Table of Contents

Chapter 1 Methods and Applications of Multicriteria Decision Making 1

1.1 Introduction 1

1.2 The Process of Multiple-Criteria Decision Making (MCDM) 3

1.3 Multiple-Criteria Decision Problems 4

1.3.1 Multiple-Objective Programming Problems 5
1.3.2 Multiattribute Problems 6

1.4 Basic Terminology and Notation Used in MCDM 10

1.5 Classes of Solution Methodologies 11

Annotated Bibliography 13

References 14

Chapter 2 Methods Based on the Prior Articulation of Preferences 17

2.1 Introduction 17

2.2 Scoring Methods 17

2.3 Preference-Based Methods 21

2.3.1 Multiattribute Value Functions 21
2.3.1.1 The functional form of a value function 21
2.3.1.2 Assessment of MAV functions 23
2.3.1.3 Finding the best alternative 25
2.3.1.4 Simple Multiattribute Rating Technique (SMART) 25
2.3.1.5 A final note 26

2.3.2 Multiattribute Utility Functions 26
2.3.2.1 Axioms of utility theory 26
2.3.2.2 Use of lotteries in assessing MAUT functions 27
2.3.2.3 Functional forms of MAUT functions 28
2.3.2.4 Assessment of MAUT functions 30
2.3.2.5 Finding the best alternative 32

2.3.3 Summary 33

2.4 The Analytic Hierarchy Process 33

2.5 Outranking Methods 41

2.5.1 ELECTRE I 41
2.5.2 ELECTRE II 46

2.6 Goal Programming 46

2.7 Summary 49

Annotated Bibliography 50

References 52

Chapter 3 Methods Based on the Progressive Articulation of Preferences 55

3.1 Introduction 55

3.1.1 Methods Based on Weighting 55
3.1.2 Constraint-Based Approaches 56
3.1.3 Solution Methods 57

3.2 Interactive Surrogate Worth Trade-off Method 58

3.3 STEP Method 58

3.4 Geoffrion-Dyer-Feinberg (GDF) Method 60

3.5 Zionts and Wallenius Method 61

3.6 Tchebycheff Approach 62

3.7 Interactive and Visual Goal Programming 62

Annotated Bibliography 63

References 65

Chapter 4 Methods Based on the Posterior Articulation of Preferences 67

4.1 Introduction 37

4.2 Data Envelopment Analysis (DEA) 68

4.2.1 The Basic Elements of DEA 68
4.2.2 The DEA Linear Programming Formulation 70
4.2.3 An Illustration of DEA 71

4.3 Concluding Remarks 74

Annotated Bibliography 74

References 75

Chapter 5 A Guide to Readers 77

5.1 Overview of Methods 77

5.2 Advantages and Disadvantages of MCDM methods 80

5.2.1 Methods Based on the Prior Articulation of Preferences 80
5.2.2 Methods Based on the Progressive Articulation of Preferences 82
5.2.3 Methods Based on the Posterior Articulation of Preferences 85

5.3 A Guide for Selecting an MCDM Technique 86

Annotated Bibliography 90

References 91
