<i>List of Figures</i>	xii
<i>Abbreviations</i>	xiii
Introduction	I
I. The Representation and Interpretation of Mensuration Signs	12
I. <i>Tempus</i> Signs	12
II. <i>Modus</i> Signs	13
A. Mode-Rest Signs	15
B. <i>Modus cum tempore</i> Signs	20
C. Unusual Mode Signs	23
III. Prolation Signs	27
IV. Intrinsic Signs	28
V. Modification of Geometric Signs and Figures to Indicate Diminution and Proportion	29
VI. Mensuration when No Sign is Given	29
VII. An Explanation of $\text{O}$ and $\text{C}$ in German Sources	31
2. The Origins of the Mensural System and Mensuration Signs	33
3. The Relationship between Perfect and Imperfect Time	51
I. The Problem	51
II. Method of Investigation	54
III. Theorists who Favour Breve Equality	57
A. Direct Evidence	57
B. Indirect Evidence	66
IV. Theorists who Favour Equal Breve and Equal Minim	69
V. Theorists who Favour Equal Minim	71
A. Direct Evidence	71
B. Indirect Evidence	76

VI. Placement of <i>Tactus</i> ( <i>Battuta, Mensura</i> )	78
VII. Conclusions Drawn from Theoretical Evidence	78
VIII. Equal Breve in Musical Sources	79
IX. Origins of the Equal-Breve Tradition	80
X. Suggestions for Performance	84
4. The Relationship between Major and Minor Prolation	87
I. The Problem	87
II. Major Prolation Combined with Minor Prolation	91
A. Augmentation	91
B. Minim Equivalence between Major and Minor Prolation	94
C. Major Prolation in One Voice in Musical Practice	97
III. Major Prolation in All Parts	99
A. Method of Investigation	99
B. Theorists who Favour Equal Semibreve	102
C. Theorists who Favour Equal Minim	108
D. Conclusions Drawn from Theoretical Evidence	114
E. Major Prolation in All Parts in Musical Practice	116
F. Suggestions for Performance	118
5. Diminution by Stroke and by Mode Signs	120
I. The Problem	120
II. Cut Signs	125
A. Southern Theorists	128
B. Northern Theorists	134
III. Diminution in the Fourteenth and Early Fifteenth Centuries	140
IV. Conclusions Drawn from Theoretical Evidence	144
V. <i>Modus cum tempore</i> Signs	148
A. O3, O2, C3, and C2 in Theory	148
B. O2 in Musical Practice	154
VI. The Relationship between Cut Signs and <i>Modus cum tempore</i> Signs	159
6. Proportion Signs	164
I. The Problem	164
II. Which Proportions were Used?	166
III. How were the Proportions Indicated?	168
IV. From Mensuration Signs to Fractions	178
V. The Relationship of Proportions to each Other	182
VI. Is the Mensuration Dependent on the Proportion Sign or the Preceding Mensuration Sign?	185

## Contents

xi

VII. The Mensuration of the Note-Values Compared in a Proportion	197
VIII. The Influence of Arithmetic on Mensural Proportions	198
IX. The Division of the <i>Battuta</i> in Unequal Proportions	210
X. The Compared Note-Value in a Proportion	212
Conclusions	227
<i>Appendix: Index of Signs</i>	233
<i>Bibliography</i>	241
<i>Index of Compositions</i>	255
<i>General Index</i>	260
