# Contents

<i>List of FORTRAN subroutines</i>	vii
<i>List of programs</i>	ix
<i>Preface</i>	xiii
1. The choices open to the modeller	1
2. Modelling systems	18
3. Model design	77
4. Cost structures	107
5. Revenue structures	130
6. Models incorporating inventories, production and valuation	140
7. Short-term cash budgeting models	178
8. Longer-run financial models	213
9. Strategic models	267
10. Multi-stage models and consolidation	278
11. Modelling for decision-making and control	293
12. Industrial dynamics and other models	301
13. Integrated planning systems and conclusion	311
<i>Appendix 1: two simple DCF routines</i>	325
<i>Select bibliography</i>	327
<i>Index</i>	339
