A study on weather related
aircraft departure and arrival delays at Vienna
International Airport

C. Peer, H. Pümpel and T. Hauf

Hannover 2008

ULB Darmstadt

17159100

Table of Contents

1.	Introduction.....	1
2.	Origin and description of the data sets.....	3
3.	Methodology applied.....	5
3.1	METAR.....	5
3.1.1	METAR climatology.....	5
3.1.2	Visibility, clouds and ceiling height.....	5
3.2	Delay duration statistics.....	6
3.3	Determining the relationship between weather and delays.....	6
4.	Results.....	7
4.1	Summary of weather elements – A METAR climatology.....	7
4.2	Statistical distribution of delays.....	8
4.2.1	Departure delays.....	8
4.2.2	Arrival delays.....	11
4.3	Relationship between weather and delays.....	12
5.	Acknowledgements.....	15
6.	References.....	15
