HANS H. LANDSBERG
editors

*A Project of
Resources for the Future and
The Colorado School of Mines
in cooperation with
The International Institute for
Applied Systems Analysis*

RESOURCES FOR THE FUTURE • *Washington, D.C.*

Contents

List of Figures	xiii
List of Tables	xix
Foreword	xxiii
Preface and Acknowledgments	xxv
1 Introduction	1
The Economic Nature of Exploration	2
Overview	4
Findings and Implications	11
References	19
2 A Perspective on Worldwide Exploration for Minerals	21
<i>Phillip C. F. Crowson</i>	
Difficulties in Compiling Exploration Statistics	21
The Statistics on Exploration	23
Trends in Expenditure	29
Exploration Costs	31
The Participants in Exploration	34
Stocks Versus Flows	38
Appendix 2-A: Exploration Statistics	40

- 3 Base and Precious Metals Exploration by Major Corporations** **105**
Roderick G. Eggert
- Exploration As an Economic Activity 106
 - Levels of Exploration Expenditure 107
 - Exploration Targets 118
 - Location of Exploration 127
 - Summary and Conclusions 139
 - References 141
- Appendix 3-A: Mineral Price Index** 144
-
- 4 Mineral Exploration in Developing Countries: Botswana and Papua New Guinea Case Studies** **145**
Charles J. Johnson and Allen L. Clark
- Botswana and PNG in an International Context 147
 - Botswana 154
 - Papua New Guinea 168
 - Conclusions 176
 - References 177
-
- 5 Mineral Exploration in South Africa** **179**
Theo E. Beukes
- Structure of the Mining Industry 179
 - Trends in Exploration Expenditures 184
 - Influences upon Exploration Expenditures 186
 - Conclusions 194
 - References 195
- Appendix 5-A: Annual Exploration Expenditures, 1960-83** 196
-
- 6 Prospecting and Exploration in the Soviet Union** **199**
Alexander S. Astakhov, Michail N. Denisov, and Vladimir K. Pavlov
- Stages and Organization 200
 - Trends 203
 - Planning and Decision Making 214
 - References 223
- Appendix 6-A: Mineral Resource Classification** 224

7	Multilateral Exploration Assistance: The United Nations Programs	227
	<i>Melinda Crane-Engel and Erich Schanze</i>	
	Objectives of Multilateral Exploration Assistance	227
	Multilateral Exploration Assistance: The Development Banks and the European Community	229
	United Nations Development Programme	231
	Case Histories of Exploration Projects	235
	Results of UNDP Exploration	241
	The United Nations Revolving Fund for Natural Resources Exploration	247
	Case Histories of Revolving Fund Projects	253
	Results of Revolving Fund Exploration	255
	Evaluation of Multilateral Exploration Assistance Programs	255
	References	258
8	French Mineral Exploration, 1973–82	261
	<i>Willy Chazan</i>	
	Introduction	261
	Exploration Expenditures	263
	Exploration Targets	265
	Exploration Trends and Determinants	270
	Exploration Results	272
	International Comparisons	274
	References	278
	Appendix 8-A: French Exploration Expenditures, 1973–82	279
9	The Canadian Mineral Discovery Experience Since World War II	283
	<i>Donald A. Cranstone</i>	
	Scope and Methodology of the Study	284
	Record of Discoveries	288
	Discoveries Versus Subsequent Development of Mines	292
	Cost of Discoveries	292
	The Significance of the Discovery of Major Deposits	296
	Rates of Discovery for Individual Metals	297
	Discovery Rates for Selected Major Metals, by Type of Geologic Deposit	309
	Effects of Technological Developments and Geologic Concepts on Rates of Discovery	322
	Significance of the Canadian Mineral Discovery Experience for Other Nations	323
	Summary and Conclusions	325
	References and Bibliography	328

- 10 Exploration in the United States** **331**
Arthur W. Rose and Roderick G. Eggert
- Exploration Success 331
 Factors Affecting Exploration Success 349
 The Episodic Nature of Exploration 354
 Conclusions 359
 References 360
- 11 Economic Productivity of Base Metal
 Exploration in Australia and Canada** **363**
Brian Mackenzie and Roy Woodall
- Methodology 364
 Geologic Setting and Exploration Conditions in
 Canada and Australia 374
 Evaluating the Cost of and Return to Exploration 378
 Economic Productivity of Exploration 389
 Conclusion 405
 References and Bibliography 407
- Appendix 11-A:** Australia: Possible Economic
 Discoveries for Evaluation 410
Appendix 11-B: Canada: Possible Economic
 Discoveries for Evaluation 412
- 12 Are Ore Grades Declining?
 The Canadian Experience, 1939-89** **419**
Henry L. Martin and Lo-Sun Jen
- Methodology 420
 Ore Mined and Concentrated 421
 Copper 425
 Molybdenum 430
 Zinc 434
 Lead 434
 Nickel 437
 Silver 438
 Gold 440
 Conclusions 442
 References 444

Tables

- 2-1 Estimated Mineral Exploration Expenditures in the Western World, by Developed and Less Developed Countries, Early 1970s and Early 1980s 27
- 2-2 Estimated Exploration Expenditures for Coal, Uranium, and Other Minerals in the Western World in the Early 1980s 29
- 2-3 The "Productivity" of Exploration Expenditures for Uranium in Selected Countries, 1972-80 33
- Note: Tables in appendix 2-A are listed on pages 40-42.*

- 3-1 Regression Results: Exploration Expenditures Related to a Mineral Price Index Lagged One Year 111
- 3-2 Share of Total Mineral Exploration Expenditures Spent in the United States by Nine Companies, 1971-82 135
- 3-3 Share of Exploration Expenditures Spent in Developing Countries by a U.S. Oil Company, 1973-82 138

- 4-1 Important Mineral Discoveries in Papua New Guinea, 1960-83 169

- 5-1 Total Sales of Mineral Commodities by Categories in South Africa, 1852-1973 182

- 5-2 South African Multinational Exploration Companies, 1977 and 1983 187

- 5-3 Foreign Multinational Exploration Corporations Operating in South Africa, 1977 and 1983 188

- 5-A-1 Annual Exploration Expenditures in South Africa, 1960-83, in current rand 196

- 5-A-2 Annual Exploration Expenditures in South Africa, 1960-83, in constant 1982 rand 197

- 6-1 Comparison of Exploration Stages in Market-economy Countries and the Soviet Union 206

- 6-2 Distribution of Expenditures for Nonfuel Minerals by USSR Ministry of Geology, 1971 and 1980 **213**
- 6-A-1 Approximate Correspondence of Resource Categories in the United States and the Soviet Union **224**
- 7-1 UNDP Direct Exploration: Number of Mineral Discoveries **242-243**
- 7-2 Results of UNDP Direct Exploration **244-246**
- 8-1 French Mineral Exploration: Reserves Discovered, 1973-82 **273**
- 8-2 Mineral Prices, 1982 **274**
- 8-3 French Mineral Exploration Effectiveness, 1973-82 (Principal Companies Only) **275**
- 8-4 Breakdown of Exploration Expenditures by Commodity, United States and France, 1977 **276**
- 8-5 Uranium Exploration Effectiveness, 1972-80 **277**
- 8-A-1 Total French Exploration Expenditures, 1973-82 **279**
- 8-A-2 French Uranium Exploration Expenditures, 1973-82 **279**
- 8-A-3 French Base Metal Exploration Expenditures, 1973-82 **280**
- 8-A-4 French Exploration Expenditures for Alloy and Specialty Metals, 1973-82 **280**
- 8-A-5 French Precious Metals Exploration Expenditures, 1973-82 **281**
- 9-1 Canadian Metal Prices: Averages for Three-Year Periods, 1946-82 **290**
- 9-2 Canadian Metal Prices in January 1979 **291**
- 9-3 Annual Mineral Exploration Expenditures in Canada, 1946-82 **294**
- 10-1 Discoveries and Estimated Metal Values of Major Metallic Mineral Deposits (Except Uranium and Iron) in the United States, 1940-82 **333-337**
- 10-2 Major Metallic Mineral Discoveries in the United States, 1940-82, by Type of Company **340**
- 10-3 Classification of Major Metallic Mineral Discoveries in the United States, 1940s Through 1980s, by Deposit Type **342**
- 10-4 Estimates of Mineral Exploration Expenditures in the United States Between 1955-59 and 1984 **343-345**
- 10-5 Exploration Expenditures and Drilling Footage for Uranium in the United States, 1948-84 **347**
- 10-6 Estimated Exploration Expenditures in the United States and Success Ratios for Five-Year Periods, 1955-83 **349**
- 11-1 Base Metal Exploration Environments of Australia and Canada **377**

- 11-2 Total Base Metal Exploration Expenditures in Australia (1955-78) and Canada (1946-77), by Exploration Environment and Time Period **382**
- 11-3 Number of Australian and Canadian Possible Economic Deposits for Evaluation, by Exploration Environment and Time Period **384**
- 11-4 Long-term Price Variants for Mineral Commodities **385**
- 11-5 Average Development Statistics for Base Metal Deposits in Australia and Canada, by Exploration Environment **386**
- 11-6 Average Cash Flow Characteristics for an Economic Base Metal Deposit Under Base Case Conditions **391**
- 11-7 Assessments of Expected Value of Base Metal Exploration in Australia and Canada Under Base Case Conditions **391**
- 11-8 Assessments of Expected Value of Development and Production Phases in Australia and Canada Under Base Case Conditions **393**
- 11-9 Assessments of Expected Value for Base Metal Environments in Australia and Canada **394**
- 11-10 Time Trends in Assessments of Expected Value for Base Metal Exploration in Australia and Canada **395**
- 11-11 Assessments of Expected Value for Base Metal Exploration in Australia and Canada As a Function of Metal Prices **398**
- 11-12 Assessments of Expected Value for Base Metal Exploration in Australia and Canada As a Function of Annual Exploration Budget **399**
- 11-13 Assessments of Average Return Characteristics for Economic Base Metal Deposits in Australia and Canada **400**
- 11-14 Variability of the Return from Economic Base Metal Discoveries in Australia and Canada: Key Statistics **401**
- 11-15 Time Trends in Average Mineral Endowment Characteristics of Australian and Canadian Possible Economic Discoveries **403**
- 11-16 Time Trends in Average Return Characteristics of Australian and Canadian Economic Discoveries **404**
- 11-17 Exploration Expenditures Required for the Discovery of an Economic Base Metal Deposit in Australia and Canada **405**
- 11-A-1 Classification of Australian Possible Economic Discoveries by Exploration Environment and Discovery Date **410-411**
- 11-B-1 Classification of Canadian Possible Economic Discoveries by Exploration Environment and Discovery Date **412-417**
- 12-1 Tonnage and Grade of Nonporphyry Copper Ores Mined in Canada at Ten-Year Intervals, 1939-89 **428**
- 12-2 Tonnage and Grade of Porphyry Copper Ores Mined in Canada at Ten-Year Intervals, 1939-89 **429**
- 12-3 Tonnage and Grade of Porphyry Molybdenum Ores Mined in Canada in 1960, 1969, 1979, and Estimated for 1989 **431**

- 12-4 Tonnage and Grade of Nonporphyry Molybdenum Ores Mined in Canada, 1960, 1969, 1979, and Estimated for 1989 **431**
- 12-5 Tonnage and Grade of Zinc Ores Mined in Canada at Ten-Year Intervals, 1939-89 **434**
- 12-6 Tonnage and Grade of Lead Ores Mined in Canada at Ten-Year Intervals, 1939-89 **437**
- 12-7 Tonnage and Grade of Nickel Ores Mined in Canada at Ten-Year Intervals, 1939-89 **438**
- 12-8 Tonnage and Grade of Silver Ores Mined in Canada at Ten-Year Intervals, 1939-79 **439**
- 12-9 Tonnage and Grade of Gold Ores Mined in Canada at Ten-Year Intervals, 1939-89 **443**
