

**IABSE CONFERENCE
ROTTERDAM 2013**

*Assessment, Upgrading and
Refurbishment of Infrastructures*

REPORT

International Association for Bridge and Structural Engineering

IABSE

Table of Contents

Keynotes

Reliability Aspects of Assessment and Upgrading

Ton VROUWENVELDER 2

ASCE 2013 Report Card for America's Infrastructure

Andrew W. HERRMANN 9

Maintenance and Safety of Large-Scale Bridges

Airong CHEN 11

Long-term Dynamic Monitoring of the historic "San Michele" Iron Bridge (1889)

Carmelo GENTILE, Antonella SAISI 22

Complexity, Ingenuity, Creativity

Jean-Marie CREMER 38

Assessment, Upgrading and Refurbishing – A consolidated approach

Thomas VOGEL 43

A1. Load Carrying Capacity and Remaining Lifetime – Strategy

Management of Overweight Vehicle Traffic on Road Bridges

Riccardo ZANDONINI, Emiliano DEBIASI, Daniele ZONTA 60

Integrated Asset Management Tool for Highway Infrastructure

Robert VEIT-EGERER, Monika WIDMANN, Peter FURTNER, Rui LIMA 62

Assessment and maintenance plan for 36 structures near Coentunnel - Amsterdam

Nico DEKONING, Bernd VAN DEN BOSSCHE 64

Uncertainty of maintenance strategies for bridge sustainability assessment

Tim ZINKE, Thomas UMMENHOFER 66

Load testing result analysis of the Latvian bridges

Ilze PAEGLITE, Ainars PAEGLITIS 68

Rehabilitation strategies for steel and movable bridges in Rotterdam

Jaco REUSINK, René HELLER 70

Upgrading techniques for quay walls

Mohamed DOUARI, Jarit DE GIJT 72

A2. Assessment of Structural Condition - Concrete shear

Shear Assessment of Reinforced Concrete Slab Bridges

Eva O. L. LANTSOGHT, Cor VAN DER VEEN, Joost C. WALRAVEN, Ane DE BOER 76

Shear Capacity of Bridge Deck Cantilever Slabs without Shear Reinforcement

Karin REISSEN, Josef HEGGER. 78

Structural Verification of Older Prestressed Concrete Road Bridges in Germany

Daniel DUNKELBERG, Konrad ZILCH. 80

Shear Resistance Mechanism of RC Column Retrofitted by using PC Bars

Kozo NAKADA, Yoichi MORISHITA, Sanae UEHARA, Tetsuo YAMAKAWA 82

Experimental studies on the shear capacity of Prestressed Concrete Continuous Beams

Martin HERBRAND, Josef HEGGER 84

Influence of High Axial Tension on the Shear Strength of Non-Shear RC Beams

Henrik B. JOERGENSEN, Linh C. HOANG, Lars S. FABRIN, Jørgen MAAGAARD. . . 86

Shear Capacity of Concrete Beams under Sustained Loading

Reza SARKHOSH, Joost WALRAVEN, Joop DEN UIJL, René BRAAM. 88

A3. Modernisation and Refurbishment - FRP-strengthening

Concrete Slab Strengthening with CFRP Textile Reinforced Shotcrete

Daia ZWICKY 92

Research on Assessment and Reinforcement of Bridge Structures

Jan BUJNAK, Peter KOTES, Patrik KOTULA 94

Mechanical Behaviour of Laminated Carbon Fibre Grid with a Large Crosssectional Area in New Strengthening Method

Katsuyuki MIYAUCHI, Hiroyuki SHIMOEDA, Akira KOBAYASHI 96

Fibre-Reinforced Plastic (FRP) deck substitution of a fatigue damaged steel deck

Kees VAN IJSELMUIJDEN, Liesbeth TROMP. 98

Alternate Repair Material Systems for Application to Structural Concrete

Ananth RAMASWAMY 100

Effectiveness of GPR on Structural Assessment: Hints for the Potential User

Konstantinos A. TREZOS, Vassiliki PALIERAKI, Ioannis S. SFIKAS 102

<i>Bond Characteristics between Fiber-Reinforced Polymer Composite Laminate and Prestressed Concrete</i>	
M. Shafqat ALI, Saeed M. MIRZA, Larry LESSARD	104

A4. Structural Verification – Fire

<i>Structural retrofitting of older German road tunnels – Possibilities to fulfil current requirements regarding structural fire protection</i>	
Ingo KAUNDINYA	108

<i>Tunnels under Fire - Higher Safety due to Current FEM Practice</i>	
Ingo MÜLLERS, Tobias BÖING	110

<i>Damage assessment of concrete structures exposed to fire</i>	
Emmanuel ANNEREL, Luc TAERWE	112

<i>Development of Fire Resistant Shotcrete with Olivine Aggregates</i>	
Ioanna PAPAYIANNI, Michail PAPACHRISTOFOROU, Vasiliki PATSIUO, Vasiliki PETROHILOU	114

<i>Determining the fire resistance of the Maastunnel with a mobile oven</i>	
William SCHUTTE, Madiha AHAMMOUT, C.B.M. (Kees) BLOM, Martin VERMEER	116

<i>Refurbishment and lifetime assessment of the Beverentunnel in Liefkenshoek</i>	
Joris MOYAERT, Bart DE PAUW	118

<i>Assessing the structural safety of underground frame structures subjected to fire loading</i>	
Matthias ZEIML, Aram AMOUZANDEH, Thomas RING, Yiming ZHANG, Roman LACKNER	120

B1. Load Carrying Capacity and Remaining Lifetime – Methodology

<i>Verification of three FEM programs in the analyses of a highway bridge</i>	
Zoltán TEITER, Bertalan SZABÓ, Aarne JUTILA	124

<i>Train-bridge interaction influence on the safety of a short span railway bridge</i>	
João Miguel ROCHA, Abel HENRIQUES, Rui CALÇADA	126

<i>CRIAM: Structural Risk Index Weighing Model</i>	
Ane DE BOER, Nico BOOIJ, Paul COPIER	128

<i>Case Study: Dealing with Reliability and Availability on Refurbishments</i>	
Dirk EIKELENBOOM, Gordon ALLAS	130

<i>Structural response due to violent wave impacts on a vertical structure with cantilevering slab</i>	
Dogan KISACIK, Hans DE BACKER, Philippe VAN BOGAERT	132
<i>A Numerical Investigation for Optimization of the Load Carrying Capacity of a Swiss Rockfall Protection Gallery</i>	
Sara GHADIMI KHASRAGHY, Norimitsu KISHI, Thomas VOGEL, Manuel ALVAREZ	134
<i>A simplified method for the quick assessment of bridge decks</i>	
Nikos PAPASOTIRIOU	136
<i>Recommendations for assessing and upgrading of old urban quay walls</i>	
Alfred ROUBOS, Jarit DE GIJT	138
<i>The research on the theory of transverse load distribution of continuous beam bridges</i>	
Zhenyu JIANG, Han WEI, Haibo CHEN, Jundong GAO, Chunzao LI, Kanglin ZHENG	140
B2. Assessment of Structural Condition - Monitoring and Sensoring	
<i>Extreme action effects in reinforced concrete bridges from monitoring</i>	
Mark TREACY, Eugen BRÜHWILER	144
<i>Damage Identification on an Iron Bridge Based on Spectral Analysis</i>	
Alexander TRIBÜTSCH, Christoph ADAM, Maximilian BILLMAIER	146
<i>Analysis of Traffic Effects on a Dutch Highway Bridge</i>	
Shengfa MIAO, Arno KNOBBE, Eddy KOENDERS, Carlos BOSMA	148
<i>Experimental Validation of the Acoustic Emission (AE) Method for the Cracking Process Determination and Location in Concrete Elements</i>	
Barbara GOSZCZYNSKA, Grzegorz SWIT, Wieslaw TRAMPCZYNSKI, Aleksandra KRAMPIKOWSKA, Justyna TWORZEWSKA, Pawel TWORZEWSKI	150
<i>Structural Health Monitoring of the Hammersmith Flyover</i>	
Graham WEBB, Campbell MIDDLETON	152
<i>Bridge health monitoring : a proposal to preserve the Egyptian bridge network</i>	
Ebtisam YEHIA, Ayman KHALIL, Hatem ELBEHAIRY, Amr ABDELRAHMAN, Ahmed ESSAWY	154
<i>Monitoring during refurbishment of port infrastructure</i>	
Hans DE BACKER, Amelie OUTTIER, Ken SCHOTTE, Dries STAEL, Wim NAGY, Philippe VAN BOGAERT	156

An early warning approach for Monitored Bridges based on the HLM Indices
Bing QU, Rucheng XIAO, Bin SUN, Liwen ZHANG, Qianhui YU 158

Energy Harvesting for Sensors in Infrastructure Monitoring and Maintenance
Bo HAN, Antonis KALIS, Constantinos PAPADIAS, Rohan SOMAN, Marios
KYRIAKIDES, Toula ONOUFRIOU, Rasmus NIELSEN, Ramjee PRASAD 160

B3. Load carrying capacity and Remaining Lifetime - Dynamic Behaviour - Steel Characteristics

Design of computer models for describing the dynamic behaviour of the ballast substructure of railway bridges
Josef FINK, Johannes KIRCHHOFER, Klaus HACKL 164

Analysis on modal frequency variation of a cable-stayed bridge based on monitoring data
Limin SUN, Yi ZHOU 166

Static and Dynamic Analysis of the Railway Bridge on the Line Devínska Nová Ves - Stúrovo (The Red Bridge) at km 51.368
Lubomir TURINIC, Martin HUKEL 168

Testing the properties of structural cast steel (Flusstahl) in old railway bridges
Janusz HOLOWATY, Bernard WICHTOWSKI 170

Study on Slip Behavior of High Strength Bolted Friction Type Joint with Extremely Thick Plates by Using Finite Element Analysis
Toshikazu TAKAI, Xue PENG, Honghe SUN, Takashi YAMAGUCHI 172

Study on applicability of high durability friction grip joints with high strength countersunk head bolts for steel bridge structures
Akiko TABATA, Hidesada KANAJI, Yoshihide KURONO, Takashi YAMAGUCHI . . . 174

Dynamic Serviceability and Traffic Safety Assessment and Upgrading of Historic Railway Bridges
Michal MAJKA 176

Mechanical behaviour and failure mechanism of perfobond shear connectors in steel-concrete hybrid structure
Xing WEI, Lin XIAO 178

Fatigue Assessment of Steel Bridge Superstructures, the Netherlands
Janwillem BREIDER, Gerland NAGTEGAAL, Dimitri TUINSTRA 180

B4. Modernisation and Refurbishment - Structures of Historic and Architectural value

Fatigue safety examination of a riveted railway bridge using data from long term monitoring

Eugen BRÜHWILER, Max BOSSHARD, Pirmin STECK, Christian MEYER, Marcel TSCHUMI, Senta HALDIMANN184

Rescuing the Sidi Rached Bridge

Marco PETRANGELI, Massimo PIETRANTONI186

Tunneling underneath historical buildings of Delft

Hans MORTIER, Steven DELFGAAUW188

Renovation and repair of a masonry arch bridge in Thumaide, Belgium

Thijs VAN ROOSBROECK, Vincent DISTER, Laurent NEY190

Structural Design of the Vroenhoven Bridge, Riemst, Belgium

Vincent DISTER, Bart BOLS, Laurent NEY192

Large-scale testing of retro-reinforced brick arches

Stephen GARRITY194

Constantine Viaduct, Algeria

Torben Scholdan HANSEN196

Historical and Modern Structures at the Railway Stations

Ewa Maria KIDO198

Partially in-situ Protection of a Historic Building and a design case combined with new buildings

Xuqian ZHAO, Chun SHEN, Sixiang HE, Lin XIA200

C1. Load carrying capacity and Remaining Lifetime - Concrete Degradation

Numerical Modelling of Degradation of Reinforced Concrete Structures Exposed to Cracking and Chlorides

Josko OZBOLT, Marija KUSTER, Gojko BALABANIC, Filip ORSANIC204

Enhancing Durability- Forensic Investigation of Deteriorating Structures

Jonathan G.M. WOOD206

Study on the mechanical properties of a confined concrete deteriorated by Alkali-aggregate reaction

Yoshimori KUBO, Hiroaki MORI208

<i>Assessment of End Zone Cracking in Precast Prestressed NU Girders in Bridges</i> Katrin HABEL, John ALEXANDER, Bob RAMSAY, Reg QUINTON	210
<i>Understanding the impact of degradation of concrete structures</i> Rene VEERMAN, Eddie KOENDERS	212
<i>Recalculation of Hubertus Viaduct in The Hague</i> Refky GABRA	214
<i>Union Depot: Assessment of Historic Concrete and Timber Pile Structures</i> Arne JOHNSON, Kevin MICHOLS.	216
C2. Assessment of Structural Condition - Probability Methods	
<i>Reliability assessment of Traffic Load models on Road Bridges</i> Jana MARKOVA.	220
<i>Influence of concrete strength fractile estimation on the safety level of existing structures assessed using the Adjusted Partial Factor Method</i> Robby CASPEELE, Luc TAERWE	222
<i>Assessment of bridges in aggressive maritime environment</i> Ana MANDIC IVANKOVIC, Marin FRANETOVIC, Jure RADIC	224
<i>A Markov Model to Determine Optimal Intervention Strategies for Multiple Objects Affected by Uncorrelated Manifest and Latent Processes</i> Nam LETHANH, Bryan ADEY, Dilum FERNANDO.	226
<i>Reliability levels and partial safety factors according to Eurocodes for evaluation of existing bridges</i> Peter KOTEŠ, Josef VICAN.	228
<i>Hierarchical bayesian estimation of mixed hazard models</i> Daijiro MITZUTANI, Kodai MATSUOKA, Kiyoyuki KAITO.	230
<i>Assessment and optimization of RAMS-performance of hydraulic structures</i> Arno WILLEMS, Wouter VAN DER WIEL.	232
C3. Modernisation and Refurbishment - Strengthening of Structures	
<i>Concrete bridge deck slabs strengthened with UHPFRC</i> Maléna BASTIEN-MASSE, Eugen BRÜHWILER.	236

<i>Strengthening of Prestressed Concrete Bridges by External Tendons</i> Balthasar NOVÁK, Eberhard PELKE, Dieter BERGER, Vazul BOROS, Sven PRIESTAFF, Jochen REINHARD.	238
<i>Reinforcing concrete box girder bridges with external post-tensioning and steel</i> Jaap VAN LIER, Marco PRONK.	240
<i>Removing weak spots from railway lines</i> Janusz HOLOWATY.	242
<i>Transformation of unused road infrastructure to combined road-railway infrastructure</i> Jonas THIELEMANS, Bart DE PAUW.	244
<i>Ready for Schengen – New Construction and Renovation of Dock B at Zurich Airport</i> Matthias KUNZE.	246
<i>Load capacity assessment and strengthening of a railway arch bridge with backfill</i> Andreas ANDERSSON.	248
C4. Modernisation and Refurbishment - Structures of Historic and Architectural value	
<i>3 in 1 reconstruction of monument Margaret Danube-bridge in Budapest, Hungary</i> Tamás NÉMETH, Zsolt NAGY, Adrián HORVÁTH.	252
<i>Reconstruction of more than 100 years old bridges</i> Zsolt NAGY, Adrián HORVÁTH, Balázs RÁCZ.	254
<i>Stadsbrug Nijmegen</i> Aad VAN DER HORST, Peter MEIJVIS, Paul TIMMERMAN, Rob VAN BERKEL, Tristan WOLVEKAMP.	256
<i>Reinforcement and Infrastructures Rehabilitation of the Steel Mix International Bridge over the Minho River at Valença, Portugal</i> Miguel GUIMARAES, Alberto TEIXERA.	258
<i>The potential of historical railway infrastructure, possibilities of its adaptation on the examples of railway water towers</i> Magdalena PODWOJEWSKA.	260
<i>Refurbishment and modernization of Gdansk University of Technology campus main building, case study</i> Jaroslaw BAKOWSKI.	262

<i>Interaction of Historical Structures with Undermined Territory</i> Radim CAJKA	264
D1. Assessment of Structural Condition - Monitoring and Sensoring	
<i>Implementation of a passive control system in a lively footbridge</i> Elsa CAETANO, Alvaro CUNHA	268
<i>Using instrumented quarter-cars for 'drive-by' bridge inspection</i> Eugene O'BRIEN, Jennifer KEENAHAN	270
<i>Structural Monitoring Solutions: Concepts and Best Practices</i> Peter VANDERZEE, Seth CONDELL	272
<i>Planning infrastructure documentation with aerial laser scanning</i> Debra LAEFER	274
<i>Structural assessment of the integrated steel fly-overs widening the historic multiple-arch concrete viaduct over the Pede valley</i> Ken SCHOTTE, Dries STAEL, Wim NAGY, Bart DE PAUW, Hans DE BACKER, Philippe VAN BOGAERT	276
<i>Structural monitoring of the Iris railway viaduct in Belgium</i> Wim NAGY, Ken SCHOTTE, Dries STAEL, Hans DE BACKER, Philippe VAN BOGAERT	278
<i>Verification of the performance of the precast concrete lining in the Diabolo Tunnel and Liefkenshoek Rail Tunnel</i> Ken SCHOTTE, Hans DE BACKER, Timothy NUTTENS, Alain DE WULF, Philippe VAN BOGAERT	280
<i>Energy Harvesting Potential of Piezoelectric Materials from Train-Bridge Interaction using Finite Element Modelling</i> Paul CAHILL, Vikram PAKRASHI, Alan MATHEWSON, Nathan JACKSON	282
<i>Monitoring a ro-ro platform to prevent damage due to overloading</i> André OPSTAL, Rodriaan SPRUIT	284
<i>Low Cost Localization Techniques in Structural Damage Detection</i> Bo HAN, Antonis KALIS, Constantionos PAPADIAS, Philipops TRAGAS, Rasmus NIELSEN, Ramjee PRASAD	286

D2. Assessment of Structural Condition - Probability Methods

<i>Calibration of partial safety factors for the assessment of existing bridges</i> Christian CREMONA, Benoît POULIN, Anne-Sophie COLAS, Jérôme MICHEL, Claire MARCOTTE, Bruno VION, André ORCESI, Raphaëlle SADONE.	290
<i>Probabilistic Reliability Assessment of Industrial Heritage Bridges</i> Miroslav SÝKORA, Milan HOLICKY, Jana MARKOVA.	292
<i>Safety Standard for Existing Structures</i> Raphaël STEENBERGEN	294
<i>Probabilistic approach to fatigue assessment for stay cables</i> Julien BAUSSARON, John Dalsgaard SORENSEN, Henrik Stensgaard TOFT, Thierry YALAMAS	296
<i>Determination of accidental actions for the remaining lifetime of bridges</i> Claus KUNZ.	298
<i>Assessment of existing bridges based on probabilistic methods – Background and proposal for a practical approach</i> Thomas BRAML, Otto WURZER, Karl MORGEN	300
<i>Strength characteristics for the structural assessment of existing concrete structures</i> Adri VERVUURT, Wim COURAGE, Raphaël STEENBERGEN.	302
<i>Investigation of Concrete Structures in Serviceability Limit State Using Energy Principles</i> Lars German HAGSTEN, Jakob FISKER	304
<i>Sensitivity study for computational assessment of prestressed concrete bridges</i> Gregor BORKOWSKI, Michael BAUR.	306

D3. Modernisation and Refurbishment - FRP repair

<i>Renovation of concrete columns by wrapping basalt fiber sheets</i> Eythor THORHALLSSON, Arngrímur KONRADSSON	310
<i>Load Carrying Capacity and Remaining Life Assessment: Damage Mechanics Approach</i> Todor ZHELYAZOV, François BUYLE-BODIN, Dimitar DOTCHEV.	312
<i>Extended Life of Railway Bridges. Results from EC-FP7-Project Mainline</i> Jonny NILIMAA, Thomas BLANKSVÄRD, Björn TÄLJSTEN, Lennart ELFGREN, Anders CAROLIN, Björn PAULSSON	314

<i>Glass Fibre Reinforcement in Bridge Barrier Walls</i> Benjamin JUETTE, Khaled SENNAH	316
<i>Feasibility and life cycle considerations of fiber reinforced polymer (FRP) deck solutions for renovation of steel highway bridges</i> Liesbeth TROMP, Koen SCHIPPER	318
<i>Shaking table test of earthquake-damaged masonry structure strengthened with external BFRP</i> Zhen LEI, Deyuan ZHOU, Yaming LI	320
<i>Mechanical behaviours of adhesive joint under tensile and shear loading</i> Xu JIANG, Henk KOLSTEIN, Frans BIJLAARD	322
<i>Shear Behavior Of Existing RC T-Beams Strengthened With CFRP</i> Stefania IMPERATORE, Davide LAVORATO, Camillo NUTI, Silvia SANTINI, Lorena SGUERRI	324
<i>Strengthening orthotropic steel decks with Fiber Reinforced Polymers</i> Kees KLAP, Paul WARMERDAM, Gert-Jan RIETVELD, Arie ROMEIJN, Richard STERKMAN	326
D4. Structural Verification – Seismic	
<i>Seismic assessment of existing bridges in Croatia</i> Marin FRANETOVIC, Ana MANDIC IVANKOVIC, Jure RADIC	330
<i>Seismic Assessment of New Zealand Bridges in non liquefiable soils during Canterbury earthquake sequence</i> Alessandro PALERMO, Maria BRANDO	332
<i>Seismic retrofitting of bridges based on indirect strategies</i> Stergios MITOULIS, Ioannis TEGOS	334
<i>Applying Seismic Isolation Technologies to Buildings Above tracks</i> Madoka YAMATAKA, Tsutomu HOSHIKAWA, Kazuaki IWASAKI, Atsushi HAYASHI, Shinya IGARASHI, Yosuke SUZUKI	336
<i>Yokohama-Bay Bridge Response Characteristics in the 2011 Great-East Japan Earthquake</i> Dionysius SIRINGORINGO, Yozo FUJINO	338
<i>Seismic Vulnerability Assessment and Retrofit Design of New York State Thruway Bridges</i> Avanti SHROFF, Fei ZENG	340

<i>Vibration behaviour and seismic performance of an existing bridge retrofitted by ground anchor</i>	
Tongxiang AN, Osamu KIYOMIYA	342
<i>Effect of skewness on bridges subjected to seismic loading</i>	
Essam AYOUB, Charles MALEK, Gamal HELMY	344
<i>Modernisation and widening interventions of bridge structures on the Adriatic highway in Italy</i>	
Lucio FERRETTI TORRICELLI, Andrea INDOVINO, Alessandra MARCHIONDELLI	346
E1. Materials and Products – Concrete	
<i>Partially-Repaired Reinforced Concrete Beams with Exposed Reinforcement</i>	
Trevor SCOTT, Michael BARTLETT	350
<i>Quick Scan on shear in existing slab type viaducts</i>	
Rob VERGOOSSEN, Marius NAAKTGEBOREN, Marcel 'T HART, Ane DE BOER, Evert VAN VUGT	352
<i>Reduced scaling of colored concrete pavements by means of super absorbing polymers</i>	
Bart CRAEYE, Edlira KONDO, Jan STOOP	354
<i>Development and Evaluation of Self-Consolidated High Strength Lightweight Steel Fiber Concrete in UAE</i>	
Sherif YEHIA, Mohammad ALHAMAYDEH, Rashid ALHAJRI, Aly ABDELSALAM	356
<i>Forgotten Material History of Historic Concrete</i>	
Herdis HEINEMANN	358
<i>Evaluation of Concrete Properties for High Strength Steel Applications</i>	
Sherif YEHIA, Mohammad ALHAMAYDEH, Farid ABED, Mohamad RABIE, Saja RESHEIDAT, Shahinaz EL-KALIE, Majd ABUDAGGA	360
<i>Reconstruction of old quay walls in the Port of Rotterdam</i>	
Henk VOOGT	362
E2. Modernisation and Refurbishment - More Efficient Processes and Smart Building	
<i>Radar simulation and radar improvement of the Galecopperbridge</i>	
Steven COOK, Kevin MITCHELL, Sander DEN-BLANKEN, Dimitri TUINSTRA, Gerland NAGTEGAAL	366

<i>Temperature dependence of eigenfrequencies on a railway bridge</i> Ignacio GONZALEZ	368
<i>Aged deterioration inspection results of suspender ropes by main flux method</i> Kazuyoshi SAKAI, Yuki KISHI, Katsuya OGIHARA	370
<i>Halftime - an ambitious goal</i> Richard RUIJTENBEEK, Cees BUIJS, Flip KOLET, Jelle VAN ATTEN, Henny STOLWIJK	372
<i>Biggest hybrid lightweight bridge in the world</i> Jurje VAN DER VEN	374
<i>New technique to temporarily support existing bridges crossing waterways</i> Medhat ABDULLAH	376
<i>Combined portal frames for signalling and overhead contact line</i> Karim KADIRI, Anne-Cécile ROKS, Tayeb TOUAT, Yannick LECLUSE	378
E3. Load Carrying Capacity and Remaining Lifetime - Strengthening of Structures	
<i>Upgrade of Concrete Bridges by Adaptive Prestressing</i> Martina SCHNELLENBACH-HELD, Abdalla FAKHOURI, Daniel STEINER, Oliver KÜHN	382
<i>Reinforcement of the beams of Saint-Nazaire – Saint-Brévin Bridge</i> Francis LANQUETTE	384
<i>Structural assessment of an existing concrete cantilever bridge: the Hartelbridge</i> Joost SLINGERLAND, Peter HAGENAARS	386
<i>Strengthening fly-over Rottepolder junction with external post-tensioning</i> Hans GALJAARD, Andrew QUANSAH	388
<i>Renovation design of the Bridge at Ewijk in The Netherlands</i> Martin FLINT, Edo VONK, Gerland NAGTEGAAL	390
<i>The Design of The Refurbishment of the M8 White Cart Viaduct, Glasgow</i> Michael HACKNEY, Cameron GAIR	392
<i>Assessing and rehabilitating the Anthony Wayne Suspension Bridge</i> Robert BEASLEY, Paul COBLENTZ, Scott ESHENAUR	394

E4. Bearings- Joints - Bridge Piers

<i>Translations in bridge bearings due to traffic and temperature loads based on a finite element analysis and measurements</i> Niels KOSTENSE, Martijn DE BOER, Cor KUILBOER, Johan LEENDERTZ	398
<i>Renewal of modular expansion joints - an innovative approach that minimises impacts on traffic and on the main bridge structure</i> Thomas SPULER, Gianni MOOR, Colm O'SUILLEABHAIN	400
<i>The first European approval for an expansion joint - flexible plug joint system with new material</i> Gustav GALLAI	402
<i>Single gap expansion joints - an optimal solution for small deck movements</i> Thomas SPULER, Gianni MOOR, Colm O'SUILLEABHAIN	404
<i>Design of energy absorbing structures for barge collision protection of bridge piers</i> Federico PINTO, Francisco José LUPERI, Carlos PRATO	406
<i>Evaluation of the remaining lifetime of the piers of the railway bridge crossing the Little Belt, Denmark</i> Ole ANDERSEN, Henrik MOERUP, Knud CHRISTENSEN	408
<i>Design of Grouted Connections in Offshore Wind Turbines</i> Thomas LÖHNING, Ulrik MUURHOLM	410
F1. Assessment of Structural Condition – Methodology	
<i>The Great Belt Link: Establishment of life time models</i> Svend GJERDING	414
<i>Structural Verification throughout the Tensioning Process of Cable-Stayed Bridges</i> Jose Antonio LOZANO-GALANT, Lidia RUIZ-RIPOLL, Ignacio PAYÁ-ZAFORTEZA, Dong XU, José TURMO	416
<i>Korean guideline for performance-based assessment of existing bridges</i> Soobong SHIN, Inyeol PAIK, Sang-Sup AHN, Chul-Young KIM, Ho-Kyung KIM, Nam-Sik KIM	418
<i>Structural reassessment of existing road bridges in Germany</i> Manfred CURBACH, Silke SCHEERER, Torsten HAMPEL, Nico SCHMIDT, Sabine WELLNER	420

<i>Ultimate Strength and Collapse Process of Cable-Stayed Arch Bridges</i> Kazuhiro MIYACHI, Shunichi NAKAMURA	422
<i>Multiple-Equation Bridge Weigh-in-Motion</i> Eugene O'BRIEN, Peter FAVAI, Robert CORBALLY	424
<i>Bridge Management System for UAE: Database Development for Bridge Inventory</i> Akmal ABDELFAH, Tamer SHANABLEH, Sherif YEHIA, Ahmed EL SAYED	426
<i>Identification of structural performance of a steel-box girder bridge Using Machine Learning Technique</i> Hyun-Joong KIM, Wonsuk PARK, Hyun-Moo KOH, Jinkyoo CHOO	428
<i>Assessment and upgrading of steel bridges using finite element modelling</i> Philip ICKE, Steve RHODES	430
<i>Vision system for analysis of congested traffic</i> Colin CAPRANI, Eugene O'BRIEN, Serena BLACOE	432
F2. Load Carrying Capacity and Remaining Lifetime – Fatigue	
<i>Fatigue analysis of a railway bridge deck slab considering the influence of simultaneous train crossings</i> Carlos SOUSA, Joao ROCHA, Rui CALÇADA, Afonso SERRA NEVES	436
<i>Fatigue experiments on connections made of very high strength steels</i> Richard PIJERS, Henk KOLSTEIN, Frans BIJLAARD	438
<i>The fatigue deterioration potential of railway traffic</i> Vasileios GRIGORIOU, Eugen BRÜHWILER	440
<i>Extending the fatigue life of welded tubular bridge joints thanks to internal diaphragm stiffening</i> Dries STAEL, Hans DE BACKER, Philippe VAN BOGAERT	442
<i>Extending the fatigue service life of a railway bridge by local approaches</i> Andreas ANDERSSON, John LEANDER, Raid KAROUMI	444
<i>An evaluation on fatigue damages of deck stringer with suspension bridge by field measurement, laboratory tests and FE analysis</i> Masanori IWASAKI, Jun NAGATA, Tetsuo MATSUDA, Hironobu YAMAGUCHI, Takehiro IMAMURA	446

<i>Probabilistic Model for Fatigue Crack Growth in Welded Bridge Details</i> Henrik Stensgaard TOFT, John Dalsgaard SORENSEN, Thierry YALAMAS, Julien BAUSSARON	448
<i>Vibration mitigation of railway bridges using adaptive damping control</i> Andreas ANDERSSON, Raid KAROUMI, Alan O'CONNOR	450
<i>Fatigue evaluation and retrofit of Pearl River Bridge</i> Jonathan MCGORMLEY, Richard LINDENBERG, Brian SANTOSUOSSO, Nick ALTOBELLI	452
F3. Assessment of Structural Condition - Concrete Degradation	
<i>Rapid calibration of a damaged bridge undergoing rehabilitation</i> Vikram PAKRASHI, Joe KELLY, Julie HARKIN, Aiden FARRELL	456
<i>Analytical study on deterioration phenomena caused by water pressure effect on road bridge deck slab</i> Hiroshi YOKOYAMA, Mikio SEKIGUCHI, Toshio HORIKAWA, Hiroshi MASUYA ..	458
<i>Development of self-repairing concrete structures by means of porous network</i> Senot SANGADJI, Erik SCHLANGEN	460
<i>Comments On Ductility Of Concrete Encased Composite Columns</i> Anca Gabriela POPA, Cristina Mihaela CAMPIAN	462
<i>Hydrophobic impregnation as an effective way to increase the resistance of high strength concrete (HSC) bridge beams to frost and defrosting salt attack</i> Jiri KOLISKO, Petr HUNKA, Daniel DOBIAS, Lucie KRATOCHVILE	464
<i>Deconstruction of bridges - new recycled aggregates for granular layers</i> Fernando MARTINHO, Bruno MEDEIROS, Gonçalo MATOS	466
<i>Mechanical behaviour of concrete piles affected by sulphate attack</i> Mathias FLANSBJER, Jan Erik LINDQVIST, Kamyab ZANDI HANJARI, Gabriel JOHANSSON, Michael LÖFGREN	468
<i>Cameroon Douala Harbour - Bonabéri - Reconstruction of quay 52</i> Pierre MENGEOT	470
<i>Transformation of a 30-year old Oil Terminal into a modern double LNG Terminal – Part 1: Refurbishment of the Approach Trestle</i> Sven DUMORTIER	472

**F4. Assessment of Structural Condition - Asset Management**

<i>Assessment of bridges on the Swiss national roads</i> Krisitan SCHELLENBERG, Michel CHÈVRE, Manuel ALVAREZ	476
<i>Traffic Microsimulation for Bridge Loading Assessment and Management</i> Colin CAPRANI	478
<i>Risk-based asset management of a navigation network</i> Ad VAN DER TOORN, Wouter VAN DER WIEL, Mario DE ROOIJ, Hans JANSSEN, Dirk-Jan KILJAN	480
<i>Maintenance strategy assessment on structures – integrating policy, risks and functionality</i> Jos REINDERS, Maurice REUSEN	482
<i>The effect of management decision processes on the management of bridges</i> Amin JAMALI, Bryan ADEY	484
<i>Optimum Inspection Policy for Long Span Bridge Based on FTA with Visual Inspection Data</i> Bumpei MIYAZAKI, Kodai MATSUOKA, Kiyoyuki KAITO	486
<i>Non-Destructive Techniques for Bridge Inspection in United Arab Emirates</i> Sherif YEHIA, Nasser QADDOUMI, Layane HAMZEH, Sharef FARRAG	488
<i>Development of an advanced performance evaluation system for existing concrete bridges</i> Ayaho MIYAMOTO	490
<i>Disturbance Indicator Benchmark for Urban Bridge Construction</i> Jeroen BROUWER, Ruben VOGEL, Carl THODESEN	492
<i>From measurements to prediction of moment of intervention during the (remaining) lifetime</i> Henk VOOGT	494

G1. Assessment of Structural Condition - Orthotropic Plated Bridge Decks

<i>Maintenance of orthotropic steel bridge decks with longitudinal Y-stiffeners</i> Michael HUBMANN, Hans-Peter GÜNTHER, Ulrike KUHLMANN	498
<i>Lightweight reinforcement systems for orthotropic bridge decks</i> Sofia TEIXERA DE FREITAS, Henk KOLSTEIN, Frans BIJLAARD	500
<i>Crack growth prediction of deck plate-stiffener joints in orthotropic steel bridge decks</i> Johan MALJAARS, David GRATION, Edo VONK, Frank VAN DOOREN	502

<i>Major maintenance and strengthening of eight steel arch bridges in The Netherlands</i> Jan BLOM, Bert HESSELINK	504
<i>Monitoring fatigue effects in an orthotropic steel bridge deck</i> Giovanni TECCHIO, Marco DONA', Filippo CASARIN, Kleidi ISLAMI, Mariano Angelo ZANINI, Carlo PELLEGRINO, Claudio MODENA	506
<i>Renovation of Orthotropic Steel Bridge Decks</i> Paul QUIST, Ron PEPERS, Albert REITSEMA	508
<i>Repair and Strengthening of an orthotropic slab with UHPFRC wearing course bridge at Illzach in France: first return from experience</i> Damien CHAMPENOY, Grégory GENEREUX, Ziad HAJAR, Emilie LUANGKHOT, Michel MOUSSARD, Davy PRYBYLA	510
<i>A heuristic model for performance assessment of welded joints in orthotropic steel decks based on monitoring data</i> Isaac FARRERAS ALCOVER, Jacob EGEDE ANDERSEN, Marios CHRYSANTHOPOULOS	512
<i>Study on repair of corrosion on upper surfaces of orthotropic steel decks by one-side bonding of steel plates</i> Yasumoto AOKI, Toshiyuki ISHIKAWA, Ryota BANNO, Hirotaka KAWANO, Yukio ADACHI	514
<i>Assessment and Strengthening of the Kreekrakbrug</i> Dimosthenis KARAGIANNIS, Mark DARLOW	516
G2. Load Carrying Capacity and Remaining Lifetime - Concrete Shear	
<i>Non-Linear Finite Element Analyses of Existing Reinforced Concrete Bridge Beams</i> Beatrice BELLETTI, Cecilia DAMONI, Max HENDRIKS	520
<i>Design checks and nonlinear response of a full 3D model of a box girder bridge</i> Chantal FRISSEN, Ane DE BOER, Gerd-Jan SCHREPPERS	522
<i>Shear failure of 30-year-old aqueduct wall?</i> Coen VAN DER VLIET, Ane DE BOER, Gerrit WOLSINK	524
<i>Concrete slabs under a combination of loads in shear</i> Eva LANTSOGHT, Cor VAN DER VEEN, Joost WALRAVEN	526
<i>Upgrading Reinforced Concrete Structures By Adding New Concrete</i> Eftychia APOSTOLIDI, Nikolitsa KARELA, Stephanos DRITSOS	528

<i>Shear fatigue assessment of prestressed concrete bridges</i> Frederik TEWORTE, Josef HEGGER	530
<i>Influence of spatial variability on the shear capacity of RC members without shear reinforcement</i> Yuguang YANG, Joop DEN UIJL, Joost WALRAVEN, Stavros PETROCHEILOS.	532
<i>Assessment of structural concrete members using the fib ModelCode 2010 Shear Provisions</i> Viktor SIGRIST	534
<i>Experimental research on transverse load distribution of prefabricated hollow slab concrete bridges with hinge joint cracks</i> Yanling LENG, Jinqun ZHANG, Ruinian JIANG, Sonya COOPER, Haifang HE, Shoushan CHENG	536
<i>Residual shear capacity of 50 years old RC solid slab bridge decks</i> Yuguang YANG, Joop DEN UIJL, Joost WALRAVEN	538
G3. Assessment of Structural Condition – Corrosion	
<i>Corroded Suspension Bridge cables: some lessons learned</i> David COOPER	542
<i>Impact of corrosion on the first immersed concrete tunnel, the Maastunnel</i> CBM Kees BLOM	544
<i>Diagnosis process for the assessment and the refurbishing of port and maritime existing structures</i> Bertrand COLLIN, Frederic CAPPELAERE, Vincent JOUVE	546
<i>Effect of Climate Change on the Deterioration of Steel Bridges</i> Alexandros KALLIAS, Boulent IMAM	548
<i>Spatial characterisation of Chloride-induced Corrosion of Bars in Concrete</i> Leticia LLANO, Imran RAFIQ, Marios CHRYSANTHOPOULOS	550
<i>A Sustainable and Cost-Effective Treatment for Accelerated Low Water Corrosion</i> Graham MADEN	552
<i>Experimental and numerical study of bond response in structural concrete with corroded steel bars</i> Miguel PRIETO, Peter TANNER, Carmen ANDRADE, Miguel FERNANDEZ	554

<i>Assessment of Anchorage Capacity of Naturally Corroded Reinforcement</i> Mohammad TAHERSHAMSI, Kamyab ZANDI HANJARI, Karin LUNDGREN, Mario PLOS	556
<i>Monitoring of Reinforcement Corrosion in Field Exposed Concrete Blocks</i> Henrik SORENSEN, Ulf JÖNSSEN, Dorthe MATHIESEN, Christian MUNCH-PETERSEN	558
G4. Modernisation and Refurbishment - Transformation and Conservation	
<i>Replacement of the Cable Stays at Ewijk Bridge, the Netherlands</i> Conor LAVERY, Pat MOORE, Edo VONK, Gerland NAGTEGAAL	562
<i>Transformation of a 30 year old Oil Terminal into a modern double LNG Terminal – Part 2: Reconstruction of the New Berthing Line</i> Sven DUMORTIER, Mathieu DECHAMPS	564
<i>New continuous 3-span concrete railway decks with extradosed post-tensioning cables in widening an existing multiple arch bridge</i> Bart DE PAUW, Philippe VAN BOGAERT	566
<i>Hofplein Railway Viaduct (1900-1908): A Pioneering Concrete Structure that challenges Conservation</i> Herdis HEINEMANN	568
<i>The Reconstruction of the Cast Iron Railway Station from 1865</i> Milan VASAK	570
<i>Challenges in Restoration of Structures - An Indian Experience</i> Padmakar MANJURE	572
<i>Assessment methods to avoid brittle failure of old steel structures</i> Lars SIEBER, Richard STROETMANN	574
<i>Assessment and Restoration of an Iconic American Baseball Stadium</i> John DUNTEMANN, Paul GAUDETTE, Christopher GIFFIN, Jeffrey CALDWELL, Ann HARRER	576
<i>Westfield Sydney - Revitalising a City Centre</i> Michael HAYSLER, Martin O'SHEA	578
<i>Experimental investigations on upgrading structures with high strength concrete overlay</i> Norbert RANDL, Csaba SIMON	580

H1. Modernisation and Refurbishment - Widening of Bridges

- Reconstruction of an arch bridge across Ohře river, Loket, Czech Republic*
Jaroslav KORBELAR, Miroslav KROUPAR, Pavel RYJACEK, Jiří SCHINDLER . . . 584
- Widening of an existing concrete girder railway bridge with an asymmetric steel section for an additional track*
Amelie OUTTIER, Bart DE PAUW, Hans DE BACKER, Philippe VAN BOGAERT . . . 586
- Integrated steel fly-overs for railway in extension of the historic multiple arch concrete viaduct over the Pede Valley*
Bart DE PAUW . . . 588
- Repair and strengthening of the CANOT Bridge in Besançon, France, for the crossing of the First Tramway Line*
Philippe BATHELIER, Didier GUTH . . . 590
- Pont de l'Enfance - Radical facelift for a bridge in Cameroon: Temporary bridge replaced by permanent structure after 35 years*
Hubert VANDER MEULEN . . . 592
- Building a Bridge Widening above Finish Grade and Lowering it with Jacks*
Darwin VARGAS . . . 594
- Widening of the bridge over Zijkanaal C in highway A9 near Haarlem*
Hans GALJAARD, Dirk FEENSTRA . . . 596

H2. Modernisation and Refurbishment - Building in Restricted Areas

- Design and construction of the Schuman Multimodal Point tunnel under the centre of the European district in Brussels*
Pieter VANDERHAEGHE, Noëlle HAMAIDE, Bart DE PAUW, Guido JORIS, Karlien BERTEN . . . 600
- Assessment of structural condition of an existing railway viaduct after excessive deformations due to nearby tunnelling works*
Hans MORTIER, Emile VAN DOORN . . . 602
- Road bridge deck replacements for the East London Line project*
Riccardo STROSCIO, Andrew BRADSHAW . . . 604
- Practical Integration of Risk Management and monitoring during rebuilding of Subway Station CS Rotterdam*
Bert DE DOELDER, Robert BERKELAAR, Cor LUIJTEN, Vladimir THUMANN . . . 606

Railway bridges / fly-over 'Sporen in den Bosch'

Gerrit Jan HOLTLAND, Bert HESSELINK, Marc KRELING, Jan Willem DE VOS,
Wim VAN DEN BERG. 608

Brunette River Bridge: New Upgrade, New constraints

Jamie MCINTYRE, Keith HOLMES, Marc GÉRIN 610

Bridge 6 (Brighton Goods) Reconstruction

Matthew KYNOCH, Emily SHORT. 612

H3. Modernisation and Refurbishment - Change in Conditions of Use

Strengthening of a Single Track Railroad Steel Truss Bridge with Addition of a Two Lane Highway Deck

Alp CANER, Nick MARIANOS, Barbaros SARICI 616

San Francisco - Oakland Bay Bridge Second Crossing

Ronald MIDDLEBROOK, Roumen MLADJOV. 618

Structural rehabilitation and lengthening of three 50 years old locks in Limburg, the Netherlands

Werner VITS, Ken WATZEELS, Dirk BOURLON 620

Expanding and raising of bridges in order to improve navigation conditions

Ryszard DANIEL 622

A doubly curved steel and glass dome for the historic Maritime Museum Amsterdam

Kenny VERBEECK, Laurent NEY 624

Anti Flood Protection System at the Tihange Nuclear Power Plant

Pierre LATTEUR, Sebastien BASIRE, Pierre DEBAUCHE, Marcel GILBERT,
Dimitri VANBELLINGHEN, Erna VAN ECHELPOEL 626

Replacing a tower at Cape Verdes - challenges from hard environmental conditions and a modular concept

Maximilian FUCHS, Norbert ROMEN 628

H4. Modernisation and Refurbishment - Transformation and Conservation

Engineering challenges from assessment of Schalkwijksebrug

René HELLER, Jaco REUSINK. 632

East London Line Phase 2

David PLACE, Robert JONES, Ian PALMER. 634

Port of Zeebrugge - Deepening of Container Handling Zeebrugge quay wall
Bernie DEBLAUWE, Frederik SANDERS, Dirk DE CLERCK, Dieter VAN PARYS...636

Humber Bridge A-frame rocker bearings replacement
John COLLINS, Richard HORNBY, Peter HILL, John COOPER638

ANZAC bridge stay cable upgrade
Erik MELLIER, Eric KUHN, Xavier KOSCHER, Aurélien SYLVESTRE640

Upgrading Railway Bridges in Sydney, Australia
Ken MAXWELL.....642

Replacement of Botlek Lifting Bridge, Motorway A15, Netherlands
Robert SCHEDLER, Ulrich EDER, Erik JILLE644
