

LARGE-SCALE MACRO-ECONOMETRIC MODELS

Theory and Practice

Edited by

J. KMENTA
University of Michigan

and

J. B. RAMSEY
New York University

NORTH-HOLLAND PUBLISHING COMPANY
AMSTERDAM · NEW YORK · OXFORD

Contents

<i>Introduction to the series</i>	v
<i>Preface</i>	vii
<i>List of Participants</i>	ix
I. INTRODUCTION	
1. Model Size, Quality of Forecast Accuracy, and Economic Theory <i>J. Kmenta and J.B. Ramsey</i>	3
II. FORECASTING ECONOMIC VARIABLES	
2. The Practice of Macroeconometric Model Building and Its Rationale <i>E.P. Howrey, L.R. Klein, M.D. McCarthy and G.R. Schink</i>	19
3. Perspectives on the Accuracy of Macro-econometric Forecasting Models <i>H.T. Shapiro and D.M. Garman</i>	59
4. An Evaluation of the Forecasting Performance of Macro Economic Models with Special Emphasis on Model Size <i>H.H. Kelejian and B. Vavrichek</i>	93
5. The Comparison of Time Series and Econometric Forecasting Strategies <i>C.W.J. Granger</i>	123

Comments of the Discussants:

✓	<i>K. Brunner</i>	129
X	<i>S.M. Goldfeld</i>	139
	<i>W.A. Spivey</i>	145

III. ADVANCEMENT OF ECONOMIC KNOWLEDGE AND THE SIZE OF MACRO-ECONOMETRIC MODELS

	6. Economic Theory and Econometric Models <i>O. Eckstein</i>	155
✓	7. Economic Theory, Model Size, and Model Purpose <i>J.B. Taylor</i>	177
	8. Statistical Inference in Relation to the Size of the Model <i>G.S. Maddala</i>	191
✓	9. The Major Streams of Economy-wide Modeling: Is Rapprochement Possible? <i>A.A. Powell</i>	219

Comments of the Discussants:

	<i>R.H. Rasche</i>	265
	<i>E.C. Prescott</i>	273
	<i>T.W. Anderson</i>	279

IV. CONSTRUCTION OF MACRO-ECONOMETRIC MODELS

	10. An Autoregressive Index Model for the U.S., 1948-1975 <i>C.A. Sims</i>	283
X	X 11. On a Theoretical and Empirical Basis of Macroeconomic Models <i>A. Ando</i>	329
	12. Scale of Macro-econometric Models and Accuracy of Forecasting <i>G. Fromm and L.R. Klein</i>	369

Comments of the Discussants:

 	<i>R.C. Fair</i>	389
 	<i>J. Tobin</i>	391
 	<i>F. Modigliani</i>	393

V. EVALUATION OF MACRO-ECONOMETRIC MODELS

13.	The Methodology of Macroeconometric Model Comparisons <i>S.K. McNees</i>	397
14.	Evaluation of Econometric Models by Decomposition and Aggregation <i>G.C. Chow</i>	423

Comments of the Discussants:

 	<i>Z. Griliches</i>	445
-----------------	---------------------	-----

VI. CONCLUSION

 	15. Summary of the General Discussion <i>J. Kmenta and J.B. Ramsey</i>	449
-----------------	---	-----
