# Contents

<i>List of illustrations</i>	xi
<i>Preface</i>	xvii
<i>Acknowledgements</i>	xviii
<i>List of abbreviations and symbols</i>	xx
<b>1 What is a SCL tunnel?</b>	<b>1</b>
1.1 Sprayed concrete – the early days	3
1.2 Why use sprayed concrete linings?	4
1.3 Development of SCL tunnelling	5
<b>2 Sprayed concrete</b>	<b>9</b>
2.1 Constituents and mix design	9
2.1.1 Cement	11
2.1.2 Water	12
2.1.3 Sand and aggregate	12
2.1.4 Accelerators	12
2.1.5 Admixtures	13
2.1.6 Microsilica	14
2.1.7 Mix design	14
2.2 Material properties and behaviour	14
2.2.1 Strength in compression	15
2.2.2 Strength in tension	22
2.2.3 Strength in other modes of loading	26
2.2.4 Stress-strain relationship in compression	28
2.2.5 Stress-strain relationship in tension	35
2.2.6 Shrinkage and temperature effects	37
2.2.7 Creep	44
2.2.8 Variation in properties with environmental conditions	47
2.2.9 Durability and construction defects	49

<b>3</b>	<b>Construction methods</b>	<b>53</b>
3.1	Soft ground 54	
3.1.1	<i>Method of excavation</i> 54	
3.1.2	<i>Support and excavation sequences</i> 55	
3.1.3	<i>Special cases</i> 58	
3.2	Blocky rock 59	
3.2.1	<i>Method of excavation</i> 60	
3.2.2	<i>Support and excavation sequences</i> 60	
3.2.3	<i>Special cases</i> 61	
3.3	Hard rock 63	
3.3.1	<i>Method of excavation</i> 63	
3.3.2	<i>Support and excavation sequences</i> 64	
3.3.3	<i>Special cases</i> 66	
3.4	Modern sprayed concrete 67	
3.4.1	<i>Dry mix sprayed concrete</i> 67	
3.4.2	<i>Wet mix sprayed concrete</i> 69	
3.4.3	<i>Pumping</i> 72	
3.4.4	<i>Spraying</i> 73	
<b>4</b>	<b>Design approaches</b>	<b>79</b>
4.1	Observation vs prediction 79	
4.1.1	<i>Risk-based designs</i> 81	
4.1.2	<i>General loading</i> 81	
4.2	Basic Principles 82	
4.2.1	<i>Ground loads</i> 84	
4.2.2	<i>Excavation and support sequence</i> 86	
4.2.3	<i>Water</i> 87	
4.2.4	<i>Primary plus secondary lining – two pass lining</i> 94	
4.2.5	<i>Single shell lining – one pass lining</i> 97	
4.3	Design Tools 101	
4.3.1	<i>Empirical tools</i> 101	
4.3.2	<i>Analytical tools</i> 102	
4.3.3	<i>Numerical modelling</i> 102	
4.3.4	<i>Physical tools</i> 104	
4.4	Code compliance 105	
4.5	Continuity between design and construction 108	
<b>5</b>	<b>Modelling sprayed concrete</b>	<b>109</b>
5.1	Linear elastic models 110	

5.2	Hypothetical Modulus of Elasticity (HME)	113
5.3	Nonlinear stress-strain behaviour	115
5.3.1	<i>Nonlinear elastic models</i>	115
5.3.2	<i>Plastic models</i>	119
5.4	Tensile strength	123
5.4.1	<i>Unreinforced sprayed concrete</i>	124
5.4.2	<i>Reinforced sprayed concrete</i>	125
5.5	Shrinkage	125
5.6	Creep models	126
5.6.1	<i>Rheological models</i>	127
5.6.2	<i>Generalised Kelvin model</i>	128
5.6.3	<i>Burgers model</i>	136
5.6.4	<i>Viscoplastic model</i>	137
5.6.5	<i>Rate of flow model</i>	138
5.6.6	<i>Other creep models</i>	139
5.7	Ageing	142
5.7.1	<i>Thermo-chemo-mechanically coupled model</i>	143
5.8	Construction sequence	146
5.9	Construction defects	151
5.10	Summary	153
<b>6</b>	<b>Detailed design</b>	<b>157</b>
6.1	Design for tunnels in soft ground	157
6.1.1	<i>Key behaviour of sprayed concrete</i>	158
6.1.2	<i>Determining the loading on the sprayed concrete</i>	158
6.1.3	<i>Lining design</i>	158
6.2	Design for tunnels in blocky rock	160
6.2.1	<i>Key behaviour of sprayed concrete</i>	160
6.2.2	<i>Determining the loading on the sprayed concrete</i>	162
6.2.3	<i>Lining design</i>	162
6.3	Design for tunnels in hard rock	163
6.3.1	<i>Lining design</i>	164
6.4	Shafts	165
6.5	Junctions	166
6.5.1	<i>Key behaviour of sprayed concrete</i>	166
6.5.2	<i>Determining the loading on the sprayed concrete</i>	167

x *Contents*

6.5.3	<i>General arrangement and construction sequence</i>	167
6.5.4	<i>Lining design</i>	169
6.6	Tunnels in close proximity	170
6.7	Portals	171
6.8	Special cases	172
6.8.1	<i>Seismic design</i>	172
6.8.2	<i>Squeezing ground</i>	174
6.8.3	<i>Swelling ground</i>	174
6.8.4	<i>Creeping ground</i>	175
6.8.5	<i>Rockburst</i>	176
6.8.6	<i>Compressed air tunnelling</i>	176
6.8.7	<i>Frozen ground and cold weather</i>	177
6.8.8	<i>Hot ground and hot weather</i>	178
6.8.9	<i>Fire resistance</i>	178
6.9	Specifications	179
6.10	Detailing	181
6.10.1	<i>Steel reinforcement</i>	181
6.10.2	<i>Structural continuity at joints</i>	182
6.10.3	<i>Waterproofing at joints</i>	183
<b>7</b>	<b>Construction management</b>	<b>184</b>
7.1	Quality control	184
7.1.1	<i>Pre-construction testing</i>	184
7.1.2	<i>Testing during construction</i>	185
7.2	Instrumentation and monitoring	189
7.2.1	<i>Instrumentation</i>	189
7.2.2	<i>Trigger values</i>	194
7.3	Designer's Representative on site	196
7.4	Daily Review Meetings (DRM)	197
	<i>Appendices</i>	201
	<i>Bibliography</i>	223
	<i>Index</i>	237
