San Francisco

A Subsidiary of Harcourt Brace Jovanovich, Publishers

Contents

| | |
|---|-----------|
| Preface | v |
| Acknowledgements | vi |
| Chapter | |
| 1. Introduction | |
| A. Scope of Multivariate Analysis | 1 |
| B. Types of Data | 2 |
| C. Problems and Methods | 9 |
| 2. The Multivariate Normal Distribution | |
| A. Generalization of the Normal Distribution | 13 |
| B. The Multivariate Central Limit Theorem | 14 |
| C. The Wishart Distribution | 15 |
| D. Tests of Significance | 15 |
| E. Heterogeneity of Variances and Covariances; Transformations | 16 |
| 3. Principal Component Analysis | |
| A. Procedure and Aims | 18 |
| B. Mathematical Treatment | 18 |
| C. Standardization | 19 |
| D. Tests of Significance | 20 |
| E. Applications | 21 |
| F. Principal Coordinates | 24 |
| 4. Canonical Variables | |
| A. The Generalization of Multiple Regression | 26 |
| B. Mathematical Formulation | 27 |
| C. Tests of Significance | 28 |
| D. Applications | 31 |
| 5. Discriminant Analysis | |
| A. Aims and Illustrations | 32 |

| | |
|---|----|
| B. Multivariate Analysis of Variance | 33 |
| C. Discrimination Between Two Groups | 33 |
| D. The Generalized Distance | 35 |
| E. Prior Information and Unequal Risks | 37 |
| F. Unequal Dispersion Matrices | 37 |
| G. A Distribution-Free Method | 38 |
| H. Quadratic Discriminant Functions | 39 |
| I. Estimation of the Proportion Misclassified | 39 |
| J. Concomitant Observations | 40 |
| K. Discrimination with More than Two Groups | 42 |
| | |
| 6. Factor Analysis | |
| A. Basic Concepts | 44 |
| B. The Estimation Problem; Lawley's Method | 46 |
| C. Principal Components and Factor Analysis | 48 |
| D. Other Factor Models | 48 |
| E. Reification | 49 |
| F. Applications | 50 |
| | |
| 7. Distance, Similarity and Scaling | |
| A. Distance as a Measure of Dissimilarity | 51 |
| B. Similarity and Dissimilarity Measures | 53 |
| C. Multidimensional Scaling | 55 |
| D. Applications | 56 |
| | |
| 8. Cluster Analysis and Related Problems | |
| A. Introduction | 59 |
| B. Dissection | 60 |
| C. Clustering of Variables | 61 |
| D. Nested Groupings and Dendrograms | 62 |
| E. Classification or Cluster Analysis | 67 |
| | |
| 9. Examples | |
| A. The Egyptian Skulls | 79 |
| B. Locomotor Discrimination in Primates | 83 |
| C. Studies of Soil Classification and Mapping | 85 |
| | |
| Appendix A. Elements of Matrix Algebra | |
| A. Introduction | 90 |
| B. Elementary Matrix Manipulations | 91 |
| C. Singular and Ill-Conditioned Matrices | 93 |
| D. Determinants | 94 |
| E. Pivotal Condensation | 96 |
| F. Transformations and Change of Axes | 97 |
| G. Quadratic Forms | 98 |

| | |
|---|-----|
| Appendix B. Multiple Regression | |
| A. Basic Mathematics | 101 |
| B. Miscellaneous Applications | 102 |
| C. Selection of Variables | 104 |
| Appendix C. Special Problems in Various Fields | |
| A. Introduction | 106 |
| B. Taxonomy | 106 |
| C. Medicine and Psychiatry | 107 |
| D. Psychology | 108 |
| E. Soil Science | 108 |
| F. Archaeology | 109 |
| References and Author Index | 111 |
| Subject Index | 115 |
