

Health Impact Assessment for Sustainable Water Management

Edited by

Lorna Fewtrell and David Kay

Publishing

Contents

<i>Preface</i>	<i>ix</i>
<i>Foreword</i>	<i>xi</i>
<i>List of contributors</i>	<i>xiii</i>
<i>Abbreviations</i>	<i>xvii</i>
1 Health impact assessment for sustainable water management: the lay of the land <i>Lorna Fewtrell, David Kay, Ian Matthews, Jürg Utzinger, Burton H Singer and Robert Bos</i>	
1.1 Background	1
1.2 Origins of HIA	7
1.3 Developing rationale	8
1.4 Sustainable water management	14
1.5 Definitions of health and HIA	14
1.6 The HIA process	19
1.7 Challenges	21
1.8 Structure of the book	24
1.9 References	24
2 An overview of UK-based HIA research on water management and flooding <i>Lorna Fewtrell, David Butler, Fayyaz Ali Memon, Richard Ashley and Adrian Saul</i>	
2.1 Introduction	29
2.2 Quantification	31

2.3	Screening	33
2.4	Scoping	34
2.5	Profiling (case study)	35
2.6	Risk assessment	36
2.7	Health impact statement and reference levels of risk	39
2.8	Discussion	41
2.9	References	41
3	Rainwater harvesting – an HIA of rainwater harvesting in the UK <i>Lorna Fewtrell, David Kay and Adrian McDonald</i>	
3.1	Introduction	45
3.2	Risk assessment	46
3.3	Health impact statement	60
3.4	Discussion	60
3.5	References	61
A3.1	Summary of infection parameters	65
4	HIA of sustainable drainage options in the UK <i>Lorna Fewtrell, David Kay and Richard Kellagher</i>	
4.1	Introduction	69
4.2	Risk assessment	71
4.3	Health impact statement	83
4.4	Discussion	83
4.5	References	84
5	HIA of greywater reuse in the UK <i>Lorna Fewtrell, David Kay, Paul Jeffrey and Bruce Jefferson</i>	
5.1	Introduction	89
5.2	Risk assessment	94
5.3	Health impact statement	113
5.4	Discussion	113
5.5	References	114
A5.1	Summary of infection parameters	119
6	Flooding and health – an evaluation of the health impacts of urban pluvial flooding in the UK <i>Lorna Fewtrell, David Kay and Richard Ashley</i>	
6.1	Introduction	121
6.2	Mortality and injuries	123
6.3	Infection	126

6.4	Mental health effects	134
6.5	Health impact evaluation – Bradford case studies	139
6.6	Discussion	144
6.7	Acknowledgements	148
6.8	References	148
7	An exploratory quantitative microbial risk assessment of urban flooding and gastrointestinal illness <i>Lorna Fewtrell, Keren Smith, John Watkins, John Blanksby and Adrian Saul</i>	
7.1	Introduction	155
7.2	Microbial contamination of flood components	157
7.3	Exposure	164
7.4	QMRA	167
7.5	Discussion	172
7.6	References	173
8	Mupfure irrigation project, Zimbabwe. HIA of a water resources development <i>Flemming Konradsen, Moses Chimbari and Peter Furu</i>	
8.1	Background	179
8.2	Project details	180
8.3	Screening	181
8.4	Scoping	181
8.5	Full-scale HIA	181
8.6	Health impact assessment summary	194
8.7	Safeguards and mitigation measures	194
8.8	HIA conclusions	194
8.9	Mupfure revisited	194
8.10	Acknowledgements	197
8.11	References	198
9	Nam Theun 2 hydroelectric project, Lao PDR <i>Gary R Krieger, Marci Z Balge, Soutsakhone Chanthapone, Marcel Tanner, Burton H Singer, Lorna Fewtrell, Surinder Kaul, Pany Sananikhom, Peter Odermatt and Jürg Utzinger</i>	
9.1	Introduction	199
9.2	Identification of health issues	202
9.3	Assessment process	203
9.4	Selected assessment results	208

9.5	Mitigation	221
9.6	Conclusions	226
9.7	Postscript	228
9.8	Acknowledgements	229
9.9	References	229
10	Raw wastewater use in agriculture; risk versus benefits <i>Jeroen HJ Ensink and Wim van der Hoek</i>	
10.1	Wastewater use in agriculture	233
10.2	Pakistan	234
10.3	Health impact evaluation	235
10.4	Cost-benefit analysis	237
10.5	Conclusions	246
10.6	Recommendations for safe use	246
10.7	References	248
11	Concluding remarks	
11.1	Introduction	249
11.2	Challenges and emerging issues	252
11.3	Attributes	257
11.4	References	262
