Edward Elgar

Contents

<i>List of Figures</i>	ix
<i>Preface</i>	xi
<i>Reference Works</i>	xiv
1. Introduction	1
1.1 Bibliographical matters	1
1.2 Methodological and substantive boundaries	13
1.3 Organizational matters	22
Notes	24
2. Visions of capitalism	26
2.1 Defining capitalism	26
2.2 Defining capital	29
2.3 Competitive capitalism and beyond	32
2.4 Summary	38
Note	39
3. Analytical strategy	40
3.1 Outline of the strategy	40
3.2 History and statistics	42
3.3 Theoretical technique	45
3.4 Economic sociology	46
3.5 Summary	52
Notes	53
4. The circular flow of economic life	54
4.1 Some methodological principles	54
4.2 Antecedent sources	55
4.3 Introduction to the circular-flow model	57
4.4 Constructing the model	63
4.5 Summary	78
Notes	78
5. The nature of economic motion	80
5.1 From circular flow to motion	80
5.2 Equilibrium and motion	85
5.3 The causal origins of motion	89

viii *Schumpeter's Theory of Capitalist Motion*

5.4	New combinations or innovations	94
5.5	Summary	100
	Notes	101
6.	The theory of economic development	102
6.1	Essentials of economic development	102
6.2	Entrepreneurial agents	110
6.3	New combinations and resources	121
6.4	Particular new combinations cases	125
6.5	Financing new combinations	132
6.6	Entrepreneurial profit	135
6.7	Summary	142
7.	Interest, money and credit in economic development	144
7.1	Interest and the money market	144
7.2	Money and credit in the development process	155
7.3	Summary	161
	Note	161
8.	The primary business cycle	162
8.1	Business-cycle methodology	162
8.2	Essentials of the business-cycle theory	168
8.3	The primary expansion into prosperity	175
8.4	The primary crisis and recession	183
8.5	Summary	192
	Note	193
9.	Secondary dimensions of the business cycle	194
9.1	The idea of the secondary wave	194
9.2	The substance of the secondary wave	195
9.3	Extensions and complications	205
9.4	The three-cycle schema	215
9.5	Statistical and historical analyses	222
9.6	Summary	225
	Note	226
10.	Concluding reflections	227
10.1	Preamble	227
10.2	A selective critique	229
10.3	Contributions reassessed	239
	<i>References</i>	244
	<i>Index</i>	251

Figures

4.1	A physical circular-flow and reproduction schema	72
8.1	The primary two-phase cycle	171
8.2	The secondary four-phase cycle	172
8.3	The primary and secondary cycle mix	173
9.1	Schumpeter's chart – simplified	220
9.2	Phase-‘trend’ superimposition	221
