

International Trends in Manufacturing Technology

JUST-IN-TIME MANUFACTURE

Edited by
Prof. C.A. Voss

TECHNISCHE HOCHSCHULE DARMSTADT	
Fachbereich 1	
<u>Gesamtbibliothek</u>	
<u>Betriebswirtschaftslehre</u>	
Inventar-Nr. :	<u>41.322</u>
Abstell-Nr. :	<u>A25/697</u>
Sachgebiete:	<u>4.3.1</u>
	<u>4.7</u>

IFS (Publications) Ltd, UK

Springer-Verlag
Berlin Heidelberg New York
London Paris Tokyo

CONTENTS

1. JIT Overviews

- Just-in-time: Replacing complexity with simplicity** 3
R. Schonberger (Schonberger & Associates Inc., USA)
- Japanese JIT manufacturing management practices in the UK** 15
C.A. Voss (University of Warwick, UK)

2. Manufacturing Techniques

- Cellular manufacturing systems** 27
J.T. Black (Auburn University, USA)
- Cellular manufacturing at John Deere** 51
W.J. Dumolien and W.P. Santen (Deere & Co., USA)
- The Kanban system** 59
R.J. Schonberger (Schonberger & Associates Inc., USA)
- Set-up time reduction: Making JIT work** 73
D.L. Lee (Cummins Engine Co. Ltd, UK)
- Group technology and JIT** 85
M.P. Karle (University of the Witwatersrand, Republic of South Africa)

3. Production/Material Control

- Developing and implementing control systems for repetitive manufacturing** 95
M. Sepehri (University of Southern California, USA) and
N. Raffish (Deloitte, Haskins & Sells, USA)

OPT: Leapfrogging the Japanese 107
R.E. Fox (Avraham Y. Goldratt Institute, USA)

Schedule process management 123
D.A. Fulghum (Navistar International Corp., USA)

Stockless production: A manufacturing strategy for knowledge society 133
M. Fuse (Sumitomo Electric Industries Ltd, Japan)

4. Organisation for Change

SQC and JIT: Partnership in quality 161
S. Priestman

An analysis of Japanese quality control systems 169
S.M. Lee (University of Nebraska Lincoln, USA) and
M. Ebrahimpour (University of Rhode Island, USA)

Continuous improvement through standardisation 183
R.W. Hall (Indiana University, USA)

A framework for JIT implementation 191
J.R. Bicheno (University of the Witwatersrand, Republic of South Africa)

Strategies for implementing JIT 205
C.A. Voss and A. Harrison (University of Warwick, UK)

5. JIT Purchasing

Comparing Japanese and traditional purchasing 215
S.M. Lee (University of Nebraska Lincoln, USA) and A. Ansari
(Seattle University, USA)

JIT purchasing in the UK 227
V. Winn (Hewlett-Packard Ltd, UK)

6. JIT in Action: Case Studies

Lucas Electrical 237
J.D. Wood (Lucas Electrical Ltd, UK)

Rank Xerox 251
B. Zimmerman (Rank Xerox Manufacturing BV, The Netherlands)

New United Motor Manufacturing	281
M. Sepehri (University of Southern California, USA)	
RepcO	291
F. Bazeley and N. Baines (Ingersoll Engineers, UK)	
An application in the automotive components industry	303
C. O'Brien, S. Chalk, S. Grey, A. White and N. Wormell (University of Nottingham, UK)	
Hewlett-Packard	319
M. Sepehri (University of Southern California, USA) and R. Walleigh (Hewlett-Packard, USA)	
Kawasaki USA	339
R. W. Hall (Indiana University, USA)	
IBM	365
J.M. Ward (IBM (UK) Ltd)	
Ford Motor Company	375
C.G. Perkey (Ford Motor Co., USA)	
Authors' organisations and addresses	393
Source of material	395
