CONTENTS

	Page
EXECUTIVE SUMMARY.....	xi
I. INTRODUCTION.....	1
Distribution Accounting and Control	1
Transportation Accounting and Control.....	2
The Report	4
II. THE INFORMATION NEEDS OF TRANSPORTATION MANAGEMENT.....	7
The External Environment.....	7
Energy	8
Inflation.....	8
Interest Rates.....	8
Economic Fluctuations	8
Deregulation	9
Competitors, Customers, and Suppliers	9
Key Concerns of Transportation Management.....	9
Carrier Selection and Negotiation	10
✓ Fleet Management	11
× Transportation Service	12
Traffic Management	14
× Integrated Logistics Management	15
Sources of Transportation Management Information	20
Information System Attributes.....	22
Comprehensive Scope.....	22
Detailed Cost Categories	22
Simultaneous Operating Data Capture.....	23
Sophisticated Cost Allocation.....	24
Distribution Analysis Support	24
× Effective Measurement of Transportation Function	25
✓ Transportation Information System Evolution	25
Summary	28
III. THE PLANNING AND BUDGETING PROCESS	31
The Planning Process	31
Strategic and Operational Planning	31
Planning and Budgeting Framework	32
Overview of Budgeting	34
Functions and Benefits.....	34
The Company-Wide Budget	36
Transportation Budget Timing and Organizational Responsibility	38
Budget Timing	38

Organizational Responsibility	38
Transportation Budgeting Process	40
Compile Underlying Assumptions	40
Develop Transportation Profile of Budgeted Operations	43
Specify Transportation Demand	45
Analyze Traffic Lanes	46
Update Financial Factors	47
Compute Preliminary Budget Amounts	52
Evaluate Preliminary Budget	52
Budget Approval and Implementation	54
Summary	54
 IV. CONTROLLING TRANSPORTATION: STANDARD COSTING AND FLEXIBLE BUDGETS	 57
Basic Concepts	58
Objectives of Standard Costing	58
Types of Cost	58
Cost Behavior Patterns	59
Measurement Bases	61
Developing Standard Costs	62
Development Methods	63
Describing Operations	64
Specifying Quantity Standards	65
Determining Price Standards	67
Computing Cost Standards	68
Implementing Flexible Budgets	70
Developing Formulas	70
Specifying Actual Activity Level	71
Calculating Budget Amounts	71
Variance Analysis	71
Summary	74
 V. ALLOCATING TRANSPORTATION COSTS: CONCEPTS AND METHODS	 77
Concepts and Definitions	77
Purposes of Cost Determination	78
Cost Allocation Methods and Techniques	80
Defining Costing Needs	80
Identifying and Accumulating Cost Data	80
Allocating Detailed Costs Among Functions	81
Selecting Bases of Allocation	83
Basic Allocations	84
Cost Classification Assignments	88
Special Costing Considerations	88
Reporting Transportation Costs	90
Summary	90

× VI.	PRICING INTERNAL TRANSPORTATION SERVICES.....	95
	Pricing Objectives.....	95
	Transfer Pricing Strategies.....	96
	Cost-Based Transfer Pricing.....	97
	Market-Based Transfer Pricing.....	99
	Combination of Cost- and Market-Based Pricing.....	101
	Current Transfer Pricing Practices.....	102
×	Selecting Techniques for Transfer Pricing.....	105
	Private Fleet.....	107
	For-Hire Subsidiary.....	109
	For-Hire (Non-Affiliated).....	109
	Summary.....	113
 VII.	 TRANSPORTATION RESPONSIBILITY ACCOUNTING AND REPORTING.....	 115
	Objectives and Definitions.....	116
	Responsibility Centers.....	116
	Responsibility Accounting.....	119
	Policy Considerations.....	122
	Positioning of the Transportation Function.....	123
	Structure of the Physical Distribution Network.....	123
	Period or Product Cost.....	124
	Transportation Cost Isolation.....	128
	Cash or Accrual Basis.....	128
	Reporting Noncontrollable Costs.....	130
	Reporting Cost Transfers.....	131
	Summary of Considerations.....	133
	Summary.....	133
 VIII.	 IMPROVING INTERNAL CONTROLS.....	 137
	Purpose of Internal Control.....	137
	Internal Control Objectives.....	139
	The General Control Objectives.....	139
	Specific and Tailored Objectives.....	140
	Evaluating Achievement of Objectives.....	141
	Purchased Transportation Controls.....	142
	Create Freight Liability.....	143
	Calculate Freight Amount.....	146
	Verify Freight Liability.....	146
	Verify Freight Amounts.....	146
	Charge Freight to Customer.....	147
	Freight Bill or Invoice Payment.....	147
	Freight Bill Audits.....	148
	Recovery of Payments.....	148
	Summary of Freight Controls.....	148
	Other Transportation Expense Controls.....	149
	Labor Expense Controls.....	150

Controls for Parts, Supplies, and Purchased Services	150
Practices Contributing to Effective Transportation Control	153
Organization and Personnel Practices	155
Information Reporting and Availability.....	157
Budgets	157
Summary	158
 IX. IMPROVING TRANSPORTATION MANAGEMENT	
INFORMATION	159
Overview of the Process	159
Definitions for the Transportation Information Appraisal	159
Specify Transportation Activities to be Appraised	161
Identify Information Requirements	162
Determine Necessary Data Elements	162
Determine Data Availability and Accessibility	163
Data Sources	164
Data Accessibility.....	169
Evaluate Data Procedures	171
Assess Computer System Impacts	175
Evaluating the Systems Environment	178
Formulate Action Plan for Information Enhancement	181
Evaluating Alternatives and Making Recommendations	181
Action Plan.....	184
Summary	186
 GLOSSARY	187
APPENDICES	195
A. Sample Transportation Chart of Accounts.....	195
B. The Industry Survey	205
