TABLE OF CONTENTS

PART I – INTRODUCTION

Replacing Hydraulics and Mechanics with Electronics.....	V
Ronald K. Jurgen, Editor	

PART II – ARCHITECTURE AND SOFTWARE CONSIDERATIONS

Membership Middleware for Dependable and Cost-Effective X-by-Wire Systems (2008-01-0478).....	3
Kohei Sakurai, Masahiro Matsubara and Masatoshi Hoshino	
Modularisation of Safety & Control for X-By-Wire Multiapplication-Platforms (2008-01-0113).....	11
M. Armbruster, E. Zimmer, M. Lehmann, R. Reichel and J. Klaubert	
A Prototype Distributed Architecture for Safety Critical Automotive Systems (2007-01-1617).....	21
Peter Miller	
Satisfying Design Constraints for Automotive Safety-Critical Systems (2007-01-1483)	27
Isuruwani Herath, Clive Roberts, Theodoros N. Arvanitis and Andrew Bold	
Powernet Simulation as a Tool for the Development of a Highly Reliable Energy Supply for Safety Relevant Control Systems in X-By-Wire Vessels in the EU SPARC Project (2006-01-0115).....	41
Erik Sieglin, Gernot Spiegelberg, Ottmar Gehring and Reinhard Reichel	
A Fault-Tolerant Processor Core Architecture for Safety-Critical Automotive Applications (2005-01-0322).....	53
Emmanuel Touloupis, James A. Flint, Vassilios A. Chouliaras and David D. Ward	
Digital By-Wire Replaces Mechanical Systems in Cars (2004-01-2926)	59
Ronald W. Stence	
Development of Safety-Critical Software Using Automatic Code Generation (2004-01-0708)	67
Michael Beine, Rainer Otterbach and Michael Jungmann	
Safe-by-Wire: The Leading Edge in Vehicle Airbag Control (2004-01-0205).....	75
Robert Boys	
Conceptual Design of Distributed by-Wire Systems (2002-01-0271).....	85
Per Johannessen, Kristina Ahlström and Jan Torin	

PART III – BRAKE-BY-WIRE SYSTEMS

The Electronic Wedge Brake – EWB (2006-01-3196)	91
Lok Man Ho, Richard Roberts, Henry Hartmann and Bernd Gombert	
Brake-by-Wire, Motivation and Engineering – GM Sequel (2006-01-3194).....	101
Mohan Sundar and Dennis Plunkett	
A Study on Sensor Fusion for Fault Tolerant Brake-by-Wire Driver Input Design with Dissimilar Sensors (2006-01-1025)	111
Neal Lii, Stefan Sturm and Tim A. Coombs	
Unified Control of Brake- and Steer-by-Wire Systems Using Optimal Control Allocation Methods (2006-01-0924).....	127
Aleksander Hac, David Doman and Michael Oppenheimer	
Control of Brake- and Steer-by-Wire Systems During Brake Actuator Failure (2006-01-0923).....	139
Aleksander Hac	
Robust Wheel-Slip Control for Brake-by-Wire Systems (2005-01-1584)	151
Kunsoo Huh, Daegun Hong, Paljoo Yoon, Hyung-Jin Kang and Inyong Hwang	
Design of Two Families of Electric Park Brake and Their Optional Suite of Functionality & Operational Features (2005-01-0787).....	159
Dennis Plunkett and Nui Wang	
Braking Status Monitoring for Brake-by-Wire Systems (2004-01-0259).....	169
Paljoo Yoon, Hyung-Jin Kang, Inyong Hwang, Kunsoo Huh and Daegun Hong	
e-Brake® – The Mechatronic Wedge Brake (2002-01-2582)	177
Henry Hartmann, Martin Schautt, Antonio Pascucci and Bernd Gombert	
The BRAKE Project - Centralized Versus Distributed Redundancy for Brake-by-Wire Systems (2002-01-0266)	183
Nico A. Kelling and Worthy Heck	
The Kinetic Brake Booster (2001-01-3189)	193
Valentin Ivanov, Joseph Lepeshko and Vladimir Boutylin	
A Cost Efficient Fault Tolerant Brake By Wire Architecture (2000-01-1054).....	199
James Scobie, Mark Maiolani and Mark Jordan	

PART IV – STEER-BY-WIRE SYSTEMS

Design Concept and Advantages of Steer-by-Wire System (2008-01-0493).....	213
Yuichi Onoda, Yutaka Onuma, Takeshi Goto and Tatsuo Sugitani	
Fault-Tolerant Architecture of Yaw Moment Management with Steer-by-Wire, Active Braking and Driving-Torque Distribution Integrated Control (2008-01-0110).....	221
Ryouhei Hayama, Masayasu Higashi, Sadahiro Kawahara, Shirou Nakano and Hiromitsu Kumamoto	

TTA-Group Steer-by-Wire Working Group: An Initiative to Set up a Reference Architecture for Steer-by-Wire In Off-Highway Industry (2007-01-1490)	227
Markus Plankensteiner, Lukas Silberbauer, Christiana Seethaler, Tomislav Lovric and Kjeld Buus Jensen	
Development of a Steer-by-Wire System for the GM Sequel (2006-01-1173)	235
Douglas Cesiel, Michael C. Gaunt and Brian Daugherty	
Electric Actuation Technologies for Automotive Steering Systems (2005-01-1275)	245
D. Iles-Klumpner, M. Risticvic, H. W. Hartkorn, G. Lahm, I. Serban and I. Boldea	
A Control System Methodology for Steer by Wire Systems (2004-01-1106)	255
Sanket Amberkar, Farhad Bolourchi, Jon Demerly and Scott Millsap	
Steer-by-Wire as a Mechatronic Implementation (2000-01-0823)	261
S. Feick, M. Pandit, M. Zimmer and R. Uhler	
Future Electrical Steering Systems: Realizations with Safety Requirements (2000-01-0822)	271
Werner Harter, Wolfgang Pfeiffer, Peter Dominke, Gerhard Ruck and Peter Blessing	
Electric Power Steering – The First Step on the Way to “Steer by Wire” (1999-01-0401)	281
Dominke Peter and Ruck Gerhard	
The Steer-By-Wire Prototype Implementation: Realizing Time Triggered System Design, Fail Silence Behavior and Active Replication with Fault-Tolerance Support (1999-01-0400)	289
Thomas Führer and Anton Schedl	

PART V – DRIVE-BY-WIRE SYSTEMS

Development of High Force Electromechanical Linear Actuator for Shift-By-Wire Automated Manual Transmissions (2006-01-0360)	299
A. J. Turner, K. Ramsay, R. E. Clark and D. Howe	
Enhancing Reliability of Drive-by-Wire Control Units by Fault Compensation using Data Fusion (2004-01-1596)	305
Oliver Rooks, Axel Ramstein, Uwe Kiencke, Armin Sulzmann and Gernot Spiegelberg	
Advanced Drive by Wire Design, the Military Solution (2003-01-0115)	313
Christopher B. Mushenski, Amy Cartwright and Suzanne Rydel	
Very Advanced Automotive Powertrains with the Crankless Prime Movers (2001-01-3421)	321
Bogdan Fijalkowski	

PART VI – COMMUNICATION NETWORKS

An Automotive Specification of a Time Triggered CAN Implementation: Doubling CAN's Usable Data Throughput (2005-01-1539).....	33
Chris Quigley, Ben Pope, James Finney and Richard T. McLaughlin	
Performance Analysis of Fault Tolerant TTCAN System (2005-01-1538).....	34
Aakash Arora and Syed Masud Mahmud	
Performance Evaluation of Vehicle Network Protocols for X-By-Wire Using Simulation (2005-01-1528).....	35
Jung Hwan Choi, Kyung Chang Lee, Man Ho Kim and Suk Lee	
Distributed Control System Development for FlexRay-based Systems (2005-01-1279).....	36
Pradyumna K. Mishra and Sanjeev M. Naik	
Virtual CAN Networks Over TTP – Integrating Legacy Systems Within the Time-Triggered Architecture (2004-01-1734)	37
Christian Eder, Reinhard Maier, Martin Schwarz and Georg Stöger	
Analysis and Diagnostics of Time Triggered CAN (TTCAN) Systems (2004-01-0201).....	38
Richard T. McLaughlin and Chris Quigley	
TTA By-Wire Prototyping (2002-01-0273)	39
Alexandra Müller, Georg Stöger and Manfred Prammer	
Tolerating Arbitrary Node Failures in the Time-Triggered Architecture (2001-01-0677)	39
Hermann Kopetz, Günther Bauer and Stefan Poledna	
Time Triggered CAN (TTCAN) (2001-01-0073).....	40
Thomas Fuehrer, Bernd Mueller, Florian Hartwich and Robert Hugel	
An Investigation into the Future of Automotive In-Vehicle Control Networking Technology (2001-01-0071).....	41
C. P. Quigley, F. H. P. Tan, K. H. Tang and R. T. McLaughlin	

PART VII – FUTURE TRENDS

Future Trends In X-by-Wire Systems	42
Peter Miller
