

Studies in Environmental Science 68

FRESHWATER AND ESTUARINE RADIOECOLOGY

Proceedings of an International Seminar, Lisbon, Portugal, 21–25 March 1994

Editors:

G. Desmet

European Commission, Directorate General XXII-F-6, Rue de Treves 61, 1049 Brussels, Belgium

R.J. Blust

Department of Biology, University of Antwerp, Groenenborgerlaan 171, 2020 Antwerp, Belgium

R.N.J. Comans

ECN, Petten, The Netherlands

J.A. Fernandez

Universidad de Málaga, Campus de Teatinos s/n, 29071, Málaga, Spain

J. Hilton

Institute of Freshwater Ecology, River Laboratory, East Stoke, Wareham, Dorset BH20 6BB, UK

A. de Bettencourt

Departamento de Protecção e Segurança Radiológica, Direcção Geral do Ambiente, Estrada Nacional 10, 2686 Sacavém, Portugal

Assistant Editors:

P.G. Appleby, P. Beneš, U. Bergström and J. Remacle

1997

ELSEVIER

Amsterdam – Lausanne – New York – Oxford – Shannon – Tokyo

Contents

List of contributors	xi
Opening address	
<i>G. Desmet</i>	1
Modelling of radiocesium in lakes — on predictive power and lessons for the future	
<i>L. Håkanson</i>	3
Aquatic radioecology post Chernobyl — a review of the past and a look to the future	
<i>J. Hilton</i>	47
Present thoughts on the aquatic countermeasures applied to regions of the Dnieper river catchment contaminated by the 1986 Chernobyl accident	
<i>O. Voitsekhovitch, O. Nasvit, I. Los'y, V. Berkovsky</i>	75
The characterization and retention of different transport phases of ¹³⁷ Cs and ⁹⁰ Sr in three contrasting Nordic lakes	
<i>John E. Brittain, Helge E. Bjørnstad, Björn Sundblad and Ritva Saxén</i>	87
The role of a spring river as a source of ¹³⁷ Cs in a lagoon environment: the case of the Stella river (Marano lagoon, Northern Adriatic Sea)	
<i>M. Belli, E. Colizza, G.P. Fanzutti, F. Finocchiaro, R. Melis, R. Piani and U. Sansone</i>	97
Migration of radionuclides in rivers: effect of the kinetics of radionuclide interaction with suspended solids	
<i>P. Beneš and M. Cerník</i>	109
Distribution, cycling and mean residence time of ²²⁶ Ra, ²¹⁰ Pb and ²¹⁰ Po in the Tagus estuary	
<i>F.P. Carvalho</i>	117
Mobilization studies of ¹³⁷ Cs in sediments from Rochedo Reservoir, Goiânia, Go., Brazil	
<i>Márcia Emília M. De Luca and José Marcos Godoy</i>	119

Interpreting and predicting <i>in situ</i> distribution coefficients of radiocaesium in aquatic systems <i>R.N.J. Comans, J. Hilton, A. Cremers, P.A. Geelhoed-Bonouvie and J. T. Smith</i>	129
Microbially mediated redissolution of cesium radionuclides from the sediment of a shallow eutrophic lake <i>S. Kaminski, T. Richter, M. Walser, G. Lindner and B. Schink</i>	141
Migration and modelling of tritium in waste water reservoirs and a retention pond <i>Masami Fukui</i>	151
Solid phase speciation of radiocaesium in bottom sediments <i>J. Wauters, M.J. Madruga, M. Vidal and A. Cremers</i>	165
Redistribution of sedimentary ^{137}Cs in small Swedish lakes after the Chernobyl fallout 1986 <i>K. Konitzer and M. Meili</i>	167
Long-term kinetics of radiocesium fixation by soils <i>A. Konoplev, A. Bulgakov, J. Hilton, R. Comans and V. Popov</i>	173
Physical and chemical features of the Chernobyl nuclides migration processes in the rivers of Belarus <i>A. Kudelsky, V. Pashkevich, Ye. Petryayev, S. Ovsyannikova and G. Sokolik</i>	183
Effects of a partial drawdown on the dynamics of ^{137}Cs in an abandoned reactor cooling reservoir <i>F.W. Whicker, T.G. Hinton and D.J. Niquette</i>	193
Correlation analysis of the contamination of freshwater sediments in the Labe (Elbe) river catchment with gamma-emitting radionuclides <i>P. Beneš, J. John, F. Šebesta and J. Vesely</i>	203
On the differential binding mechanisms of radiostrontium and radiocaesium in sediments <i>Maria José Madruga and Adrien Cremers</i>	207
Tracing of sedimentation and post-depositional redistribution processes in Lake Constance with ^{137}Cs <i>S. Kaminski, T. Richter, T. Klenk, M. Eckerle, G. Lindner and G. Schröder</i>	217

Sediment resuspension as a long-term secondary source of Chernobyl ¹³⁷ Cs in lake ecosystems: the example of Blacksåstjärn (Sweden) <i>M. Meili, L. Braf and K. Konitzer</i>	225
The role of the rivers in Chernobyl radiocesium delivery, distribution and accumulation in coastal sediments of the Northern Adriatic Sea <i>Roberta Delfanti, Mauro Frignani, Leonardo Langone, Carlo Papucci and Mariangela Ravaioli</i>	235
Distribution of artificial radiocontamination in lagoon environment of northern Adriatic <i>C. Giovani, G. Mattassi, R. Padovani, A. Zanella and S. Zanini</i>	241
Recent radioecological investigations in the Austrian part of the Danube river <i>F.J. Maringer, M. Tschurlovits and D. Rank</i>	249
<i>In situ</i> assessment of K_d factors in the Austrian part of the Danube river <i>M. Tschurlovits and F.J. Maringer</i>	255
Caesium-137 transport from the rivers located in the Chernobyl area to the Kiev reservoir <i>U. Sansone, M. Belli, M. Riccardi, V. Kanivetc, G. Laptev and O. Voitsekhovitch</i>	261
Distribution of natural radioactivity within an estuary affected by releases from the phosphate industry <i>A. Travesí, C. Gascó, M. Pozuelo, J. Palomares, M.R. García and L. Pérez del Villar</i>	267
Natural radionuclides in the Amazon river flood plain soils <i>E.S.B. Ferraz</i>	281
²¹⁰ Pb enhancement in rivers affected by the phosphate rock processing in southwestern Spain <i>A. Martínez-Aguirre and M. García-León</i>	291
Bioavailability of radiocobalt to the common carp, <i>Cyprinus carpio</i> , in complexing environments <i>R. Blust, L. Van Ginneken and S. Comhaire</i>	299
The quantification of metallic or radioactive pollutant flows in freshwater by the use of a mathematical model describing the evolution of contamination levels of a bryophyte species, <i>Platyhypnidium riparioides</i> <i>P. Ciffroy, K. Beaugelin, B. Claveri, F. Siclet, J.-P. Baudin and D. Vazelle</i>	307

Calcium influences radio-cobalt uptake by the common carp, <i>Cyprinus carpio</i> <i>S. Comhaire, R. Blust, L. van Ginneken, F. D'haeseleer and O. Vanderborght</i>	321
Mechanisms of radiocesium uptake and accumulation in <i>Riccia fluitans</i> <i>José A. Fernández, Miguel A. Heredia, María J. García-Sánchez, José A. G. Corisco, M.C. Vaz Carreiro and Antonio Díez de los Ríos</i> . .	329
Contamination of fish with ¹³⁷ Cs in Kiev reservoir and old river bed of Pripyat near Chernobyl <i>R.H. Hadderingh, G.H.F.M. van Aerssen, I.N. Ryabov, A.O. Koulikov and N. Belova</i>	339
Trace metal transfers between water and sediment in a freshwater system. Influence of microbial activity <i>F. Hambuckers-Berhin, A. Hambuckers and J. Remacle</i>	353
Caesium-137 excretion and bioenergetic processes in <i>Cyprinus carpio</i> L. acclimatized to different potassium concentrations in water <i>V.D. Romanenko, O.I. Nasvit, V.D. Solomatina, C.V. Carreiro and M.A. Fomovsky</i>	369
Caesium-137 biological half-life evaluation in <i>Cyprinus carpio</i> L. of different weights from the cooling pond of the Chernobyl NPP <i>O. Nasvit, M.C. Vaz Carreiro, V. Romanenko, M. Fomovski, L. Jurchuk, V. Belyaev and O. Bashkov</i>	375
A bioenergetics approach to modeling seasonal patterns in the bioaccumulation of radiocesium <i>D.J. Rowan, J.B. Rasmussen and L. Chant</i>	387
Potassium and stable caesium effect on radiocaesium uptake and loss by the Cyprinid fish, <i>Chondrostoma polylepis polylepis</i> <i>J.A. Gil Corisco and M.C. Vaz Carreiro</i>	395
Polonium-210 in mussels and fish from the Baltic-North Sea estuary <i>Henning Dahlgaard</i>	407
Uptake of polonium-210 by mussels from effluents emitted by different phosphorus plants <i>R.M.J. Penners, M.P.M. Janssen, H.W. Köster, J.F.M.M. Lembrechts, H. Hummel, P.G. Schout and B.M.H. Timmermans</i> . . .	409
Polonium-210 uptake by <i>Mytilus edulis</i> (L.) in Irish estuarine and inshore waters <i>T.P. Ryan, A.M. Dowdall and A.T. McGarry</i>	419

A screening model approach to determine probable impacts to fish from historic releases of radionuclides <i>T.G. Hinton and F.W. Whicker</i>	425
Modelling the long-term behaviour of radioactive substances in fresh water systems: role of migration from catchment basins and of radionuclide exchange between water and sediment <i>U. Bergstrom, J. Boardman, R. Heling, J. van der Steen and L. Monte</i>	433
The use of ^{210}Pb and ^{137}Cs as tracers in modelling transport processes in lake catchment systems <i>P.G. Appleby</i>	441
Modelling of Chernobyl radiocaesium behaviour in catchment-lake-sediment system Devoke Water (Cumbria, UK) <i>I.Ya. Bilyi, R.N.J. Comans, J. Hilton and O.V. Voitsekhovitch</i>	449
Modelling ^{226}Ra dispersion in an estuarine system at the southwest of Spain <i>R. Periañez, J.M. Abril and M. García-León</i>	461
Radioecology assessment in waterways in France with nuclear facilities (1989–1993) <i>Luc Foulquier and Alain Lambrechts</i>	471
The modelling concept for the radioactive contamination of waterbodies in RODOS, the decision support system for nuclear emergencies in Europe <i>W. Raskob, R. Heling, A. Popov and P. Tklich</i>	481
Assessment of the dispersion of radionuclides in flowing water using a dynamic model <i>H. Höfer and A. Bayer</i>	489
Subject index	497
