Contents

Preface ix

List of Contributors xi

Introduction

1. Differences between gravel- and sand-bed rivers 3
   D. B. Simons and R. K. Simons
2. River dynamics, flow regime and sediment transport 17
   R. D. Hey

Sampling and Analysis

3. River bed gravels: sampling and analysis 43
   M. A. Church, D. G. McLean and J. F. Wolcott
4. Bed load sampling and analysis 89
   D. W. Hubbell

Sediment Supply

5. Sediment supply to upland streams: influence on channel adjustment 121
   A. M. Harvey
6. Sediment supply, movement and storage in an unstable gravel-bed river 151
   J. C. Pitlick and C. R. Thorne

Large-scale Sediment Processes

7. Transport processes at the catchment scale 187
   M. D. Newson and G. J. Leeks
8. Sediment balance considerations linking long-term transport and channel processes 225
   C. R. Neill

Armouring Processes

9. Static armour layers by selective erosion 243
A. J. Sutherland

10. Formation of a coarse surface layer as the response to gravel mobility 269
E. D. Andrews and G. Parker

Channel Design (Case Studies)

11. Canal design by an armouring process 329
P. C. Helwig

12. River bed scour and construction of stone riprap protection . . 353
V. J. Galay, E. K. Yaremko and M. E. Quazi

Modelling Sediment Transport

13. Conceptual models of sediment transport in streams 387
R. L. Beschta

14. Investigation of sediment routing by size fractions in a gravel-bed river 421
Ruh-Ming Li and W. T. Fullerton

Tests of Bed Load Equations

15. Bed load discharge equations for steep mountain rivers 453
J. C. Bathurst, W. H. Graf and H. H. Cao

16. Field Measurements in a gravel-bed river which confirm the theory of White et al. 493
S. M. Thompson

Mountain Rivers (Case Studies)

17. Mountain Torrent Erosion 513
K. Ashida

18. Sediment transport in step-pool streams. 545
J. G. Whittaker

Observation of Bed Load Movement (Case Studies)

19. Bed load transport measurement by the vortex-tube trap on Virginio Creek, Italy 583
P. Tacconi and P. Billi

20. Bed load transport in desert floods: Observations in the Negev 617
A. P. Schick, J. LeKach and M. A. Hassan

Suspended Load in Gravel-bed Rivers

21. Influence of large suspended-sediment concentrations in rivers . . 645
J. B. Bradley and S. C. McCutcheon

22. Suspended load in gravel-bed rivers: UK experience. 691
D. E. Walling and B. W. Webb

River Regime

23. Energy dissipation rate approach in river mechanics 735
C. T. Yang

24. Extremal hypotheses applied to river regime 767
R. Bettess and W. R. White

Bar and Bed Load Interaction

25. Problems of bed load transport in braided gravel-bed rivers. .. 793
T. R. H. Davies

26. Interaction of bed load transport with bars 829
M. N. R. Jaeggi

Design Problems (Case Studies)

27. Reservoir sedimentation and influence of flushing 845
P. Ackers and G. Thompson

28. Design problems in gravel-bed rivers, Alaska 869
Bi-Huei Wang, S. R. Bredthauer and E. A. Marchegiani

Fisheries and Habitats (Case Studies)

29. A time-varying stochastic model of the frequency and magnitude of bed load transport events in two small trout streams 897
P. A. Carling and M. A. Hurley

30. A case study of minimum streamflow for fishery habitat in the Yampa river 921
J. S. O'Brien

Gravel Mining (Case Studies)

31. Estimating the transport and deposition of mining waste at Ok Tedi 949
R. J. Higgins, G. Pickup and P. S. Cloke

32. Modelling fluvial processes in streams with gravel mining 977
H. H. Chang

Index 989
