QUALITY OF GROUNDWATER

Edited by

W. van Duijvenbooden
P. Glasbergen
and
H. van Lelyveld

National Institute for Water Supply, P.O. Box 150, 2260 AD Leidschendam, The Netherlands

A selection of these papers has been published as a special volume of
The Science of the Total Environment, Volume 21, 1981

ELSEVIER SCIENTIFIC PUBLISHING COMPANY
AMSTERDAM — OXFORD — NEW YORK 1981
CONTENTS

Preface XIX

Welcome speech XXIII
P. SANTEMA

Opening address XXV
L. GINJAAR

Summary, conclusions and recommendations XXIV
L. HUISMAN

Topic 1 Effects of diffuse polluting sources, land use and precipitation
Topic 2 Effects of local polluting sources
Topic 3 Subsurface waste disposal and deep-well injection
Topic 4 Hazardous pollutants in subsoil
Topic 5 Collection and interpretation of data
Topic 6 Development of models
Topic 7 Criteria and methods for protection of groundwater quality

INTRODUCTION
A systems approach to groundwater quality 1
G.B. ENGELEN

TOPIC 1 - GENERAL PAPERS
The effects of farming practices on groundwater quality 27
in the United Kingdom
D.B. OAKES, C.P. YOUNG and S.S.D. FOSTER

General aspects of groundwater non-point pollution 41
J. VRBA

TOPIC 1 - SPECIALIST PAPERS (including posters)
Some effects on Swedish groundwaters from diffuse polluting 55
sources illustrated by data from the national groundwater
monitoring program
M. AASTRUP and G. PERSSON
On the salinity of groundwater in South 24-Parganas District, West Bengal, India

P.G. ADYALKAR, P.C. GHOSH and B.C. MEHTA

Research on groundwater pollution: comportment of soil and groundwater of Soukra plain with the use of seasonal irrigation by the urbain and treated sewage of Tunis city

Mme. H. AYOUB-TEBINI

Input of chemical substances into seepage and groundwater in a suburban region

J. BITTERSOHL, B. MERKEL and G. NEMETH

Effect of town development on groundwater: example of a small town

H. BUJWID

Pollution by nitrates of the subsurface waters in Hungary

F. CSAKI and I. ENDREDI

The impact of the high dam on the quality of groundwater under the Nile Delta, Egypt with emphasis on greater Cairo province

M.Sh. DIAB, I.H. HIMIDA and M.F. SALEH

Some examples of groundwaters pollution in Italy

W. DRAGONI, M. PELLEGRINI and A. ZAVATTI

Pollution of upper aquifer in Punjab (India)

M.R. GOYAL, O.P. ABROL and A.K. VOHRA

The problem of water table rebound after mining activity and its effect on ground and surface water quality

Mme. M. PATRICIA HENTON

Natural nitrate occurrence in closed basins in South-Western United States

JOHN W. HESS and ROGER L. JACOBSON

Groundwater in Kuwait and the environmental factors affecting its quality

I.H. HIMIDA
Nitrate pollution of groundwater in Southern and South-Western Haryana, India
Y.P. KAKAR

Effect of industrial-urbanized landscapes on underground waters
A.R. KONDRATAS

High nitrate concentrations in shallow aquifers in a rural area of central Nigeria caused by random deposits of domestic refuse and excrement
O. LANGENEGGER

Atrazine contamination of groundwater in the Platte Valley of Nebraska from non-point sources
G. WEHTJE, J.R.C. LEAVITT, R.F. SPALDING, L.N. MIELKE and J.S. SCHEPERS

Groundwater quality aspects of dug wells in southern Nigeria
E.P. LOEHNERT

Nitrate pollution of groundwater as result of agricultural development in Indoganga Plain, India
S. MALLICK and S. BANERJI

Groundwater pollution in Warangal Town, Andhra Pradesh, India
KRISHNA RAO NARAM

Studies of DBCP in subsoils
S.J. NELSON, M. ISKANDER, M. VOLZ, S. KHALIFA and R. HABERMAN

Chemical composition of the precipitation over The Netherlands
T.B. RIDDER, F.J.J. BRINKMANN and H.F.R. REIJNDERS

Impact of fertilizers on the quality of groundwater monitoring in field experiment conditions
J. STIBRAL and J. VRBA

Groundwater pollution by volatile halogenated hydrocarbons; sources of pollution and methods to estimate their relevance
T. TROUWBOERST
TOPIC 2 - GENERAL PAPERS

The need for an integrated approach to water supply and sanitation in developing countries
W.J. LEWIS, S.S.D. FOSTER, G.H. READ and R. SCHERTENLEIB

The impact of point source pollution on groundwater quality
C.P. YOUNG

TOPIC 2 - SPECIALIST PAPERS (including posters)

Groundwater pollution by arsenic
A.C. ANDERSSON and C. GEDDA

Groundwater impact of silicate gel injections
K. AURAND, M. BAROWSKY, T. DARIMONT, G. MILDE and R. OETTING

Percolation of domestic sewage into a karstic aquifer
B. AZMON and D. GILAD

Groundwater contamination by landfill leachate: distribution of contaminants and factors affecting pollution plume development at three sites, U.K.
C. BARBER, C.P. YOUNG, N.C. BLAKEY, C.A.M. ROSS and G.M. WILLIAMS

Effects of discharging sewage to the chalk
K.M. BAXTER, K.J. EDWORTHY, M.J. BEARD and H.A.C. MONTGOMERY

Effects on groundwater flow and groundwater quality of a waste disposal site in Noordwijk, The Netherlands
W. VAN DUIJVENBOODEN and W.P. KOOPER

Mobilization of heavy metals from coal-fired power plants: potential impact on groundwater
L. GOETZ, G. BIGNOLI and E. SABBIONI

Groundwater pollution due to industrial effluents in Ludhiana, India
Y.P. KAKAR and N.C. BHATNAGAR

Control of groundwater pollution at a liquid chemical waste disposal site
W.E. KELLY, M.A. POWERS and P.P. VIRGADAMO
Groundwater pollution by heavy metals and pesticides from a dredge spoil dump
H.N. KERDIJK

Groundwater pollution by tanneries in Tamil Nadu (India)
R. KRISHNASWAMY and G. HARIDASS

In situ treatment of arsenic contaminated groundwater
G. MATTHESS

Dynamics of soil and groundwater pollution by irrigation of sewage
G. MILDE, K. AURAND, H. DIZER, Z. FILIP, J.V. KUNOWSKI and V. NEUMAYR

Potential health impacts of subsurface sewage sludge disposal upon groundwater resources
ROBERT D. MORRISON

Geotechnical methods combined with cluster wells to investigate and monitor organic and inorganic groundwater contamination
C.A. RICH

The permanent inorganic groundwater pollution by biologically treated wastewater from sugar refineries
V. SCHENK

Groundwater pollution resulting from disposal of pyritic coal wastes
J.P. SCHUBERT and P.F. PRODAN

Technogenic activity of man and local sources of environmental pollution
O.N. SHPAKOV and G.V. BOGOMOLOV

Application of geophysical methods to localize farming pollution
B. SKUTHAN, O. MAZAC and I. LANDA

The spatial distribution of polluted groundwater from rural centres in a recharge area in The Netherlands - The Veluwe
L. VASAK, G.J.W. KRAJENBRINK and C.A.J. APPELO
Environmental pollution by a chemical waste dump
R.C.C. WEGMAN, C.A. BANK and P.A. GREVE

TOPIC 3 - GENERAL PAPERS
Deep-well waste disposal in the Federal Republic of Germany
-A state-of-the-art report-
H. AUST

A review of three decades of deep-well injection and the present state of the art
LOUIS R. REEDER

Subsurface injection of liquid waste in Florida, U.S.A.
JOHN VECCHIOLI

TOPIC 3 - SPECIALIST PAPERS
Behaviour of contaminants after injection of treated urban waste water in a well
E. CUSTODIO, R. TOURIS and S. BALAGUE

Deep-well injection of industrial waste in Texas
R.T. KENT

Deep borehole testing techniques developed for Canada's nuclear fuel waste management program
R.E.J. LEECH

Underground disposal of wastes in Britain
G.M. WILLIAMS

TOPIC 4 - GENERAL PAPERS
Concepts of a survival and transport model of pathogenic bacteria and viruses in groundwater
G. MATTHESS and A. PEKDEGER

Principles of organic contaminant behaviour during artificial recharge
PAUL V. ROBERTS and ALBERT J. VALOCCHI

Groundwater pollution in porous media by fluids immiscible with water
F. SCHWILLE
Persistency of organic contaminants in groundwater, lessons from soil pollution incidents in The Netherlands

B.C.J. ZOETEMAN, E. DE GREEF and F.J.J. BRINKMANN

TOPIC 4 - SPECIALIST PAPERS (including posters)

Behaviour of organic solvents in the environment

K. AURAND, P. FRIESEL, G. MILDE and V. NEUMAYR

Sem-Edxra measurements of thin sections of heavy metal contaminated soil samples from column experiments

E.B.A. BISDOM, G. HEINTZBERGER and P. LAGAS

Evaluation of different analytical procedures in the trace element analysis of a landfill leachate

C.M. BOM

Transfer of mercury into alluvions from a river: effect of mercury-bearing sludges on the quality of groundwater in the region of Cernay, Alsace

T.D. DINH, P. MUNTZER and L. ZILLIOX

Comparison of a one-dimensional, steady-state hydraulic model with a two-dimensional, transient hydraulic model for aldicarb transport through soil

CARL G. ENFIELD, ROBERT F. CARSEL and TO PHAN

Survival and transport of enteric viruses and bacteria in groundwater

C.P. GERBA and B.H. KESWICK

Groundwater pollution by volatile organic chemicals

W. GIGER and C. SCHAFNTER

Determination of cyanide in soil and groundwater

M.J. 't HART and R.P. VAN DER GEUOTEN

Fate of nitrilotriacetic acid during groundwater recharge

J. HRUBEK and W. VAN DELFT

Hydrogeochemical investigations under an infiltrating surface water

W. KANZ
Modelexperiments on the behaviour of cyanide and barium in a landfill and in the soil

P. LAGAS, C.M. BOM, M.J. 't HART, H.A.M. DE KRUIJF and J.P.G. LOCH

Behaviour of heavy metals in soil beneath a landfill; results of model experiments

P.G. LOCH, P. LAGAS and B.J.A.M. HARING

The behaviour of organic micropollutants during passage through the soil

The behaviour of organic pollutants in a natural river - groundwater infiltration system

J.K. SCHNEIDER, R.P. SCHWARZENBACH, E. HOEHN, W. GIGER and H.R. WASMER

Transport of non-polar organic pollutants in a river water - groundwater infiltration system: a systematic approach

R.P. SCHWARZENBACH and J. WESTALL

Organic pollution of groundwater: its prevalence, implication and control

WILLIAM J. DUNLAP and D. CRAIG SHEW

Groundwater uranium concentrations - How high is high?

R.F. SPALDING and A.D. DRULINER

Groundwater and surface water contamination by hydrocarbons - a case history

A. THOMAS and W.M. LEIS

Impact of a glacial uranium deposit on the groundwater quality at Key Lake, Saskatchewan (Canada)

W. UNLAND

Results of some laboratory model experiments on the manganese migration in aluvial sands

B.L. VELIKOV and P.P. PENTSHEV
Behaviour of disinfectants (Chlorophenols) during underground passage

N. ZULLEI

TOPIC 5 - GENERAL PAPERS
Optimization of a groundwater quality sampling program

Y. BACHMAT and M. BEN-ZVI

Groundwater quality in The Netherlands - collection and interpretation of data

W. VAN DUIJVENBOODEN

Groundwater quality monitoring systems - money wasted?

W.B. WILKINSON and K.J. EDWORTHY

TOPIC 5 - SPECIALIST PAPERS (including posters)
Accidental water pollution caused by 16,000 bottles of 'Sauternes'

J. AUBIC

Field tests on propagation of conservative tracers in fluvioglacial gravels of Upper Bavaria

H. BEHRENS and K.P. SEILER

Methodology for the study of an actual case of mass transfer between river and groundwater

Ph. COLLONGUES

Quality of groundwater in parts of upper catchment of Betwa river basin in Central India

D.K. DAS and A.L. KIDWAI

Water quality under Sinai peninsula 'Egypt'

M.SH. DIAB and I.H. HIMIDA

Physico-chemical characteristics of the groundwater in the fractured rocks in the Ivory Coast. Implications on their use

J.P. FAILLAT

Qualitative relationships between an aquifer and the surface water flows

J.C. FOURNEAUX

Design of a network for monitoring the injected pollutants in the Yucatan aquifer

S. GAONA, M. VILLASUSO, J. TREJO, T. GORDILLO, J. PACHECO and A. CABRERA

The importance of the polarity of water and the electrical charge of soil upon the flow of water in soil

V. SCHWEIKLE

Quantitative analysis of groundwater quality in Western Saudi Arabia

SAMIR A. AL-GAMEL and ZEKAI SEN

On the concentrations of certain substances in the melt water and the groundwater in Finland

J. SOVERI

Field-survey techniques and the protection of soil and groundwater

R.J. SPORRY

Groundwater quality studies for irrigation in Andhra Pradesh, India

K.M. SUBRAMANYAM and T. NARASIMHA REDDY

Surveillance and monitoring of groundwater quality

J. SVOMA and V. HOUZIM

Processes of forming the underground water chemical composition in the zone of drain reclamation

A.L. ZHUHOVITSKAJA, V.A. KOVALEV

TOPIC 6 - GENERAL PAPERS

Groundwater pollution mathematical modelling: improvement or stagnation?

J.J. PRIED

Role of numerical simulation in analysis of groundwater quality problems

L.F. KONIKOW

TOPIC 6 - SPECIALIST PAPERS (including posters)

The calculation of streamlines in an inhomogeneous, anisotropic porous medium with two-dimensional flow

C. VAN DEN AKKER

Streamlines and travel times of groundwater in a two-layered aquifer system

C. VAN DEN AKKER and J.H. PETERS

Two- and threedimensional mathematical models of contaminant movement in groundwater

G. BAROVIC and P.W. BOOCHS

Long-term prediction of the potential impact of heavy metals on groundwater quality as a result of fertilizer use
G. BIGNOLI and E. SABBIONI
Hydrology and water chemistry in a small watershed 863

L. BJERVE, J.O. ENGLUND and P. JØRGENSEN
Development of the chemical composition of water during seepage in 867
natural surrounding: main results of an experimental study

M. BONNET and A. LANDREAU
A mathematical model for predicting the concentration of nitrogen 879
compounds in surface and groundwater streams

GERARD CHETBOUN and YEHUDA BACHMAT
Growth of the dispersion coefficient with the mean travelled distance 887
