

PACE

Partners for the Advancement of Collaborative Engineering Education

2006

International PACE Forum
Collaborative Visualization

PROCEEDINGS

November 15-17, 2006
Technische Universität Darmstadt
Darmstadt, Germany

In cooperation with

Department of
Computer Integrated Design

Kindly supported by

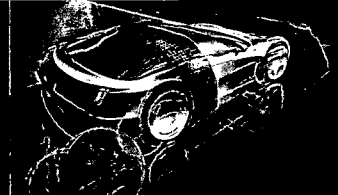

ULB Darmstadt

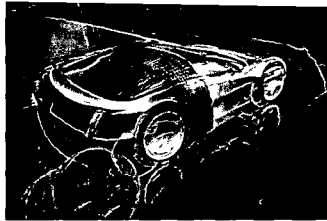

16495786

*Transforming the
process of innovation*

Content

KEYNOTE: Engineering Collaboration in a Global Environment	7
<i>Heinz-Gerd Lehnhoff, Stefan Deuling - Adam Opel GmbH</i>	
KEYNOTE: GO PLM – A Unique Perspective on Global Productivity	21
<i>Hulas H. King – UGS</i>	
Combination of Virtual and Real Content in Design Models of the BMW Group.	45
<i>Christian Pohl, Ralf Hoffmann – BMW AG</i>	
Visualization in Collaborative Advanced Design Projects – Mapping Engineering and Industrial Design's Methods, Tools and Media	49
<i>Michael Kirsch, Jürgen Rambo – EM AG / Technische Universität Darmstadt</i>	
Holistic Collaboration	61
<i>Michael Feltes, Axel Hildebrand, Sibylle Doris Steck – DaimlerChrysler AG</i>	
Human Factors in Virtual Collaboration	77
<i>Bettina Schleidt, Martin Eigner – Technische Universität Kaiserslautern</i>	
Digital Factory for Collaborative Engineering of Automotive General Assembly	85
<i>Hyoung Seok Kang, Tae Hyuck Yoon, Gun Yeon Kim, Sang Do Noh – Sungkyunkwan University</i>	
Engineering Data Sharing – Global Collaboration with 3D PDF	95
<i>Alexander Patt, Peter Pfalzgraf – PROSTEP AG</i>	
JT Collaboration throughout the Value Chain Generation, Transmission, Distribution, and Use	103
<i>Gunter Deisenroth – UGS</i>	
Virtual Reality as a Key Actor for Collaborative Working Environments	107
<i>Angelos Amditis, Matthaios Bimpas, Nikos Frangakis, Konstantinos Loupos, Terrence Fernando – ICCS / USAL</i>	
VRfx – Visual Fidelity in collaborative Visualization	115
<i>Matthias Bues, Günter Wenzel, Manfred Dangelmaier – Fraunhofer IAO</i>	
A VR-based Collaborative Virtual Prototyping Environment for Composing Mechatronic Systems	127
<i>Jürgen Gausemeier, Qing Shen, Michael Grafe – University of Paderborn</i>	

Application of Kinematics in DMU	141
<i>Konstanze Anspach, Mark Beer, Jens Malzacher – Adam Opel GmbH / Technische Universität Darmstadt</i>	
<hr/>	
Integration of a Multi-Disciplinary Visualization Platform with a Decision Support System	153
<i>Albert Türtscher, Prasad Mandava, Mike Sheh, Alex van der Velden – VCollab / Engineous Software Inc.</i>	
<hr/>	
Improved Impulse-Based Simulation of Cables for Virtual Assembly Environments	161
<i>Wolfgang Schotte, Jivka Ovtcharova – Universität Karlsruhe (TH)</i>	
<hr/>	
Contemporary CAD Tools and Spatial Abilities: The Development of Appropriate Assessment Techniques and Educational Activities	175
<i>Nathan W. Hartman, Patrick E. Connolly – Purdue University</i>	
<hr/>	
Utilizing Visual Illusions to Identify and Understand Perceptual Discrepancies in Product Design	189
<i>Maria Bøe, Jan Helge Bøhn, Reiner Anderl – Virginia Tech / Technische Universität Darmstadt</i>	
<hr/>	
Recognition of shape in virtual visualizations	203
<i>Melanie Kurz – BMW AG</i>	
<hr/>	
Actual and Future Needs for Collaborative Design Reviews	211
<i>Frank-Lothar Krause, Haygazun Hayka, Dirk Langenberg – Fraunhofer IPK</i>	
<hr/>	
Integration in Product Lifecycle	227
<i>Christian Krieger – UGS</i>	
<hr/>	
EVENT SPECIAL: Highlights in Current Research	237
<i>Fraunhofer IGD</i>	
<hr/>	
Imprint	241
