Contents

	List of Tables	xī
	Acknowledgments	xvii
	Glossary of Abbreviations	xix
Chapter 1	Introduction	1
Chapter 2	Principles of Micro-Accounting: The Accounting Process of Nonproduction Units	3
	2.1 Economic Dimensions—Stocks and Flows	3
	2.2 Main Accounting Statements—The Accounting Process	4
	2.3 The Balance Equation	4
	2.4 The Transactions Equation	11
	2.5 The Income Equation	20
	2.6 The Accounting Process	22
Chapter 3	Principles of Micro-Accounting: The Accounting Process of Production Units	23
	3.1 A Preliminary Comparison between the Accounting Processes of Production and Non-Production Units	23
	3.2 The Balance Statement of a Production Unit	23
	3.3 Characteristic Transactions of a Production Unit	23
	3.4 The Income Statement	29
	3.5 The Accounting Process	30
Chapter 4	The Accounting System of the Household Sector	31
	4.1 Purpose of This Chapter	31
	4.2 The Balance Equation for Households	31
	4.3 Transactions for Households	33
	4.4 The Income Statement for Households	43
	4.5 Summary of the Accounting Process for Households	43

Chapter 5	The Accounting System of the Industrial Sector	45
	5.1 Purpose of This Chapter	45
	5.2 Balance Equation for the Industrial Sector	45
	5.3 Transactions for Industry	46
	5.4 The Income Statement for Industry	57
	5.5 Summary of the Accounting Process for Industry	57
Chapter 6	The Accounting System of the Financial Sectors	61
	6.1 Purpose of This Chapter	61
	6.2 Balance Equations for the Financial Sectors	61
	6.3 Transaction of the Central Bank	66
	6.4 Transactions of the Commercial Banks	67
	6.5 The Currently Accepted Theory of the Relations between Changes in Reserves, Deposits and Loans of the Commercial Banks, and the Supply of Money	69
	6.6 Models of the Expansion of the Means of Payment and of Credit	78
	6.7 Example for Chapter 6	87
	6.8 The Transactions Statement for Financial Institutions	90
	6.9 Income and Product Statement	92
	6.10 Summary of the Accounting Process for the Financial Sector	93
Chapter 7	The Government Accounting System	95
	7.1 Purpose of This Chapter	95
	7.2 Balance Equation for the Government	95
	7.3 Government Transactions	96
	7.4 The Government Transaction Statement	97
	7.5 Government Income and Product Statement	99
	7.6 Summary of the Government Accounting Process	100
Chapter 8	The Accounting System of the Rest of the World	101
	8.1 Content of This Chapter	101

	8.2 Balance Statement for the Rest of the World	101
	8.3 Transactions of the Rest of the World	102
	8.4 The Rest of the World Transactions Statement	104
	8.5 Rest of the World Income and Product Statement	105
	8.6 Summary of the Rest of the World Accounting Process	109
	8.7 Rest of the World Accounts and Balance of Payments	109
Chapter 9	The National Balance Statement, National Wealth, and National Capital	111
	9.1 Systematic Presentation of the Sectoral Balance Statements	111
	9.2 National Balance Statement and National Capital	111
	9.3 National Wealth	114
	9.4 Actual Estimation of Aggregated Balance Statements and of National Capital	115
Chapter 10	The National Transactions Tables (NTT)	119
	10.1 Basic Concepts	119
	10.2 Detailed National Transactions Tables (DNTT)	119
	10.3 The Non-Detailed National Transactions Table (NDNTT)	122
	10.4 Actual Estimation of the National Transaction Table	122
	10.5 Some Properties of the National Transaction Tables	129
	10.6 The National Transactions Table as the Basis for all the Statements of National Accounts	131
Chapter 11	Macro-Accounting Statement Dealing with Real and Financial Aspects: The Generalized Equation of Exchange (GEE)	143
	11.1 Introduction	143

	11.2 The Generalized Equation of Exchange	143
	11.3 Velocity of Circulation in the GEE	148
Chapter 12	Macro-Accounting Statement Dealing with Financial Aspects Only: The Flow of Funds Statement (FFS)	153
	12.1 Derivation of the Flow of Funds Statement from the National Transactions Table	153
	12.2 The Interpretation of the Flow of Funds Statement	157
	12.3 Forecasting the Flow of Funds Statement when Tangible Investment Changes Exogenously	164
Chapter 13	Macro-Accounting Statements Dealing with Real Aspects Only: Input/Output Statement (I/OS)	171
	13.1 Input/Output Statement (I/OS)	171
	13.2 Some Applications of the I/OT	174
Chapter 14	Macro-Accounting Statements Dealing with Real Aspects Only: The Income and Product (IPS) and the Saving and Investment (SVS) Statements	183
	14.1 Content of this Chapter	183
	14.2 Integration of the NTT and the Income and Product Statement	184
	14.3 The National Income and Product Statement	187
	14.4 Gross Savings and Investment Statement	193
Chapter 15	Real and Financial Aspects of Economic Growth: Forecasting and Planning with Aggregated Models	195
	15.1 Content of this Chapter	195
	15.2 The Simplest Model of Growth Integrating Real and Financial Aspects of the Economy	195
	15.3 The Simplest Planning Model Integrating the Real and Financial Aspects of an Economy	198
	15.4 Planning with the Ordered Use of the Models	200
	15.5 An Extension of the Basic Model	201

Chapter 16	Real and Financial Aspects of Economic Growth: Forecasting and Planning with Interindustry Models	207
	16.1 The Model	207
	16.2 Use of the Model in Forecasting	210
	16.3 Use of the Model for Planning	212
Chapter 17	Concluding Remarks	215
	Index	217
	About the Author	223
