ASM INTERNATIONAL
METALS PARK, OHIO 44073

Fachbereich Materialwissenschaft
der Techn. Hochschule Darmstadt

Inv.-Nr.: 557

CONTENTS

COMPOSITES

Fibers	
General	9
Polymer Fibers	17
Metal Fibers, Whiskers & Wires	20
Carbon & Graphite Fibers	25
Ceramic Fibers	32
Glass Fibers	40
Polymer Matrix Composites	
General	49
Thermoplastics	56
Thermosets	69
Metal Matrix Composites	
General	81
Carbon/Metal	87
Silicon Carbide/Metal	89
Alumina/Metal	95
Boron/Metal	97
Refractory Metal Fiber/Metal Matrix Composite	102
Cermets	105
Ceramic Matrix Composites	
General	111
Ceramic	114
SiC/Ceramic	119
Graphite Ceramic	122
Glass Matrix	125
Design, Tooling and Manufacturing	
Composite Design Considerations	131
Composite Tooling and Machining	135
Composite Manufacturing Methods	139

CERAMICS

General	151
Single Oxides	165
Mixed Oxides	176
Carbides	181
Nitrides	189

Borides	195
Binary Phase Diagrams	195

PLASTICS

General	277
Thermoplastics	282
Thermosets	332
Production and Machining Methods	365

ELECTRONIC MATERIALS

General Information	393
Electronic Materials Property Data	397
Semiconductor Devices	401
Diffusion and Electromigration	404
Binary Phase Diagrams of Electronic Materials	407

APPENDICES

References	467
Abbreviations	468
Metric Conversion Guide	471
Metric Conversions	473
SI Prefixes	477
Symbols	477
Greek Alphabet	477
Temperature Conversions	478
Periodic Table of the Elements	481
Guide to General Information Sources	482
Automated Literature Searching	485
Selected Databases Available Through Dialog	486
Directory of Composites Laboratories and Information Centers	489
Directory of Composites Manufacturers, Suppliers, and Services	495
International Standards-Issuing Organizations	508
Universities with Faculties in Polymer Science	516
Universities with Faculties in Ceramics	517
