## PART 1

---

### What Is Economics All About? 1

1 What Is Economics?	2
----------------------	---

<b>Ideas for Beyond the Final Exam</b>	<b>2</b>
--	----------

Idea 1: The Trade-Off Between Inflation and Unemployment	3
Idea 2: The Illusion of High Interest Rates	3
Idea 3: The Consequences of Budget Deficits	4
Idea 4: Mutual Gains from Voluntary Exchange	4
Idea 5: The Surprising Principle of Comparative Advantage	4
Idea 6: Productivity Is Everything in the Long Run	5
Idea 7: Attempts to Repeal the Laws of Supply and Demand: The Market Strikes Back	5
Idea 8: Externalities: A Shortcoming of the Market Cured by Market Methods	6
Idea 9: Rational Choice and True Economic Costs	6
Idea 10: The Importance of Marginal Analysis	7
Idea 11: The Cost Disease of the Service Sector	7
Idea 12: Increasing Output May Require Sacrificing Equality	8
Epilogue	8

<b>Inside the Economist's Tool Kit</b>	<b>9</b>
--	----------

What Economists Do	9
The Need for Abstraction	9
The Role of Economic Theory	12
What Is an Economic "Model"?	14
The Concept of "Rational" Behavior	14
Reasons for Disagreements: Imperfect Information and Value Judgments	15
The Economist's Odd Vocabulary	16
Summary	17
Concepts for Review	17
Questions for Discussion	17

## **2 The Use and Misuse of Graphs** **18**

### **Graphs Used in Economic Analysis** **19**

- Two-Variable Diagrams 19
- The Definition and Measurement of Slope 20
- Rays Through the Origin and 45° Lines 23
- Squeezing Three Dimensions into Two: Contour Maps 24

### **Perils in the Interpretation of Graphs** **24**

- The Interpretation of Growth Trends 25
- Distorting Trends by Choice of the Time Period 27
- Dangers of Omitting the Origin 28
- Unreliability of Steepness and Choice of Units 30
  
- Summary 32
- Concepts for Review 33
- Questions for Discussion 33

## **3 The Economic Problem** **34**

- The "Indispensable Necessity" Syndrome 34
- Scarcity, Choice, and Opportunity Cost 35
- Opportunity Cost and Money Cost 36
- Scarcity and Choice for a Single Firm 37
- Scarcity and Choice for the Entire Society 39
- Scarcity and Choice Elsewhere in the Economy 41
- The Concept of Efficiency 42
- The Three Coordination Tasks of Any Economy 43
- Specialization, Division of Labor, and Exchange 43
- Markets, Prices, and the Three Coordination Tasks 45
- Radicalism, Conservatism, and the Market Mechanism 46
  
- Summary 47
- Concepts for Review 48
- Questions for Discussion 48

## **4 Supply and Demand: An Initial Look** **49**

- Fighting the Invisible Hand 49
- Demand and Quantity Demanded 50
- Supply and Quantity Supplied 52
- Equilibrium of Supply and Demand 54
- Shifts of the Demand Curve 57
- Shifts of the Supply Curve 59
- Restraining the Market Mechanism: Price Ceilings 62
- Restraining the Market Mechanism: Price Floors 64
- A Can of Worms 66
  
- Summary 67
- Concepts for Review 68
- Questions for Discussion 68

# PART 2

---

## Essentials of Macroeconomics: Aggregate Supply and Aggregate Demand 71

### 5 Macroeconomics and Microeconomics 72

Drawing a Line Between Macroeconomics and Microeconomics	72
Supply and Demand in Macroeconomics	74
Gross National Product	75
The Economy on a Roller Coaster	78
The Great Depression of the 1930s	79
From World War II to the 1970s	81
The Great Stagflation, 1973–1980	82
Disinflation in the Early 1980s	83
The Problem of Macroeconomic Stabilization	83
Summary	86
Concepts for Review	86
Questions for Discussion	86

### 6 Unemployment and Inflation: The Twin Evils of Macroeconomics 88

#### The Costs of Unemployment 89

Counting the Unemployed: The Official Statistics	91
Types of Unemployment	92
How Much Employment Is “Full Employment”?	92
Unemployment Insurance: The Invaluable Cushion	93
The Economic Costs of High Unemployment	94

#### The Costs of Inflation 97

Inflation: The Myth and the Reality	97
Inflation as a Redistributor of Income and Wealth	100
Real Versus Nominal Interest Rates	101
Inflation and the Tax System	102
Usury Laws, Interest Rate Ceilings, and Other Impediments	103
Other Costs of Inflation	105
Creeping Versus Galloping Inflation	105
The Costs of Creeping Versus Galloping Inflation	106
Creeping Inflation Does Not Necessarily Lead to Galloping Inflation	107

Summary	107
Concepts for Review	108
Questions for Discussion	108

**Appendix: How Statisticians Measure Inflation** 109

Index Numbers for Inflation 109  
The Consumer Price Index 110  
How to Use a Price Index to "Deflate" Monetary Figures 110  
The GNP Deflator 111  
  
Summary 111  
Concepts for Review 111  
Questions for Discussion 112

**7 Income and Spending:  
The Powerful Consumer** 113

Aggregate Demand, National Product, and National Income 113  
The Circular Flow of Spending, Production, and Income 114  
Demand Management and the Powerful Consumer 116  
Consumer Spending and Income: The Important Relationship 118  
The Consumption Function and the Marginal Propensity to  
Consume 121  
Movements Along Versus Shifts of the Consumption Function 123  
Other Determinants of Consumer Spending 124  
Why Tax Policy Failed in 1968 and 1975 126  
The Predictability of Consumer Behavior 127  
  
Summary 128  
Concepts for Review 129  
Questions for Discussion 129

**Appendix A: The Saving Function and the Marginal Propensity to Save** 130

Summary 131  
Concepts for Review 132  
Questions for Discussion 132

**Appendix B: National Income Accounting** 132

Defining GNP: Exceptions to the Rules 132  
GNP as the Sum of Final Goods and Services 133  
GNP as the Sum of All Factor Payments 134  
GNP as the Sum of Values Added 135  
Alternative Measures of the Income of the Nation 137  
Limitations of the GNP: What GNP Is Not 138  
  
Summary 139  
Concepts for Review 139  
Questions for Discussion 140

**8 Demand-Side Equilibrium:  
Unemployment or Inflation?** 141

The Extreme Variability of Investment 142  
A Simplified Circular Flow 143

The Meaning of Equilibrium GNP	144
Equilibrium on the Demand Side of the Economy	145
Constructing the Expenditure Schedule	146
The Mechanics of Income Determination	147
The Aggregate Demand Curve	149
Demand-Side Equilibrium and Full Employment	151
The Coordination of Saving and Investment	153
Summary	155
Concepts for Review	156
Questions for Discussion	156

## **Appendix A: The Saving and Investment Approach** 157

Graphical Analysis	157
Induced Investment	158
Summary	158
Concepts for Review	158
Questions for Discussion	158

## **Appendix B: The Simple Algebra of Income Determination** 159

Questions for Discussion	159
--------------------------	-----

# 9 **Changes on the Demand Side: Multiplier Analysis** 160

The Magic of the Multiplier	160
Demystifying the Multiplier: How It Works	162
Algebraic Statement of the Multiplier	164
The Multiplier Effect of Consumer Spending	166
The Multiplier in Reverse	167
The Paradox of Thrift	168
The Multiplier and the Aggregate Demand Curve	168
Summary	170
Concepts for Review	170
Questions for Discussion	170

## **Appendix: The Simple Algebra of the Multiplier** 171

# 10 **Supply-Side Equilibrium: Unemployment *and* Inflation?** 172

The Mystery of Stagflation	172
The Aggregate Supply Curve	173
Shifts of the Aggregate Supply Curve	175
The Shape of the Aggregate Supply Curve	177
Equilibrium of Aggregate Demand and Supply	177
Recessionary and Inflationary Gaps Revisited	179
Adjusting to an Inflationary Gap: Inflation	180

Demand Inflation and Stagflation	182
Adjusting to a Recessionary Gap: Deflation or Unemployment?	183
Does the Economy Have a Self-Correcting Mechanism?	185
Stagflation from Supply Shifts: The 1970s	186
Inflation and the Multiplier	188
Summary	190
Concepts for Review	191
Questions for Discussion	191

## **PART 3**

---

# **Fiscal and Monetary Policy 193**

## **11 Fiscal Policy and Supply-Side Economics 194**

How Budget Decisions Are Made	194
Government Purchases and Equilibrium Income	195
Income Taxes and the Consumption Schedule	198
Tax Policy and Equilibrium Income	198
Multipliers for Tax Policy	201
Government Transfer Payments	201
The Multiplier Revisited	202
Planning Expansive Fiscal Policy	204
Planning Restrictive Fiscal Policy	205
The Choice Between Spending Policy and Tax Policy	205
Some Harsh Realities	206
The Idea Behind Supply-Side Tax Cuts	207
Some Flies in the Ointment	210
Toward Assessment of Supply-Side Economics	214
Summary	216
Concepts for Review	216
Questions for Discussion	216

## **Appendix: Algebraic Treatment of Fiscal Policy and Aggregate Demand 217**

Questions for Discussion	219
--------------------------	-----

## **12 Banking and the Creation of Money 220**

Policy Issue: Deregulating the Banks	220
Barter Versus Monetary Exchange	221
The Conceptual Definition of Money	222
What Serves as Money?	223
How the Quantity of Money Is Measured	225
How Banking Began	227
Principles of Bank Management: Profits Versus Safety	228
Bank Regulation	229
How Bankers Keep Books	229

The Limits to Money Creation by a Single Bank	231
Multiple Money Creation by a Series of Banks	232
The Process in Reverse: Multiple Contractions of the Money Supply	236
Why the Money Creation Formula Is Oversimplified	237
The Need for Monetary Control	238
Summary	239
Concepts for Review	239
Questions for Discussion	239

## **13 Central Banking and Monetary Policy 241**

The Federal Reserve System: Origins and Structure	241
The Independence of the Fed	243
Controlling the Money Supply: Reserve Requirements	243
Controlling the Money Supply: Open Market Operations	245
Controlling the Money Supply: Lending to Banks	247
Tightening Monetary Control: Some Suggested Reforms	248
The Money Supply Mechanism: A Summary	249
The Demand for Money	250
Equilibrium in the Money Market	251
Controlling the Money Supply Versus Controlling Interest Rates: The Policy Dilemma	252
What Should the Fed Do?	254
What Has the Fed Done?	255
Conclusion and Preview	256
Summary	256
Concepts for Review	257
Questions for Discussion	257

## **14 Money and the National Economy: The Keynesian–Monetarist Debate 258**

Money and Income: The Important Difference	259
Money and Total Expenditure in the Keynesian Model	259
Monetary Policy in the Keynesian Model	260
Money and the Price Level: The Complete Keynesian Model	262
Velocity and the Quantity Theory of Money	264
The Determinants of Velocity	267
Monetarism: The Quantity Theory Modernized	268
Reconciling the Keynesian and Monetarist Views	270
Keynesians Versus Monetarists: Fiscal Versus Monetary Policy	272
Keynesians Versus Monetarists: Lags in Fiscal and Monetary Policy	272
Keynesians Versus Monetarists: The Aggregate Supply Curve	274
Summary	277
Concepts for Review	278
Questions for Discussion	278

<b>15</b>	<b>Budget Deficits and the National Debt: Fact and Fiction</b>	<b>280</b>
	The Reagan-Mondale Debate over the Budget Deficit	280
	Should the Budget Be Balanced?	281
	Deficits and Debt: Some Terminology	282
	Some Facts About the National Debt	283
	Interpreting the Budget Deficit	285
	Bogus Arguments About the Burden of the Debt	291
	Budget Deficits and Inflation	292
	Deficits, Interest Rates, and Crowding Out	295
	The True Burden of the National Debt	298
	The Economic Effects of Budget Deficits: Causation Versus Correlation	299
	Conclusion: The Reagan-Mondale Debate over Budget Deficits	302
	Summary	303
	Concepts for Review	304
	Questions for Discussion	304
<b>16</b>	<b>The Trade-Off Between Inflation and Unemployment</b>	<b>306</b>
	Demand-Side Inflation Versus Supply-Side Inflation: A Review	306
	Applying the Model to a Growing Economy	309
	Demand-Side Inflation and the Phillips Curve	310
	What the Phillips Curve Is Not	314
	Fighting Inflation with Fiscal and Monetary Policy	317
	What Should Be Done?	319
	Inflationary Expectations and the Phillips Curve	321
	The Theory of Rational Expectations	323
	Fighting Recessions with Fiscal and Monetary Policy	326
	Why Economists (and Politicians) Disagree	328
	Supply-Side Inflation and the Phillips Curve	328
	The Dilemma of Demand Management	330
	Summary	330
	Concepts for Review	331
	Questions for Discussion	331
<b>17</b>	<b>Further Controversies over Stabilization Policy</b>	<b>332</b>
	<b>Can We Improve the Trade-Off Between Inflation and Unemployment?</b>	<b>332</b>
	Attempts to Reduce the Natural Rate of Unemployment	333
	Incomes Policy	334
	Tax-Based Incomes Policy	338
	Indexing	338

**Can We Conduct a Successful Stabilization Policy? 340**

Lags and the Rules-Versus-Discretion Debate	341
Stabilization Policy: Discretionary Measures or Fixed Rules?	343
Techniques of Economic Forecasting	344
The Accuracy of Economic Forecasts	347
Other Dimensions of the Rules-Versus-Discretion Debate	348
Conclusion: What Should Be Done?	349
Summary	352
Concepts for Review	352
Questions for Discussion	352

**PART 4**  
**Essentials of Microeconomics:**  
**Consumers and Firms 355**

**18 The Common Sense of Consumer Choice 356**

Total and Marginal Utility	357
From Marginal Utility to the Demand Curve	360
The Diamond–Water Paradox: The Puzzle Resolved	361
Prices, Income, and Quantity Demanded	362

Summary	364
Concepts for Review	365
Questions for Discussion	365

**Appendix: Indifference Curve Analysis 366**

Geometry of the Available Choices: The Budget Line	366
Properties of the Budget Line	367
What the Consumer Prefers: The Indifference Curve	368
Properties of the Indifference Curve	369
The Consumer's Choice	370
Consequences of Income Changes: Inferior Goods	371
Consequences of Price Changes: Deriving the Demand Curve	371

Summary	373
Concepts for Review	373
Questions for Discussion	373

**19 Consumer Demand and Elasticity 374**

From Individual Demand Curves to Market Demand Curves	374
The “Law” of Demand	375
Application: Who Pays an Excise Tax?	376
Elasticity: The Measure of Responsiveness	379

Elasticity and the Shape of Demand Curves	382
Elasticity and Total Expenditure	384
What Determines Elasticity of Demand?	385
Elasticity Is a General Concept	386
Quantity Demanded Depends on Many Variables	386
Shifts in Demand Curves	388
The Time Dimension of the Demand Curve and Decision Making	390
Statistical Analysis of Demand Relationships	390
Summary	393
Concepts for Review	393
Questions for Discussion	393

## **20 The Common Sense of Business Decisions: Inputs and Costs** **395**

### **The One-Variable Input Case** **396**

Total, Average, and Marginal Physical Products	396
The "Law" of Diminishing Marginal Returns	399
Production, Input Quantities, and Cost	400
The Three Cost Curves	400
Fixed Costs and Variable Costs	402
Shapes of the Average Cost and Total Cost Curves	404
Long-Run Versus Short-Run Costs	406

### **The Multi-Input Case** **407**

Substitutability: The Choice of Input Combinations	408
Diminishing Returns and the Optimal Quantity of an Input	408
Choice of Input Proportions: The Production Function	410
The Firm's Cost Curves	413
Economics of Scale	413
Diminishing Returns and Returns to Scale	416
Historical Costs Versus Analytical Cost Curves	417
Cost Minimization in Theory and Practice	419
Summary	419
Concepts for Review	420
Questions for Discussion	420

### **Appendix: Production Indifference Curves** **421**

Characteristics of the Production Indifference Curves	422
The Choice of Input Combinations	422
Cost Minimization, Expansion Path, and Cost Curves	423
Effects of Changes in Input Prices	424
Summary	425
Concepts for Review	425
Questions for Discussion	425

## **21 The Common Sense of Business Decisions: Outputs and Prices 426**

Price and Quantity: One Decision, Not Two	427
Do Firms Really Maximize Profits?	428
Total Profit: The Important Difference	429
Profit Maximization: A Graphical Interpretation	432
Marginal Analysis and Profit Maximization	433
Marginal Revenue and Marginal Cost: Guides to an Optimum	434
Marginal Analysis in Real Decision Problems	438
Conclusion: The Fundamental Role of Marginal Analysis	440
A Look Back and a Look Forward	441
Summary	442
Concepts for Review	442
Questions for Discussion	442

### **Appendix: The Relationships Among Total, Average, and Marginal Data 443**

Graphic Representation of Marginal and Average Curves	444
Questions for Discussion	445

## **PART 5**

---

## **The Market System: Virtues and Vices 447**

## **22 Firms in Reality: The Corporation and the Stock Market 448**

Firms in the United States	449
Proprietorships	450
Partnerships	451
Corporations	452
Financing Corporate Activity	453
The Financing of Corporate Activity: Stocks and Bonds	455
Bond Prices and Interest Rates	456
Corporate Choice Between Stocks and Bonds	456
Buying Stocks and Bonds	457
Selecting a Portfolio: Diversification	458
Following a Portfolio's Performance	458
Stock Exchanges and Their Functions	459
Stock Exchanges and Corporate Capital Needs	461
The Issue of Speculation	462
Stock Prices as Random Walks	463
Summary	465
Concepts for Review	466
Questions for Discussion	466

## 23 The Firm in the Marketplace: Perfect Competition

467

Varieties of Market Structure: A Sneak Preview	468
Perfect Competition Defined	468
The Competitive Firm and Its Demand Curve	469
Short-Run Equilibrium of the Competitive Firm	471
Short-Run Profit: Graphic Representation	472
The Case of Short-Term Losses	472
Shut-Down and Break-Even Analysis	473
The Supply Curve of the Competitive Firm	475
The Short-Run Supply Curve of the Competitive Industry	475
Industry Equilibrium in the Short Run	476
Industry and Firm Equilibrium in the Long Run	477
Zero Economic Profit: The Opportunity Cost of Capital	480
Perfect Competition and Economic Efficiency	481
Why Good Weather Can Be Bad for Farmers	482
Summary	483
Concepts for Review	484
Questions for Discussion	484

## 24 The Price System and the Case for Laissez Faire

485

Efficient Resource Allocation: The Concept	486
Scarcity and the Need to Coordinate Economic Decisions	487
Three Coordination Tasks in the Economy	488
Input-Output Analysis: The Near Impossibility of Perfect Central Planning	491
Pricing to Promote Efficiency: An Example	492
Can Price Increases Ever Serve the Public Interest?	494
Perfect Competition and Efficiency: What to Produce	495
Other Roles of Prices: Income Distribution and Fairness	498
Toward Assessment of the Price Mechanism	500
Summary	500
Concepts for Review	501
Questions for Discussion	501

## Appendix: The Invisible Hand in the Distribution of Goods and in Production Planning

501

Efficient Distribution of Commodities: Who Gets What?	502
Efficient Production Planning: Allocation of Inputs	503
Summary	504
Questions for Discussion	504

## **25 Pure Monopoly and the Market Mechanism 505**

Monopoly Defined	506
Causes of Monopoly: Barriers to Entry and Cost Advantages	506
Natural Monopoly	507
The Monopolist's Supply Decision	508
The Monopolist's Price and Marginal Revenue	509
Determining the Profit-Maximizing Output	510
Comparison of Monopoly and Perfect Competition	511
Can Anything Good Be Said About Monopoly?	513
Monopoly and the Shifting of Pollution Charges	515
Summary	516
Concepts for Review	517
Questions for Discussion	517

## **26 Between Competition and Monopoly 518**

Monopolistic Competition	519
Price and Output Determination Under Monopolistic Competition	520
The Excess Capacity Theorem and Resource Allocation	522
Oligopoly	523
A Shopping List	525
Sales Maximization	527
The Game-Theory Approach	528
The Kinked Demand Curve Model	530
Monopolistic Competition, Oligopoly, and Public Welfare	532
Summary	534
Concepts for Review	534
Questions for Discussion	534

## **27 Shortcomings of the Market Mechanism and Government Attempts to Remedy Them 536**

What Does the Market Do Poorly?	536
Efficient Resource Allocation: A Review	537
Externalities	539
Public Goods	543
The Cost Disease of the Service Sector	545
Allocation of Resources Between Present and Future	547
Some Other Sources of Market Failure	549
Market Failure and Government Failure	550
Evaluative Comments	552
Summary	552
Concepts for Review	553
Questions for Discussion	553

# PART 6

---

## The Government and the Economy 555

### 28 Limiting Market Power: Regulation of Industry 556

Monopoly, Regulation, and Nationalization	557
Practical Problem: Price Floors Versus Price Ceilings	557
Who Is Regulated by Which Agencies?	558
Why Regulation?	559
Has Rate Regulation Made a Difference?	563
Why Regulators Sometimes Raise Prices	564
Marginal Versus Full-Cost Rate Floors	565
A Problem with Marginal Cost Pricing	567
The Ramsey Pricing Rule	568
Regulation and Efficiency of Operation	569
Modifications in Regulatory Arrangements to Preserve Efficiency	570
Some Effects of Deregulation	572
Some Final Comments on the Regulatory Process	573
A Word on Nationalization	573
Summary	575
Concepts for Review	575
Questions for Discussion	576

### 29 Limiting Market Power: Antitrust Policy 577

The Public Image of Business at the Time the Antitrust Laws Were Born	578
The Antitrust Laws	580
The Courts and the Sherman Act	581
On Merger Policy	582
Issues in Concentration of Industry	583
Evidence on Concentration in Industry	585
The Pros and Cons of Bigness	587
Other Government Programs Related to Bigness	588
Issues in Antitrust Policy	589
Summary	591
Concepts for Review	591
Questions for Discussion	591

### 30 Taxation, Government Spending, and Resource Allocation 592

Government Spending: An Overview	592
Taxes in America	593

The Federal Tax System	595
The Payroll Tax and the Social Security System	599
The State and Local Tax System	600
Fiscal Federalism	602
The Concept of Equity in Taxation	602
The Concept of Efficiency in Taxation	604
Shifting the Burden of Taxation: Tax Incidence	605
The Incidence of Excise Taxes	607
The Incidence of the Payroll Tax	608
When Taxation Can Improve Efficiency	610
Equity, Efficiency, and the Optimal Tax	611
Summary	613
Concepts for Review	613
Questions for Discussion	614

## **31 The Economics of Environmental Protection** **615**

The Delaware: How <i>Not</i> to Clean Up a River	615
The Environment in Perspective: Is Everything Getting Steadily Worse?	616
The Law of Conservation of Matter and Energy	619
The Edifice Complex	620
Environmental Damage as an Externality	621
Supply-Demand Analysis of Environmental Problems	622
Basic Approaches to Environmental Policy	623
Emissions Taxes Versus Direct Controls	626
Other Financial Devices to Protect the Environment	629
On the Equity and Cost of Some Current Programs	631
Two Cheers for the Market	633
Summary	633
Concepts for Review	633
Questions for Discussion	634

## **32 The Economics of Energy and Natural Resources** **635**

The Free Market and Pricing of Depletable Resources	636
Resource Prices in the Twentieth Century	640
The Messy Story of Oil Prices	643
The Free Market and Resource Depletion	644
On the Virtues of Rising Prices	645
Environmental Considerations	647
Growing Reserves of Exhaustible Resources: Our Puzzle Revisited	648
A Few Words on Future Prospects	648
Summary	649
Concepts for Review	650
Questions for Discussion	650

Tariffs, Quotas, and Other Interferences with Trade	738
How Tariffs and Quotas Work	740
Tariffs Versus Quotas	741
Why Inhibit Trade?	742
Other Arguments for Protection	744
What Import Price Levels Benefit a Country?	746
Conclusion: A Last Look at the "Cheap Foreign Labor" Argument	748
Summary	748
Concepts for Review	749
Questions for Discussion	749

## **37 The International Monetary System: Order or Disorder? 751**

What Are Exchange Rates?	751
Exchange Rate Determination in a Free Market	753
The Purchasing-Power Parity Theory: The Long Run	755
Economic Activity and Exchange Rates: The Medium Run	756
Interest Rates and Exchange Rates: The Short Run	757
Market Determination of Exchange Rates: Summary	758
Fixed Exchange Rates and the Definition of the Balance of Payments	759
Defining the Balance of Payments in Practice	761
The U.S. Balance of Payments Accounts	762
A Bit of History: The Gold Standard	763
The Bretton Woods System and the International Monetary Fund	765
Adjustment Mechanisms Under the Bretton Woods System	766
Why Try to Fix Exchange Rates?	768
The Current Mixed System	769
Developments in International Financial Markets Since 1973	769
Concluding Remark: Summits and Precipices	771
Summary	772
Concepts for Review	772
Questions for Discussion	773

## **Appendix: Income Determination and the Multiplier with International Trade 774**

Equilibrium GNP with Exports and Imports	774
The Foreign Trade Multiplier	775
The U.S. Economy and the World Economy	776
Summary	777
Concepts for Review	777
Questions for Discussion	777

## **38 Productivity Problems 778**

Measuring Productivity	779
Dimensions of the U.S. Productivity Problem	779
Why Did U.S. Productivity Growth Slow Down?	781
Causes of the U.S. Productivity Growth Gap	783
Why Encourage Productivity Growth?	787

Toward Remedies 791  
The Costs of Productivity Growth 794

Summary 795  
Concepts for Review 796  
Questions for Discussion 796

## **39 Growth in Developed and Developing Countries 797**

### **Growth in General 797**

How to Measure Growth: Total Output or Output per Capita? 797  
On Growth in Population: Is Less Really More? 798  
The Crowded Planet: Exponential Population Growth 800  
Requirements for Increased Growth 802  
Accumulating Capital by Sacrificing Consumption: The Case of Soviet Russia 802  
The Payoff to Growth: Higher Consumption in the Future 803  
Growth Without Sacrificing Consumption: Something for Nothing? 804  
Is More Growth Really Better? 805

### **Problems of the Less Developed Countries 807**

Living in the LDCs 807  
Recent Trends 809  
Impediments to Development in the LDCs 811  
Help from Industrialized Economics 817  
Loans and Grants by the United States and Others 818  
Can LDCs Break Away from Poverty? 819

Summary 819  
Concepts for Review 820  
Questions for Discussion 820

## **PART 9**

---

# **Alternative Economic Systems 821**

## **40 Marxian Economics 822**
