

4-B : Stormwater Control Facility (1) (UDM)

Chair : Prof. Fujita Shoichi

Shuhei Okuno, Masakazu Takano

4-B1

Examination of efficient Measures for the Prevention of Inundation Based on Area Assessment

Y.F. Huang, Z. Hashim, A.J. Shaaban

4-B2

Potential and Effectiveness of Rainwater Harvesting Systems in Flash Floods Reduction in Kuala Lumpur City, Malaysia

M. Sugai

4-B3

Stormwater Control Measures for Tokyo

4-C : Uncertainty and Sensitivity Analysis (3) (UDM)

Chair : Dr. Grum Morten

A.N.A. Schellart, S.J.Tait, R.M.Ashley

4-C1

*The Analysis of Uncertainty in Integrated Flow Quality Modelling Studies***Fakhreddin Takhtemina, Seyed Mahmood Hosseini**

4-C2

*Uncertainty, Risk & Sensitivity Analysis of Water Surface Profile Computations in a Main Channel of an Urban Drainage System***A. Deletic, C.B.S. Dotto, T.D. Fletcher, D.T. McCarthy, Bertrand-Krajewski J-L, W. Rauch, M. Kleidorfer, G. Freni, G. Mannina, S. Tait**

4-C3

*Defining Uncertainties in Modelling of Urban Drainage Systems***4-D : Hydrological Urban Runoff Model (1) (UDM)**

Chair : Mr. Sakakibara Takashi

Peter A. Vanrolleghem, Bastian Kamradt, Dirk Muschalla

4-D1

*Making the Best of Two Hydrological Flow Routing Models: Nonlinear Outflow-volume Relationships and Backwater Effects Model***M. Garrido, L. Cea, J. Puertas**

4-D2

*Rainfall-runoff Modelling in Several Urban District Configurations using a Two-dimensional Shallow Water Model: Porosity Versus Resolved Approach.***Hwanseok Kim, Gyungseob Lee, Gijung Pak, Jaeyoung Yoon**

4-D3

*Distributed Modeling of Urban Runoff using Meta-Channel Concept***N. Shigeta, T. Ukon, M. Uotani, M. Watanabe**

4-D4

Correction Method for Dropping of Simulated Water Level Utilizing Infoworks Slot Model

SESSION 5

10th Sep.

5-R : Rainwater Quality Improvement (RWHM)

Chair : Dr. Ian White

B. Kus, J. Kandasamy, S. Vigneswaran

5-R1

Analysis of First Flush - Developing a Cost Effective Inline Filtration System to Improve the Water Quality in Rainwater Tanks

S. Garrido, M. Aviles, A. Ramirez, A. Gonzalez, L. Montellano, B. Gonzalez, J. de la Paz, R.M. Ramirez

5-R2

Improving Rainwater Quality in Rural Communities

S. Ward, F. A. Memon, D. Butler

5-R3

Harvested Rainwater Quality: the Importance of Building Design

Jungsoo Mun, Dongkeun Kim, Mooyoung Han

5-R4

The Effects of Catchments and Retention Time in a Storage Tank on Rainwater Quality in a Rainwater Utilization Facility

5-B : Stormwater Control Facility (2) (UDM)

Chair : Mr. Okui Hiroyuki

M. Bergman, P. Binning, P.S. Mikkelsen, O. Mark

5-B1

Integrating Soakaway Infiltration Devices in Distributed Urban Drainage Models - from Allotment to Neighbourhood Scale

Kenji Hitomi, Kaoru Kariya

5-B2

Identification of Factors Influencing Effects of Infiltration Facilities on the Decrease of Peak Rainfall Runoff and Their Quantitative Evaluation

Jun Endo, Hiromichi Fujiwara, Norihide Tamoto, Takashi Sakakibara

5-B3

Deterioration of Rainwater Infiltration Facilities with Time

D. Browne, A. Deletic, G.M. Mudd, T.D. Fletcher

5-B4

A 2D Stormwater Infiltration Trench Model

5-C : Inundation/Flooding (4) (UDM)

Chair : Prof. Morita Masaru

G.L.Kouyi, N. Rivière, B. Chocat, V. Guinot

5-C1

*Urban Flooding: 1D Modeling of the Distribution of the Discharges through Cross-roads Accounting for Energy Losses***Pham Thanh Hai, Jun Magome, Atsuhiko Yorozuya, Hironori Inomata, Kazuhiko Fukami, Kuniyoshi Takeuchi**

5-C2

*Large-scale Flooding Analysis in the Suburbs of Tokyo Metropolis Caused by Levee Breach of the Tone River Using a 2D Hydrodynamic Model***Luis Cea, Marta Garrido, Jerónimo Puertas**

5-C3

*Urban Flood Computations from Direct Precipitation Data Using a Two-dimensional Shallow Water Model***Takashi Sakakibara**

5-C4

*What Urban Drainage Modelling Can Do against Heavy Rains?***5-D : Hydrological Urban Runoff Model (2) (UDM)**

Chair : Prof. Watanabe Masahiro

Kasmin H, Stovin V

5-D1

*Towards a Generic Rainfall-runoff Model for Green Roofs***Koki Ishikawa, Masanori Katsuragi**

5-D2

*Study on Identification of Runoff Mechanism in Actual Catchment***Shoichi Fujita, Osamu Matsushima**

5-D3

*Rainfall Runoff Analysis in Japan and Introduction of Runoff Simulation Model to Japan***Stovin V, Guymer I, Chappell, M, Hattersley J**

5-D4

The Use of Deconvolution Techniques to Identify the Fundamental Mixing Characteristics of Urban Drainage Structures

SESSION 6

11th Sep.

6-R : Political Issues in Rainwater Harvesting & Management (RWHM)

Chair : Dr. Md. Manzurul Islam

Aur lie Gerolin, Nathalie Le Nouveau

6-R1

*Evolution of Stormwater Management Practices in France: Is Rainwater Harvesting Invited?***M. Park, S. Pincetl, M. K. Stenstrom**

6-R2

*Urban Rainwater Management to Comply with Total Maximum Daily Loads in Semi-arid Watersheds: A Case Study in the Los Angeles River Watershed***Wang Jianlong, Che Wu, Pan Guoqing, Li Junqi**

6-R3

*Innovative Design of Low Impact Development to Harvest Rainwater, Reduce Runoff and Pollutant Loads***I. White**

6-R4

*Rainwater Harvesting : Modelling Decision Making Issues in Household Adoption***Boris Lesjean, Marco Schmidt, Kai Schroeder, Marie-Christine Huau, Hauke Sonnenberg**

6-R5

International Review of Rainwater Harvesting Management: Practices, Market and Current Developments

6-B : Sewer System (1) (UDM)

Chair : Mr. Zaizen Mitsuyoshi

R.P.S. Schilperoort, O.A.C. Hoes, W.M.J. Luxemburg, F.H.L.R. Clemens, N.C. van de Giesen

6-B1

*In-sewer Temperature Monitoring for the Detection of Illicit Connections in Stormwater Sewers***R. Schilperoort, J. Dirksen, J. Langeveld, F. Clemens**

6-B2

*Assessing Characteristic Times and Space Scales of In-sewer Processes by Analysis of One Year of Continuous In-sewer Monitoring Data***S. Arthur, R. Burkhard**

6-B3

*Correlation between Sewer Age, Customer Complaints and Sewer Grades - A Case Study for Edinburgh***Farah A. Dorval, Bernard Chocat, Evens Emmanuel, Gislain Lipeme Kouyi**

6-B4

*Signal Processing to Identify Flow Components in Sewer System***WeonJae Kim, Satoshi Managaki, Fumiyuki Nakajima, Hiroaki Furumai**

6-B5

Washoff Behavior of In-sewer Deposit in Combined Sewer System through Artificial Flushing Experiment

6-C : Rainfall Forecast/ Real-time Control (UDM)

Chair : Prof. Fletcher Tim

A. Schellart, W. Shepherd, A. Saul, D. Hanson

6-C1

*Rainfall Radar - Accuracy and Use for Hydraulic Modelling***Masahiro Nishii, Hiroshi Harada, Satoru Tanaka, Hiroyuki Okui**

6-C2

*Flood Control and Water Utilization System by Using Forecasted Rainfall***Kapil Gupta, Vinay Nikam**

6-C3

*Real Time Rainfall Forecasting under Monsoon Extremes***J. P. Leitão, N. E. Simões, Č. Maksimović, F. Ferreira, D. Prodanović, J. S. Matos, A. Sá Marques**

6-C4

*Real-time Forecasting Urban Drainage Models : Full or Simplified Networks?***Dirk Muschalla, Geneviève Pelletier, Peter A. Vanrolleghem**

6-C5

*Eco-hydraulic-driven Real-time Control of Stormwater Basins***6-D : Modeling of Interactions and Integrated System (1) (UDM)**

Chair : Prof. Rauch Wolfgang

Niña Donna Sto. Domingo, Anders Refsgaard, Birgit Paludan, Ole Mark

6-D1

*Flood Analysis in Mixed-urban Areas Reflecting Interactions with the Complete Water Cycle through Coupled Hydrologic-hydraulic Modelling***Yasuhiro Miwa, Sadaharu Ikenoue, Hiroshi Yamamoto**

6-D2

*Simulation Model Integrating Internal and External Water for an Internal Water Inundation Disaster Assumption Map of Nagoya City***J. Leandro, J. Abreu, P. Lima**

6-D3

*Laboratory Set-up to Validate a Dual Drainage Concept Numerical Model***De Keyser W, Benedetti L, Verdonck F, Gevaert V, Vanrolleghem P.A**

6-D4

*Combining Multimedia Models with Integrated Urban Water System Models for Micropollutants***F. Reubner, M. Schutze, D. Muschalla**

6-D5

OpenMI Compliant On-the-fly Result Analyser for Integrated Modelling

SESSION 7

11th Sep.

7-R : Case Study (1) (RWHM)

Chair : Dr. Md. Rezaul Karim

Amit Chanan, Gina Spyraakis, Isabelle Ghatti, Elisa Idris, Jaya Kandasamy

7-R1

Applied Rainwater Harvesting Education: An Australian Case Study

T. Schuetze

7-R2

Climate Change Adaptation through Decentralized Rainwater Management and Harvesting in International Delta Regions

S. Tahir, G. Marnierre, S. Bell, D. Smith, A. Crooks, M. Batty, L. Campos

7-R3

Rain Water Harvesting for a Sustainable and Resilient London

Haiyan Li, Wu Che, Yan Huang

7-R4

A Case Study - Water Scenery Planning with Rainwater Harvested in Urban Residential Subdivision

7-B : Sewer System (2) (UDM)

Chair : Mr. Kariya Kaoru

A.L. le Delliou, F. Rodriguez, H. Andrieu

7-B1

A Study of Sewer Network Impact on Urban Groundwater by Hydrological Modelling

Ryoichi Matsumoto, Takahiro Iwasa

7-B2

Improvement of Accuracy of Prediction of Water Levels in Sewer Trunk Lines

Christian Karpf, Peter Krebs

7-B3

Hydrodynamic Sewer Network Modelling Inconsideration of the Dynamic of Groundwater and Surface Water

V. Bareš, T. Metelka, O. Janků, P. Srníček

7-B4

CFD Analysis of Supercritical Flow in High-Crested Csp Sideweir

7-C: Inundation/Flooding (5) (UDM)

Chair : Dr. Djordjevic Slobodan

T. Ishigaki, Y. Asai, Y. Nakahata, H. Shimada, Y. Baba, K. Toda
Evacuation of Aged Persons from Inundated Underground Space

7-C1

M. Möderl, M. Kleidorfer, R. Sitzenfrei, W. Rauch
Identifying Weak Points of Urban Drainage Systems by Means of VulNetUD

7-C2

M. ten Veldhuis, F. Clemens, P. van Gelder
Flood Risk Modelling Based on Tangible and Intangible Urban Flood Damage Quantification

7-C3

Masaru Morita
Quantification of Flood Risk and its Application to Flood Risk Assessment for Urban River Management

7-C4

7-D : Modeling of Interactions and Integrated System (2) (UDM)

Chair : Prof. Deletic Ana

Lorenzo Benedetti, Pau Prat, Ingmar Nopens, Manel Poch, Joaquim Comas
Global Sensitivity Analysis of a Sewers-WWTPs-river Integrated Model for the Development of a Supervisory System at River Basin Scale

7-D1

R.Sitzenfrei, S.Fach, H. Kinzel, W. Rauch
A Multi-layer Cellular Automata Approach for Algorithmic Generation of Virtual Urban Water Systems - VIBe

7-D2

C.Urich, R. Sitzenfrei, M. Möderl, W. Rauch
An Agent Based Approach for Generating Virtual Sewer Systems in the Software VIBe

7-D3

SESSION 8

11th Sep.

8-R : Case Study (2) (RWHM)

Chair : Dr. Jungsoo Mun

Rodrigo S, Sinclair M, Leder K

8-R1

*Urban Tanks – Are They Properly Maintained?***Md. Rezaul Karim**

8-R2

*Assessment of Rainwater Harvesting for Drinking Water Supply in Bangladesh***Juan Gabriel Garcia Maldonado, Miguel Ángel Córdova Rodríguez, Sandra Vázquez Villanueva, José Alberto Arrieta Ocampo**

8-R3

*Promoting Rainwater Harvesting and Use in Rural Communities***Mooyoung Han, Jaehong Ki**

8-R4

Establishment of Sustainable Water Supply System in Small Islands through Rainwater Harvesting(RWH): Case Study of Guja-do

8-B : Sewer System (3) (UDM)

Chair : Prof. Clemens Francois

Yoshikazu Nakayama, Shunsuke Nakamura, Norimasa Tango

8-B1

*A Simulation of a Submerged Situation of Sewage Works during Severe Rainstorm by using Hydraulic Model***A. Obermayer, F.W. Günther, G. Angermair, R. Tandler**

8-B2

*Different Approaches for Modelling of Sewer Caused Urban Flooding***J. Schaffner, J. Steinhardt**

8-B3

*Numerical Investigations of Sewer Flushing Sunk Waves: Analysis of Hydraulic Boundary Conditions and Cleaning Effectiveness***H.P. Zhang, F.P. Li, Y.P. Zhu, L. Chen, J.F. Zhao**

8-B4

Simulation of the Effectiveness of the Storage Tanks in CSOs Control along Suzhou Creek, Shanghai

8-C : Data Availability and Reliability (UDM)

Chair : Dr. Giorgio Mannina

Jina Oh, Jungho Lee, Joonghoon Kim

8-C1

*Optimization of Water Quality Monitoring Network in Sewer Systems using Entropy Method***P.M. Bach, D.T. McCarthy, A. Deletic**

8-C2

*Debugging the Myth Behind the First Flush Phenomenon***Nemanja Branisavljević, Dušan Prodanović, Dragutin Pavlović**

8-C3

*Automatic, Semi-automatic and Manual Validation of Urban Drainage Data***Norhide Tamoto, Jun Endo, Takashi Sakakibara**

8-C4

*Establishment of the Nationwide Database of Urban Stormwater Runoff Monitoring***8-D : Modeling of Interactions and Integrated System (3) (UDM)**

Chair : Mikkelsen Peter

M. Kleidorfer, G. Leonhardt, M. Mair, D.T. McCarthy, H. Kinzel, W. Rauch

8-D1

*CALIMERO: A Model Independent and Generalized Tool for Autocalibration***G. Burger, S. Fach, H. Kinzel, W. Rauch**

8-D2

*Parallel Computing in Integrated Urban Drainage Simulations***S.D. Seyoum, Z. Vojinovic, R.K. Price**

8-D3

*Integrated Modelling of Urban Wastewater Systems***B. Kamradt, S. Heusch, M. Ostrowski**

8-D4

Simulation of WWTP within Integrated Urban Wastewater Models

Poster Session – UDM

L.Y. San, A.A. Ghani	U-P01
<i>Perfomance of Stormwater Drainage System through Dry Detention Pond for Medium Size Housing Development using InfoWorks CS (Case Study: Kota Damansara, Selangor, Malaysia)</i>	
S. Nair	U-P02
<i>Issues Associated with the Drainage Management in the Megacities of India</i>	
I. Kamita, T. Kobayashi, O. Matsushima, Y. Tkase, H. Nishimura, R. Shimazu	U-P03
<i>Research on Inundation Hazard Maps in Hiroshima City</i>	
S. Takeda, A. Tamada, O. Matsushima, Y. Takase, S. Miyahara, A. Miura	U-P04
<i>Research of Small-scale Stormwater Storage and/or Infiltration System</i>	
I. Kamita, T. Kobayashi, O. Matsushima, Y. Takase, H. Nishimura, R. Shimazu	U-P05
<i>Research on Developing a Plan for Comprehensive Sewerage Inundation Control Measures (Hiroshima City)</i>	
Y.F. Huang, A.J. Shaaban	U-P06
<i>Climate Change Effects on Flood Mitigation Infrastructures at the Muda River Basin, Malaysia</i>	
A. Khastagir, N. Jayasuriya	U-P07
<i>Impacts of Using Rainwater Tanks on Stormwater Harvesting and Runoff Quality</i>	
D.C. Chen, C. Maksimovic, N. Voulvoulis	U-P08
<i>Feasibility of Urban Storm Runoff as Additional Freshwater Source: A Singapore Case Study</i>
