A Dynamic Theory of the Firm: Production, Finance and Investment

Springer-Verlag

Berlin Heidelberg New York Tokyo 1983

Fachbereich Mathematik
Technische Hochschule Darmstadt
Bibliothek

Inv.-Nr. B 19 769

CONTENTS

1. INTRODUCTION

1. Scope of the book.	1
2. Outline of the book.	2
3. Relevance of dynamic theories of the firm.	3
4. Origins of dynamic theories of the firm.	4
5. Nature of the theory of the firm and of this book.	5
6. Summary.	7

2. A SURVEY OF DYNAMIC THEORIES OF THE FIRM.

1. Introduction.	8
2. Shareholders.	9
3. Management.	9
4. Employees.	11
5. Labour Market.	12
6. Output Market.	13
7. Competitors.	14
8. Lenders of debt money.	16
9. Suppliers of assets.	17
10. Government.	19
11. Macro economic data.	21
12. Summary.	22

3. SOME PREDECESSORS.

1. Introduction.	23
2. Investments and depreciation (Jorgenson).	23
3. Production and finance I (Leland).	26
4. Finance and the value of the firm (Ludwig).	28
5. Production and finance II (Lesourne & Leban).	35
6. Summary.	38

4. A DYNAMIC MODEL OF THE FIRM.

1. Introduction.	40
2. Production.	40
3. Sales and operating income.	42
4. Financing and government.	43
5. Policy of the firm.	45

CONTENTS (continued)

6. The model.	46
7. Further assumptions.	47
8. Optimal solution.	49
9. Summary.	51
5. OPTIMAL TRAJECTORIES OF THE FIRM.	
1. Introduction.	53
2. Basic trajectory.	53
3. Depth investments.	58
4. Consolidation.	63
5. Depth investments and consolidation.	67
6. Summary.	69
6. A FURTHER ANALYSIS.	
1. Introduction.	70
2. Optimal decision rules.	70
2.1 Production.	70
2.2 Financial structure.	71
2.3 Investment and dividend.	72
3. Environmental influence on the trajectory of the firm.	73
3.1 Reallocation.	73
3.2 Final output.	73
3.3 Consolidation.	74
3.4 Expansion.	74
3.5 Substitution.	76
3.6 Financial substitution.	79
4. Influence of (sets of) environmental parameters.	80
4.1 Corporation profit tax rate.	81
4.2 Investment grant rate.	83
4.3 Abolishing investment grants.	84
4.4 Financial parameters.	86
4.5 Wage rate.	88
5. Summary.	89
7. CONCLUSIONS.	90

CONTENTS (continued)

APPENDIX 1. AN INTERPRETATION OF THE MAXIMUM PRINCIPLE.

1. Introduction.	93
2. Technical terms.	93
3. The Maximum Principle of Pontryagin.	94
4. Mixed control constraints.	101
5. State constraints.	107
6. Summary.	114

APPENDIX 2. SOLUTIONS OF THE MODELS OF CHAPTER 3.

1. Introduction.	115
2. A general solution procedure.	115
3. The model of Jorgenson.	117
4. The model of Ludwig.	125
5. The model of Lesourne & Leban.	133
6. Summary.	143

APPENDIX 3. SOLUTION OF THE MODEL OF CHAPTER 4.

1. A reduced form of the model.	144
2. Optimality conditions.	145
3. A reduced form of the optimality conditions.	146
4. Infeasible paths.	148
5. Feasible paths.	151
6. Final paths.	162
7. Coupling conditions.	163
8. Coupling procedure.	164
9. Summary.	172
