Fachgebiet Wirtschaftspolitik

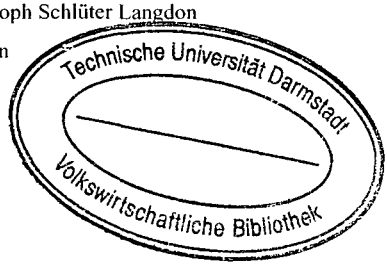
DISSERTATION:

Dynamics of Emergent Structures in Digital Interactive Services: Organizational Analysis, and Complex Adaptive System Modeling and Simulation

eingereicht am 27. Mai 1999

von Dipl.-Wirtsch.-Ing. Christoph Schlüter Langdon

aus Hagen



Referent: Prof. Dr. Günter Poser

Korreferent: Prof. Dr. Hans-Dieter Heike

LIST OF TABLES vi

ABBREVIATIONS vii

CHAPTERS

1. Introduction 1

1.1 The Digitalization of Markets and Electronic Commerce 1

1.2 Digital Interactive Services, Industry Convergence and Transformation 2

1.3 Structural Implications and Economic Policy Issues 4

1.4 Research Focus, Approach and Methodology 5

2. Description of the Market and Industry of Digital Interactive Services 7

2.1 Industrial Organization and Structure-Conduct-Performance Trichotomy 7
2.1.1 Industrial Organization Theory 7
2.1.2 Structure-Conduct-Performance Trichotomy 8
2.1.3 Performance Indicators 10
2.1.4 Determinants of Market Structure 11
2.1.5 Conduct 16
2.1.6 Basic Conditions 17

2.2 Overview of the Market and Its Firms 20
2.2.1 Industry Structure and Selected Basic Conditions 20
2.2.1.1 Service Description and Value Added 20
2.2.1.2 Market Definition, Size and Growth, and Service Diffusion 23
2.2.1.3 Industry Life Cycle and Concentration 27
2.2.1.4 Online Services and Web Competition 32
2.2.1.5 Regulatory Conditions 35
2.2.2 Product, Pricing Policies and Entry Strategies 36
2.2.2.1 America Online 39
2.2.2.2 CompuServe 40
2.2.2.3 Microsoft Network 41

2.3 Internet Technology and Platform Competition 43
2.3.1 Communication Network Technology and Inter-Platform Competition 46
2.3.1.1 Communication Network Infrastructure Development 49
2.3.1.2 Internet Deployment 54
2.3.1.3 Compression Technology 56
2.3.2 Client/Server Systems and Intra-Platform Competition 58
2.3.2.1 Electronic Commerce and Payment Systems 61

2.3.2.2 Software Agent Technology and HTML Extensions 64
2.3.2.3 Synopsis of Client/Server Computing and Implications for Digital Interactive Services 66

3. An Organizational Analysis of Structural Formation in Digital Interactive Services 73

3.1 The "2-3-6" Classification Scheme for Online Value Chains 73
3.1.1 Six Core Processes and Boundaries of Business Segments 73
3.1.2 Description of the "2-3-6" Core Processes 76
3.1.3 Discussion of Alternative Value Chain Concepts for Digital Interactive Services 78

3.2 Industry-Level Analysis of Digital Interactive Services Structures 81
3.2.1 Convergence and the Alignment of Industry-Level Capabilities 81
3.2.2 Entry Opportunities and Barriers 84
3.2.2.1 Content Industries 84
3.2.2.2 Communications Industries 87
3.2.2.3 Computing Industries 89
3.2.2.4 Discussion of Mobility Barriers 90

3.3 Intra-Industry Analysis of Online Information Markets 96
3.3.1 Publishing Industries and Digital Interactive Services Development 96
3.3.1.1 Opportunities and Threats Posed by Online Services 97
3.3.1.2 Potential New Entrants and Online Intermediaries 98
3.3.2 Identification of Categories of Online Intermediaries 101
3.3.2.1 Online Networks 104
3.3.2.2 Community Organizers 105
3.3.2.3 Platform Providers 106
3.3.3 Patterns of Electronic Intermediation 107
3.3.3.1 Integration Activities 110
3.3.3.2 Incentives for Integration of Online Networks 113
3.3.3.3 Discussion of Results 115

4. Information Technology and Dynamics of Industry Evolution: An Online Supply Chain Model and Simulation Experiments 119

4.1 Research Problem and Hypotheses 119
4.1.1 Emergent Structures and Antitrust Concerns in Digital Interactive Services 119
4.1.2 Definitions 121
4.1.3 Relationship between Information Technology and Digital Interactive Services Structure 123

4.2 The Model 129
4.2.1 Supply Chain Modeling and Simulation 129
4.2.2 Conceptual Model 130
4.2.3 Complex Adaptive System Architecture 131

4.2.3.1 Multi-Agent System and Enterprise Integration Modeling 131
4.2.3.2 Building Blocks, Flows, and Aggregation 132
4.2.3.3 Agent Functions and Dependencies 136

4.3 Implementation 143

4.4 Experimental Design 149
4.4.1 Industry and Firm Structures 149
4.4.2 Choice of Information Technology and Cost Parameters 152

4.5 Simulation Results and Discussion 155

5. Summary and Implications 163
