## CONTENTS

CHAPTER 1	General Systems Theory	1
	Definition of <i>Systems</i>	
	The Hierarchy of Systems	
	Systems Theory and Management Thought	
CHAPTER 2	System Models	17
	Verbal Models	
	Schematic Models	
	Iconic Models	
	Analog Models	
	Mathematical Models	
	Conclusion	
CHAPTER 3	Characteristics and Behavior of Dynamic Systems	35
	Inputs and Outputs	
	The Processor	
	The Controller and the Feedback Process	
	Compound Systems	
	Systems Efficiency and Effectiveness	
	System Life Stages and Entropy	
CHAPTER 4	Systems Theory in Business	63
	The Market System	
	The Business Firm	
	The Organizational Unit	
	A Systems Model of the Manager	
	Conclusion	
CHAPTER 5	Information Systems in the Business Firm	85
	Communication Systems	
	The Informal Information System	
	Organizational Information Systems	
	Operating Information Systems	
	Management Information Systems	
	Decision-Making Information Systems	
	Data-Processing Information Systems	
	Conclusion	
CHAPTER 6	The Information Systems Study	111
	Systems Study Prerequisites	

Development of the Overall Plan  
The Information Systems Analyst  
Development of General Background Materials  
An Overview of the Information System Development Process  
Case Study: Eutectic Aluminum Corporation

CHAPTER 7 Information Systems Analysis 131

Determination of Information System Objectives,  
Boundaries, and Interfaces  
Documentation of the Existing Information System  
Development of the Information System Flowchart  
Analysis of the Existing Information System  
Evaluation of the Existing Information System's Efficiency  
Evaluation of the Existing Information System's Effectiveness  
Case Study: The Plainfield Water Board (A)

CHAPTER 8 The Design of New Information Systems 159

Objectives of the New Information System  
Data-Processing Constraints  
Human Constraints  
The System Proposal  
Information System Design  
Economic Analysis  
Dimensional Analysis  
Conclusion  
Case Study: The Plainfield Water Board (B)

CHAPTER 9 The Information System Description 193

The System Specification  
The Information System Implementation Program  
Conclusion

CHAPTER 10 Financial Information Systems 223

The Financial System:  
Accounts Receivable Subsystem  
Accounts Payable Subsystem  
Responsibility Accounting Systems

CHAPTER 11 Personnel Information Systems 261

The Personnel System  
The Data Base

The Personnel Information System	
The Skills Locator Information System	
Case Study: The Snow Manufacturing Company Insurance System	
<b>CHAPTER 12 Inventory Information Systems</b>	<b>289</b>
The Inventory System	
The Bill of Materials Information System	
The Inventory Control Information System	
Inventory Analysis Information Systems	
Conclusion	
Case Study: Airstar Spare Parts Inventory	
<b>CHAPTER 13 Production/Operation Information Systems</b>	<b>336</b>
The Production System	
Manufacturing Planning Information Systems	
Production Scheduling Information Systems	
Production Monitor Information Systems	
Conclusion	
<b>CHAPTER 14 Marketing Information Systems</b>	<b>367</b>
The Marketing System	
Order Collection and Transmission Information Systems (PARS)	
Credit Authorization Information Systems (BankAmericard)	
Sales Analysis Information Systems	
Conclusion	
Motel Reservation System Project	
<b>CHAPTER 15 Integrated Information Systems Applications</b>	<b>393</b>
Integrated Information Systems	
Point-of-Sale Information System (Sears, Roebuck and Company)	
Integrated Production Information Systems (Worcester Controls)	
Information Systems in Nonprofit Organizations	
Conclusion	
<b>CHAPTER 16 Information Systems Trends</b>	<b>415</b>
Trends in Information Systems Design and Application	
Organizational Changes	
<b>Index</b>	<b>422</b>
