CONTENTS

Preface 1

Chapter One

INTRODUCTION 3

Technological Innovation through Interaction 3

Examples of Technical Cooperation 6

Relationships between Companies 8

A Network Approach 13

Managerial Issues 19

Content of the Book 24

Notes to Chapter 1 25

Chapter Two

**PROCESS INNOVATION THROUGH TECHNICAL
COOPERATION**

by Jens Laage-Hellman 26

Process Innovation 26

Process Technology Networks 31

Process Development Interaction from the Perspective of the
Process User 39

Process Development in the Swedish Special Steel Industry
some Results from an Empirical Study of Technical Ex-
change between Companies 43

Case: The ASEA-STORA Process 49

Analysis of the ASEA-STORA Case 60

Case: The ASEA-NYBY Process 67

Analysis of the ASEA-NYBY Case 73

Concluding Remarks 77

Notes to Chapter 2 81

Chapter Three

PRODUCT DEVELOPMENT IN NETWORKS

by Håkan Håkansson

84

- The Importance of Studying Product Development 84
- Product Development in a Network Perspective 87
- Technical Development from an Actor's Perspective 92
- Product Development within Networks – some Empirical Illustrations 97
- The Wood Saw Network 97
- The Metal Drill Network 112
- Management Implications 120
- Notes to Chapter 3 125

Chapter Four

SUPPLIER MANAGEMENT AND TECHNOLOGICAL DEVELOPMENT

by Björn Axelsson

128

- Technological Development and Interaction 128
- Exploiting the Supply Structure – Two Illustrations 129
- Relationships and Network Positions 131
- The Special Steel Study 133
- Relationships and Positions – Five Themes 150
- Concluding Remarks 166
- Notes to Chapter 4 170
- Appendix 1. The companies and their activity patterns 172
- Appendix 2. The Swedish Special Steel Industry 175

Chapter Five

TECHNOLOGICAL DEVELOPMENT AND THE INDIVIDUAL'S CONTACT NETWORK

by Cecilia Hamfelt and Ann-Kristin Lindberg

177

- The Importance of Personal Contacts 177
- The Individual and the Corporation as Active Network Participants 179

The Study	181
The Network – an Overview	183
Metallurgical Engineers within Corporate Management	185
Metallurgical Engineers in R&D	190
Metallurgical Engineers within Production	196
Metallurgical Engineers Working in Marketing	201
Metallurgical Engineers and the Network	205
Notes to Chapter 5	209

Chapter Six

STRATEGIC IMPLICATIONS 210

The Importance of Getting Involved	211
Power of Endurance	213
The Importance of Strong and Weak Ties	215
Positions and the Roles of the Company	217
Notes to Chapter 6	219
