Preface

Introduction	1
1 Characteristics and market forces	5
1.1 Introduction	5
1.2 The main characteristics of the petrochemical industry	6
1.3 Technical innovation, demand and the growth cycle theory	7
1.4 The development stages of the petrochemical industry	9
1.5 The apparent factors affecting the demand for petrochemicals	13
1.6 The supply and demand pattern of petrochemical products	15
1.7 Plastics materials and the energy problem	32
1.8 The future prospects of plastics in the car and the building industry	36
2 Production rationalisation and oligopoly: a global perspective	40
2.1 Trends in prices and production costs of petrochemical products	40
2.2 The changing structure of production costs	42
2.3 Plant capacity and its impact on production costs	45
2.4 The effects of the 'age' of plants on production costs	50
2.5 The process of rationalising petrochemical production	53

2.6	The roles of the MPS and MCS in the process of restructuring the petrochemical industry	58
2.7	The oligopolistic structure of the petrochemical industry	63
2.8	Concluding remarks	68
3	The British petrochemical industry	70
3.1	Introduction	70
3.2	Estimation of the derived demand for synthetic resins and plastics materials industry in the United Kingdom: input-output approach	70
3.3	The dependence of the production of synthetic resins and plastics materials industry on other industries according to their final demand components	77
3.4	Demand for synthetic resins and plastics materials by final demand	80
3.5	A methodology for assessing future demands for petrochemical products	80
3.6	The supply of petrochemical products and plastics materials: assessment of the British situation	84
3.7	Structural changes in the British petrochemical industry	96
3.8	The trade in petrochemicals and plastics materials: the British position	100
3.9	Energy pricing and supplies to the chemical industry in the United Kingdom	100
3.10	The construction and the car industry in the United Kingdom	102
3.11	Concluding remarks	103
4	The petrochemical industry in developing countries	106
4.1	Introduction	106
4.2	The advent of petrochemicals in the developing countries	106
4.3	The changing structure of petrochemical production costs: the implications for the OPDC	114

4.4	The main obstacles facing petrochemical exports from the OPDC	121
4.5	The supply of and demand for major petrochemical products in developing countries	127
4.6	Concluding remarks	131
5	Conclusions	134
	References and notes	141
	Bibliography	144
	Appendix A: statistical data for Chapter 1	153
	Appendix B: statistical data for Chapter 2	175
	Appendix C: statistical data for Chapter 3	189
	Appendix D: statistical data for Chapter 4	207
	List of abbreviations	231
	Index	233
