# CONTENTS

Preface xxi

About the Author xxvii

## PART I Introduction and Measurement Issues 1

### Chapter 1 Introduction 3

---

- What Is Macroeconomics? 3
- Gross National Product, Economic Growth, and Business Cycles 4
- Macroeconomic Models 9
- Microeconomic Principles 12
- Disagreement in Macroeconomics 13
- What Do We Learn from Macroeconomic Analysis? 14
- Understanding Recent and Current Macroeconomic Events 16
  - The Productivity Slowdown 16
  - Taxes, Government Spending, and the Government Deficit 18
  - Inflation 21
  - Interest Rates 22
  - Energy Prices and Macroeconomic Activity 25
  - Trade and the Twin Deficits of the 1980s 28
  - Unemployment 30
- Chapter Summary 33
- Key Terms 34
- Questions for Review 35
- Problems 36
- Conference Board Problems 37

### Chapter 2 Measurement 39

---

- Measuring GDP: The National Income and Product Accounts 39
  - The Product Approach to Measuring GDP 41

The Expenditure Approach	42
The Income Approach	43
An Example with Inventory Investment	43
An Example with International Trade	44
Gross National Product (GNP)	45
What Does GDP Leave Out?	45
The Components of Aggregate Expenditure	47
<i>Consumption</i>	47
<i>Investment</i>	47
<i>Net Exports</i>	48
<i>Government Expenditures</i>	48
Nominal and Real GDP and Price Indices	49
Real GDP	49
Measures of the Price Level	52
Problems with Measuring Real GDP and the Price Level	53
Savings, Wealth, and Capital	55
Labor Market Measurement	57
<b>MACROECONOMICS IN ACTION: THE BOSKIN COMMISSION AND THE CONSUMER PRICE INDEX</b>	54
<b>MACROECONOMICS IN ACTION: ARE THERE MANY DISCOURAGED WORKERS DURING GOOD ECONOMIC TIMES?</b>	58
Chapter Summary	59
Key Terms	59
Questions for Review	61
Problems	61
Conference Board Problems	63

### **Chapter 3** Business Cycle Measurement 65

---

Regularities in GDP Fluctuations	65
Comovement	69
The Components of GDP	75
Nominal Variables	78
Labor Market Variables	80
Comovement Summary	82
<b>MACROECONOMICS IN ACTION: THE PITFALLS OF MACROECONOMIC FORECASTING</b>	68
Chapter Summary	83
Key Terms	84
Questions for Review	85
Problems	85
Conference Board Problems	86

# PART II A One-Period Model of the Macroeconomy 87

## **Chapter 4** Consumer and Firm Behavior: The Work–Leisure Decision and Profit Maximization 89

---

- The Representative Consumer 90
  - The Representative Consumer's Preferences 90
  - The Representative Consumer's Budget Constraint 95
    - The Consumer's Real Disposable Income* 96
    - The Budget Constraint* 97
  - Consumer Optimization 99
    - How Does the Representative Consumer Respond to a Change in Real Dividends or Taxes?* 103
    - The Representative Consumer and Changes in the Real Wage: Income and Substitution Effects* 105
    - An Example: Consumption and Leisure Are Perfect Complements* 107
- The Representative Firm 113
  - The Effect of a Change in Total Factor Productivity on the Production Function 118
  - The Profit Maximization Problem of the Representative Firm 122
- THEORY CONFRONTS THE DATA: INCOME AND SUBSTITUTION EFFECTS AND POST–WORLD WAR II LABOR SUPPLY IN THE UNITED STATES 110**
- MACROECONOMICS IN ACTION: HENRY FORD AND TOTAL FACTOR PRODUCTIVITY 119**
- THEORY CONFRONTS THE DATA: TOTAL FACTOR PRODUCTIVITY AND THE U.S. AGGREGATE PRODUCTION FUNCTION, 121**
- Chapter Summary 126
- Key Terms 126
- Questions for Review 128
- Problems 128
- Conference Board Problems 130

## **Chapter 5** A Closed-Economy One-Period Macroeconomic Model 131

---

- Government 131
- Competitive Equilibrium 132
- Optimality 139
  - Sources of Social Inefficiencies 143
  - How to Use the Model 145
- Working with the Model: The Effects of a Change in Government Purchases 147
- Working with the Model: A Change in Total Factor Productivity 149
  - Interpretation of the Model's Predictions 154

MACROECONOMICS IN ACTION: ADAM SMITH'S INVISIBLE HAND  
AND THE FORMER SOVIET UNION 142

THEORY CONFRONTS THE DATA: GOVERNMENT SPENDING IN  
WORLD WAR II 149

THEORY CONFRONTS THE DATA: TOTAL FACTOR PRODUCTIVITY, ENERGY  
PRICES, AND THE 1973–75 RECESSION 155

Chapter Summary 157

Key Terms 159

Questions for Review 160

Problems 161

Conference Board Problems 162

## PART III Savings, Government Deficits, Investment, and Growth 163

### **Chapter 6** A Two-Period Model: The Consumption–Savings Decision and Ricardian Equivalence 165

---

A Two-Period Model of the Economy 166

- Consumers 167
  - The Consumer's Lifetime Budget Constraint* 168
  - The Consumer's Preferences* 170
  - Consumer Optimization* 173
  - An Increase in Current-Period Income* 173
  - An Increase in Future Income* 178
  - Temporary and Permanent Changes in Income* 180
  - An Increase in the Real Interest Rate* 184
  - An Example: Perfect Complements* 189
  - The Demand for Current Consumption Goods* 190
- Government 192
- Competitive Equilibrium 194

The Ricardian Equivalence Theorem 195

- Ricardian Equivalence: A Numerical Example 198
- Ricardian Equivalence: A Graph 200
- Ricardian Equivalence and the Burden of Government Debt 200
- Credit Market Imperfections and Consumption 204

THEORY CONFRONTS THE DATA: CONSUMPTION SMOOTHING  
AND THE STOCK MARKET 182

MACROECONOMICS IN ACTION: WAS RICARDO A RICARDIAN? 202

THEORY CONFRONTS THE DATA: GEORGE BUSH  
AND THE WITHHOLDING REDUCTION 207

Chapter Summary 208

Key Terms 210

Questions for Review 210

Problems	211
Conference Board Problems	213

## **Chapter 7** A Real Intertemporal Model with Investment 215

The Representative Consumer	216
Current Labor Supply	218
The Current Demand for Consumption Goods	221
The Representative Firm	223
Profits and Current Labor Demand	224
The Representative Firm's Investment Decision	225
<i>Optimal Investment: A Numerical Example</i>	230
Government	231
Competitive Equilibrium	232
The Current Labor Market and the Output Supply Curve	232
<i>Shifts in the Output Supply Curve</i>	234
The Current Goods Market and the Output Demand Curve	237
<i>Shifts in the Output Demand Curve</i>	240
The Complete Real Intertemporal Model	241
Government Purchases Increase Temporarily: The Equilibrium Effects of an Increase in $G$	243
Government Purchases Increase Permanently: The Equilibrium Effects of an Increase in Both $G$ and $G'$	245
The Equilibrium Effects of a Decrease in the Current Capital Stock, $K$	249
The Equilibrium Effects of an Increase in Current Total Factor Productivity, $z$	252
The Equilibrium Effects of an Increase in Future Total Factor Productivity, $z'$	258
THEORY CONFRONTS THE DATA: INVESTMENT SPENDING DURING WORLD WAR II	248
MACROECONOMICS IN ACTION: THE MACROECONOMIC EFFECTS OF THE 1993 UPPER MISSISSIPPI BASIN FLOOD	250
THEORY CONFRONTS THE DATA: CHANGES IN THE RELATIVE PRICE OF ENERGY AND TOTAL FACTOR PRODUCTIVITY	254
Chapter Summary	260
Key Terms	261
Questions for Review	261
Problems	262
Conference Board Problems	263

## **Chapter 8** Economic Growth 265

Growth Accounting	266
-------------------	-----

Solow Residuals and the Productivity Slowdown	268
The Cyclical Properties of Solow Residuals	270
A Growth Accounting Exercise	270
The Solow Model: Exogenous Growth	274
Consumers	275
The Representative Firm	276
Competitive Equilibrium	276
Analysis of the Steady State	280
<i>The Steady State Effects of an Increase in the Savings Rate</i>	281
<i>Consumption per Worker and Golden Rule Capital Accumulation</i>	283
<i>The Steady State Effects of an Increase in Labor Force Growth</i>	286
<i>The Steady State Effects of an Increase in Total Factor Productivity</i>	288
Convergence	291
Endogenous Growth: A Model of Human Capital Accumulation	297
The Representative Consumer	299
The Representative Firm	299
Competitive Equilibrium	300
Economic Policy and Growth	303
Convergence in the Endogenous Growth Model	305
<b>MACROECONOMICS IN ACTION: EAST ASIAN MIRACLES AND TOTAL FACTOR PRODUCTIVITY GROWTH</b>	<b>273</b>
<b>THEORY CONFRONTS THE DATA: THE SOLOW GROWTH MODEL, INVESTMENT RATES, AND POPULATION GROWTH</b>	<b>287</b>
<b>THEORY CONFRONTS THE DATA: IS INCOME PER WORKER CONVERGING IN THE WORLD?</b>	<b>294</b>
<b>MACROECONOMICS IN ACTION: EDUCATION AND GROWTH</b>	<b>307</b>
Chapter Summary	309
Key Terms	310
Questions for Review	311
Problems	312
Conference Board Problems	314

## PART IV Money and Business Cycles 315

### **Chapter 9** A Monetary Intertemporal Model: The Neutrality of Money, Long-Run Inflation, and Money Demand 317

What Is Money?	318
Measuring the Money Supply	318
A Monetary Intertemporal Model	320
Real and Nominal Interest Rates and the Fisher Relation	321
A Preview of Money Demand	323
The Representative Household	325

The Representative Firm	330
Government	331
Competitive Equilibrium	332
<i>The Current Labor Market</i>	332
<i>The Current Goods Market</i>	333
<i>The Current Money Market</i>	335
<i>The Complete Monetary Intertemporal Model</i>	337
A Level Increase in the Money Supply and Monetary Neutrality	339
A Growing Money Supply and the Effects of Long-Run Inflation	343
<i>Optimal Monetary Policy: The Friedman Rule</i>	347
Short-Run Analysis in the Intertemporal Monetary Model: A Temporary Decrease in Total Factor Productivity	352
Shifts in Money Demand	355
The Quantity Theory of Money and Monetarism	360
<b>MACROECONOMICS IN ACTION: MONEY GROWTH, INFLATION, AND OUTPUT GROWTH ACROSS COUNTRIES</b>	<b>348</b>
<b>MACROECONOMICS IN ACTION: SHOULD THE FED REDUCE THE INFLATION RATE TO ZERO OR LESS?</b>	<b>351</b>
<b>THEORY CONFRONTS THE DATA: CHANGES IN THE RELATIVE PRICE OF ENERGY AND THE PRICE LEVEL</b>	<b>354</b>
<b>THEORY CONFRONTS THE DATA: THE VELOCITY OF MONEY</b>	<b>358</b>
Chapter Summary	364
Key Terms	364
Questions for Review	366
Problems	366
Conference Board Problems	368

## Chapter 10

### Keynesian Business Cycle Theory: The Sticky Wage Model 369

---

The Labor Market in the Keynesian Sticky Wage Model	370
The Sticky Wage Aggregate Supply Curve	373
Factors Shifting the Sticky Wage Aggregate Supply Curve	374
Aggregate Demand: The IS and LM Curves	376
Shifts in the IS Curve	378
Shifts in the LM Curve	379
The Aggregate Demand Curve	382
Shifts in the Aggregate Demand Curve	382
The Complete Keynesian Sticky Wage Model	386
The Nonneutrality of Money When Wages Are Sticky	386
The Role of Government Policy in the Sticky Wage Model	392
Shifts in Money Demand and Monetary Control	400
Keynesian Sticky Price Models	405
Criticisms of Keynesian Sticky Wage and Sticky Price Models	405
<b>THEORY CONFRONTS THE DATA: CAN STICKY WAGES AND MONEY SUPPLY FLUCTUATIONS EXPLAIN BUSINESS CYCLES?</b>	<b>389</b>

THEORY CONFRONTS THE DATA: KEYNESIAN AGGREGATE DEMAND SHOCKS  
AS CAUSES OF BUSINESS CYCLES 390

MACROECONOMICS IN ACTION: MONETARY POLICY AND THE “VOLCKER  
RECESSION” 393

MACROECONOMICS IN ACTION: GEORGE W. BUSH, ALAN GREENSPAN, AND  
THE TIMING OF THE EFFECTS OF FISCAL AND MONETARY POLICY 401

Chapter Summary 406

Key Terms 407

Questions for Review 408

Problems 408

Conference Board Problems 410

**Chapter 11** Market-Clearing Models of the Business Cycle 411

The Friedman–Lucas Money Surprise Model 412

Implications of the Money Surprise Model for Monetary Policy 414

Critique of the Friedman–Lucas Money Surprise Model 416

The Real Business Cycle Model 417

Real Business Cycles and the Behavior of the Money Supply 421

Implications of Real Business Cycle Theory for Government Policy 423

Critique of Real Business Cycle Theory 424

A Keynesian Coordination Failure Model 426

The Coordination Failure Model: An Example 431

Predictions of the Coordination Failure Model 434

Policy Implications of the Coordination Failure Model 435

Critique of the Coordination Failure Model 438

THEORY CONFRONTS THE DATA: RECESSIONS IN THE MID–1970s  
AND THE EARLY 1980s 426

MACROECONOMICS IN ACTION: BUSINESS CYCLE MODELS  
AND THE GREAT DEPRESSION 428

MACROECONOMICS IN ACTION: ARE BUSINESS CYCLES  
DISAPPEARING? 437

Chapter Summary 438

Key Terms 439

Questions for Review 440

Problems 440

Conference Board Problems 441

**PART V** International Macroeconomics 443

**Chapter 12** International Trade in Goods and Assets 445

A Two-Good Model of a Small Open Economy: Trade in Tinyland 446

Competitive Equilibrium in Tinyland Without Trade 449  
 The Effects of Trade on Tinyland 451  
 A Change in the Terms of Trade: Effects on Production, Consumption,  
 and Welfare 453  
 A Two-Period Small Open-Economy Model: The Current Account in  
 Tinyland 458  
 Production, Investment, and the Current Account 465  
 The Effects of an Increase in the World Real Interest Rate 466  
 Temporary and Permanent Increases in Government Expenditure  
 and the Effects on the Current Account 467  
 The Effects of Increases in Current and Future Total Factor  
 Productivity 470  
 Current Account Deficits, Consumption, and Investment 472  
**MACROECONOMICS IN ACTION: HOW IMPORTANT ARE SHOCKS TO  
 THE TERMS OF TRADE FOR BUSINESS CYCLES? 459**  
**THEORY CONFRONTS THE DATA: IS A CURRENT ACCOUNT DEFICIT  
 A BAD THING? 461**  
**THEORY CONFRONTS THE DATA: THE TWIN DEFICITS OF THE 1980S 463**  
 Chapter Summary 474  
 Key Terms 475  
 Questions for Review 475  
 Problems 476  
 Conference Board Problems 477

**Chapter 13 Money in the Open Economy 479**

---

The Nominal Exchange Rate, the Real Exchange Rate, and Purchasing  
 Power Parity 480  
 Flexible and Fixed Exchange Rates 483  
 A Monetary Small Open-Economy Model with  
 a Flexible Exchange Rate 486  
 The Neutrality of Money with a Flexible Exchange Rate 488  
 A Nominal Shock to the Domestic Economy from  
 Abroad:  $P^*$  Increases 490  
 A Real Shock to the Domestic Economy from Abroad 491  
 A Monetary Small Open-Economy Model with  
 a Fixed Exchange Rate 495  
 A Nominal Foreign Shock Under a Fixed Exchange Rate 496  
 A Real Foreign Shock Under a Fixed Exchange Rate 497  
 Exchange Rate Devaluation 498  
 Flexible Versus Fixed Exchange Rates 500  
 Capital Controls 502  
 The Capital Account and the Balance of Payments 502  
 The Effects of Capital Controls 503

THEORY CONFRONTS THE DATA: THE BIG MAC INDEX AND THE PPP  
RELATIONSHIP FOR THE UNITED STATES AND CANADA 482  
MACROECONOMICS IN ACTION: THE ASIAN CRISIS 493  
MACROECONOMICS IN ACTION: DO CAPITAL CONTROLS WORK  
IN PRACTICE? 506  
Chapter Summary 507  
Key Terms 507  
Questions for Review 509  
Problems 509  
Conference Board Problems 510

## PART VI Money, Banking, Unemployment, and Inflation 511

### **Chapter 14** Money, Private Banking, and Central Banking 513

Alternative Forms of Money 513  
Money and the Absence of Double Coincidence of Wants: The Role of  
Commodity Money and Fiat Money 517  
Financial Intermediation and Banking 520  
    • Properties of Assets 521  
    Financial Intermediation 522  
        *Depository Institutions* 524  
Central Banking 525  
    Monetary Policy 526  
        Open Market Operations 526  
        Discount Window Policy 528  
        Reserve Requirements 530  
        Regulatory Policy 531  
Deposit Insurance 532  
MACROECONOMICS IN ACTION: COMMODITY MONEY AND COMMODITY-  
BACKED PAPER MONEY: YAP STONES AND PLAYING CARDS 516  
MACROECONOMICS IN ACTION: LONG TERM CAPITAL MANAGEMENT AND  
THE TOO-BIG-TO-FAIL DOCTRINE 534  
Chapter Summary 535  
Key Terms 536  
Questions for Review 537  
Problems 537  
Conference Board Problems 538

### **Chapter 15** Unemployment: Search and Efficiency Wages 539

The Behavior of the Unemployment Rate and the Participation Rate in  
the United States 540

A Search Model of Unemployment	545
The Welfare of Employed and Unemployed Workers	547
The Reservation Wage	548
The Determination of the Unemployment Rate	550
<i>An Increase in Unemployment Insurance Benefits</i>	552
<i>An Increase in the Job Offer Rate</i>	552
<i>Taxes on Labor Income and Unemployment Insurance Benefits</i>	555
The Efficiency Wage Model	558
Optimization by the Firm: The Choice of Employment and the Efficiency Wage	558
Labor Market Equilibrium in the Efficiency Wage Model	560
The Efficiency Wage Model and Business Cycles	562
<b>MACROECONOMICS IN ACTION: UNEMPLOYMENT IN EUROPE</b>	<b>546</b>
<b>MACROECONOMICS IN ACTION: THE NATURAL RATE OF UNEMPLOYMENT     AND SEARCH THEORY</b>	<b>557</b>
Chapter Summary	566
Key Terms	567
Questions for Review	568
Problems	568
Conference Board Problems	569

## **Chapter 16** Inflation, the Phillips Curve, and Central Bank Commitment 571

---

The Phillips Curve	572
The Friedman–Lucas Money Surprise Model and the Phillips Curve	576
Understanding the Behavior of the Inflation Rate in the United States	580
<i>The Central Bank Learning Story</i>	582
<i>The Central Bank Commitment Story</i>	587
<b>MACROECONOMICS IN ACTION: LEARNING TO CONTROL INFLATION IN NEW     ZEALAND: INFLATION TARGETING</b>	<b>586</b>
<b>MACROECONOMICS IN ACTION: COMMITMENT TO LOW INFLATION     IN ARGENTINA</b>	<b>589</b>
Chapter Summary	591
Key Terms	591
Questions for Review	592
Problems	592
Conference Board Problems	593

*Mathematical Appendix* 595

*Index* 623
