# INDEX – Volume 2

## SESSION 1

### ELECTRIC VEHICLES

Chaired by: Prof. Dr. Clemens Gühmann

- Conversion Efficiency Enhancement of a Photovoltaic and Thermoelectric Generator Hybrid Power Source** 1  
Omar Abu Mohareb, Prof. Dr. Hans-Christian Reuss,  
Institute for Internal Combustion Engines and Automotive  
Engineering (IVK), University of Stuttgart;  
Dr. Qais Naman, High Tech Industrial Service W.L.L.;  
Dr. Michael Grimm, Research Institute of Automotive  
Engineering and Vehicle Engines Stuttgart (FKFS)
- Energetic Evaluation of Electrified Vehicle Concepts** 17  
Andreas Thanheiser, Dominik Bücherl, Dr. Hans-Georg Herzog,  
Institute of Energy Conversion Technology, TU Munich
- Joint Research Project “ePerformance” – Integrated  
for the Development of an Electric Vehicle** 31  
Dr. Christian Allmann, Audi Electronics Venture GmbH;  
M. Schüssler, AUDI AG

### CI ENGINES AND TURBOCHARGING

Chaired by: Prof. Dr. Peter Eilts

- Evolution of the Smart Fortwo CDI Engine Compliance  
with Emission Level EU5** 33  
Dirk Busenthür, Dr. Leo Bakaj, Dr. Stefan Keppeler,  
Thomas Mühleisen, Dr. Joachim Schommers, Daimler AG

- Effect of Turbocharger Geometrical configurations on Engine Performance and Emissions** 47  
Krishnan Nandhakumar, R. Padmavathi, Daithankar Parag, Mahindra & Mahindra Ltd.
- Simplified Explanation of the Interactions between Turbo Charging and Exhaust Gas Recirculation** 57  
Dr. Michael Breuer, Pierburg GmbH
- Model-based Fault Detection and Diagnosis for Common Rail Injections Systems** 71  
Sebastian Clever, Prof. Dr. Dr. Rolf Isermann, Institute of Automatic Control (IAT), TU Darmstadt
- SI ENGINES**  
Chaired by: Prof. Dr. Ulrich Spicher
- Second-Generation Gasoline Direct Injection – Combination of Stratified-Charge and Homogeneous Combustion Systems** 89  
Uwe Schaupp, Anton Waltner, Dr. Frank Altenschmidt, Dr. Werner Sauter, Arnold Kaden, Daimler AG
- The MAHLE Downsizing Engine – High Performance and Low Fuel Consumption** 109  
Volker Korte, Grant Lumsden, Neil Fraser, Jonathan Hall, MAHLE Powertrain Ltd.
- Characterization of the Thermo-Chemical Processes Involved in a SI Engine by Optical Measurements** 133  
Cinzia Tornatore, Dr. Simona Silvia Merola, P. Sementa, Istituto Motori, CNR; S. Di Palma, L. Carmignani, Piaggio & C. S.p.A.
- Reducing the Particle Number in DI Gasoline Engines** 159  
Matthias Kratzsch, Olaf Kannapin, Dr. Stephan Liebsch, Michael Preisner, Thomas Guske, IAV GmbH

**SESSION 2**

**VEHICLE CONCEPTS**

Chaired by: Prof. Dr. Frank Gauterin

**Thermal Comfort Simulations in the Presence of Humidity** 175  
 Dr. Murat Sabanca, TWT GmbH; S. Evans, CD-adapco;  
 E. K. Schwengler, Daimler AG; E. Ruiz, MB-Technology GmbH

**Innovative Vehicle Concept for the Integration  
 of Alternative Power Trains** 193  
 Philipp Steinle, Michael Kriescher,  
 Prof. Dr. Horst E. Friedrich, Institute of Vehicle Concepts (IFK),  
 German Aerospace Center (DLR)

**Electric Powertrain: System and Conception of Powertrain  
 Components, Transmission and Auxiliary Drives  
 using the Example of an All-Wheel Drive EV** 215  
 Berthold Steinmann, Dr. Gunter Freitag, Heinz-Georg Schmitz,  
 Dr. André Wittmer, Günther Vogt, erphi electronic GmbH;  
 Dr. Martin Lenz, Bosch Engineering GmbH

**AERODYNAMICS AND THERMAL MANAGEMENT**

Chaired by: Dr. Thomas Heckenberger

**The 4th Dimension Aerodynamic – The new Porsche Panamera** 233  
 Tom Gürtler, Dr. Ing. h.c. F. Porsche AG

**Unsteady Phenomena in Vehicle Aerodynamics  
 under Time-Dependent Flow Conditions** 255  
 Pascal Theissen, Rainer Demuth, BMW Group;  
 Prof. Dr. Nikolaus Adams, TU Munich

- Sophisticated Thermal Management for Li-Ion Batteries –  
from Evaluation of Thermal Cell Characteristics to Test Run  
of the Battery in a Climate Battery System Test Bench** 277  
Dr. Achim Wiebelt, Dr. Dirk Neumeister, Dr. Matthias Stripf,  
Markus Kohlberger, Dr. Thomas Heckenberger,  
Behr GmbH & Co. KG

- A New Heat Exchanger Design for Euro 6 Commercial  
Vehicles Engine Cooling** 291  
Dr. Jörg Soldner, Dr. Frank Opferkuch, Modine Europe GmbH

### **WHOLE VEHICLES**

Chaired by: Prof. Dr. Horst Friedrich

- Vehicles with a Future - The Influence of Demographic  
Change on Vehicle Development and Design** 307  
Dr. Jasmin Ostertag, Michael Dimitrov, Dr. Ing. h.c. F. Porsche AG

- The Acoustic Performance of the Porsche Panamera** 331  
Hans-Jochen Stark, Dr. Bernhard Pfäfflin,  
Dr. Ing. h.c. F. Porsche AG

- Easy Light! – New Ways in Realizing Future Technologies  
and Business Structures for Innovative Lightweight Concepts  
in Automotive Industry** 347  
Dr. Peter Klose, MBtech Consulting GmbH

### **SESSION 3**

#### **MECHANICS AND ACOUSTICS**

Chaired by: Prof. Dr. Helmut Tschöke

- Advanced Simulation of the Governing Oil System of an Engine** 361  
Dr. Andreas-Gitt-Gehrke, Tobias Duffe, Volkswagen AG;  
Dr. Hui Ding, Simerics Inc.

**New NVH Challenges Due to Drastic CO<sub>2</sub> Reduction Requirements** 377

Dr. Stefan Heuer, Klaus Wolff, Dr. Christoph Steffens,  
FEV Motorentechnik GmbH

**Torqueboost CamInCam® – A Compact System for Low End Torque Improvement by Variable Exhaust Duration** 393

Falk Schneider, Michael Kreisig, MAHLE Ventiltrieb GmbH;  
René Dingelstadt, MAHLE International GmbH

**MODELLING AND SIMULATION**

Chaired by: Prof. Dr. Karl-Ludwig Krieger

**Quantifizierung des Einflusses von ACC auf die CO<sub>2</sub>-Emissionen im kundenrelevanten Fahrbetrieb (Quantification of CO<sub>2</sub> Emission Influenced by Adaptive Cruise Control in Customer-Relevant Driving Operation)** 403

Chris Wagner, Research Institute of Automotive Engineering and Vehicle Engines Stuttgart (FKFS); Maike Salfeld, Stefan Knoll, Robert Bosch GmbH; Prof. Dr. H.-C. Reuss, Institute for Internal Combustion Engines and Automotive Engineering (IVK), University of Stuttgart

**Short Proposal on PC Modelling Mission Profiles of Distributed Component Systems** 425

Gürkan Uygur, Prof. Dr. Sebastian Sattler,  
University of Erlangen-Nürnberg;  
Andreas Brenneke, Melexis GmbH

**Estimation of the Oil Temperature in Adjustable Vibration Dampers** 439

Nele Kennes, Institute of Automotive Engineering (IKA), RWTH Aachen University; Prof. Dr. Konrad Reif,  
Baden-Wuerttemberg Cooperative State University Ravensburg;  
Dr. Karsten Schmidt, Elektronische Fahrwerksysteme GmbH;  
Frank Schimmack, Florian Niedermeier, AUDI AG;  
Dr. Mark Wöhrmann, Forschungsgesellschaft Kraftfahrwesen mbH Aachen (fka)

**Function-in-the-Loop: Cost Efficient Testing  
for ECU Control Functions** 455  
Thomas Schmerler, Dr. Wolfgang Eismann,  
Dr. Ulrich Lefarth, ETAS GmbH

**ANALYSIS / ECU CALIBRATION / MODELLING**

Chaired by: Dietmar Goericke

**Efficient Engine Start-up Analysis Using a Novel Wall Heat  
Transfer Model for Engines with Gasoline Direct Injection** 467  
David Lejsek, Dr. A. Kulzer, Dr. A. Kufferath,  
Robert Bosch GmbH; Prof. Dr. G. Hohenberg,  
Institut für Verbrennungskraftmaschinen (VKM), TU Darmstadt;  
Prof. Dr. M. Bargende, Institute for Internal Combustion Engines  
and Automotive Engineering (IVK), University of Stuttgart

**Real-time Kolbentemperaturmessungen mit  
einem auf Telemetrie basierendem Datenübertragungssystem –  
Messtechnikapplikation und erste Ergebnisse** 497  
(Piston Temperature Measurement with Telemetry-Based  
Data Transmission)  
Bernd Heiner Schäfer, MAHLE GmbH; Volker Schneider,  
Matthias Geisselbrecht, MAHLE International GmbH

**Use of Model-Based Calibration in the Test Cell** 515  
Dr. David Sampson, Ian Noell, Letitia Sheridan,  
The MathWorks Ltd.; Jochen Uhl, Dr. Joachim Schlosser,  
The MathWorks GmbH

**Experimental Modelling of the Dynamic Behaviour  
of Diesel Engines** 525  
Alexander Schreiber, Prof. Dr. Dr. Rolf Isermann,  
Institute of Automatic Control (IAT), TU Darmstadt;  
Matthias Weber, Continental Engineering Services GmbH

**SESSION 4****REPORTS FROM FVV-PROJECTS**

Chaired by: Dr. Karl Kollmann

**Operating Strategies on HCCI Combustion 543**

Goran Babic, Hans-Jürgen Berner, Prof. Dr. Michael Bargende,  
 Institute for Internal Combustion Engines and Automotive  
 Engineering (IVK), University of Stuttgart

**Influence of Loading Conditions on the Regeneration 563****Behaviour of Diesel Particulate Filters (DPF)**

Prof. Dr. Gennadi Zikoridse, Rainer Sandig,  
 Vehicle Research Institute (FIF),  
 University of Applied Sciences Dresden

**Pre-ignition in Supercharged SI Engines 585**

Christoph Dahnz, Heiko Kubach, Ulrich Spicher,  
 Karlsruhe Institute of Technology (KIT),  
 University of Karlsruhe (TH); Max Magar, Robert Schießl,  
 Ulrich Maas, Karlsruhe Institute of Technology (KIT),  
 Institut für Technische Thermodynamik (ITT),  
 University of Karlsruhe

**DESIGN AND PRODUCTION ENGINEERING**

Chaired by: Prof. Dr. Dieter Spath

**Manufacturing Aspects in Simulation Based Bead Optimization 605**

Neven Majic, Prof. Dr. Dr. Albert Albers,  
 Institute of Product Development (IPEK),  
 University of Karlsruhe (TH); Benedikt Krönauer,  
 Prof. Dr. Hartmut Hoffmann, Institute of Metal Forming  
 and Casting (UTG), TU Munich

**Freehand-Sketches in Product Development 623**

Sabine Roth-Koch, Fraunhofer Institute  
 for Manufacturing Engineering and Automation

**Manufacturing of Shell Structures by Means  
of Double Sheet Hydroforming** 641

Christian Bolay, Prof. Dr. Mathias Liewald,  
Institute for Metal Forming Technology (IFU),  
University of Stuttgart, Dr. D. Ravi Kumar,  
Indian Institute of Technology Dehli (IITD)

**RAILWAY VEHICLES II**

Chaired by: Prof. Dr. Dieter Bögle

**Improvement of Track Maintenance by Continuous  
Monitoring with Regularly Scheduled High-Speed Trains** 657

Klaus Ulrich Wolter, Dr. M. Zacher, Deutsche Bahn AG,  
Systemverbund Bahn, DB Systemtechnik

**Fire Protection Requirements on Modern Light  
Rail Vehicles and Tramways** 671

Sebastian Lucke, Stuttgarter Straßenbahnen AG

**Energy Efficient and Low Wear On-time  
Train Operation Using the Driver Assistant LEADER** 683

Dr. Manfred Walter, Dr. Marco Nock,  
Knorr-Bremse Sfs GmbH
