# Contents

<b>Preface</b>	ix
<b>1 Introduction</b>	1
1.1 Necessity of monetary theory: money, income and causality	1
1.2 The monetary sector	9
1.3 Creation of money	14
1.4 Money and credit	20
1.5 Summary and conclusions	22
Appendix: Defining money	23
Notes	26
<b>2 Quantity theory and portfolio balance</b>	28
2.1 Old quantity theory	28
2.2 New quantity theory	32
2.3 International monetarism	37
2.4 Portfolio models	42
2.5 Summary and conclusions	44
Notes	45
<b>3 Demand for money</b>	46
3.1 Keynesian motives analysis	46
3.2 Neoclassical approach	48
3.3 Transactions demand and inventory theory	52
3.4 Speculative demand for money	62

## **vi Contents**

3.5	Finance demand for money and the buffer stock approach	65
3.6	Summary and conclusions	67
	Appendix 1: Derivation of the Tobin–Baumol formula	67
	Appendix 2: Interest elasticity of the demand for money	69
	Appendix 3: Bonds, bond prices, and interest rates	70
	Notes	71
<b>4</b>	<b>IS–LM model</b>	<b>72</b>
4.1	A simplified presentation	72
4.2	An overview	75
4.3	The model	76
4.4	Application of the model	81
4.5	Monetarist–Keynesian debate	86
4.6	An algebraic presentation	90
4.7	A geometric analysis	94
4.8	Beyond IS–LM	97
4.9	Summary and conclusions	101
	Appendix: A taxonomy of IS–LM curves and the generation of perverse curves	102
	Notes	112
<b>5</b>	<b>Tobin’s model</b>	<b>114</b>
5.1	General equilibrium approach to monetary policy	114
5.2	Neo-Keynesian model	121
5.3	Monetarist model	123
5.4	Summary and conclusions	126
	Notes	127
<b>6</b>	<b>Flow of funds</b>	<b>128</b>
6.1	Flow-of-funds approach	128
6.2	The flow-of-funds model and the monetarist–Keynesian debate	134
6.3	Flow-of-funds analysis of economic policy	139
6.4	Summary and conclusions	147
	Notes	148

<b>7</b>	<b>Inflation and unemployment (I): the mainstream debate</b>	149
	7.1 Introduction	149
	7.2 Wealth effects	150
	7.3 Real balance effects	154
	7.4 Inside and outside assets	158
	7.5 Economics of Thatcherism	162
	7.6 Summary and conclusions	174
	Notes	175
<b>8</b>	<b>Inflation and unemployment (II): the nature of a monetary economy</b>	176
	8.1 An unstable economy	176
	8.2 Leijonhufvud's analysis	179
	8.3 Clower's analysis	185
	8.4 Disequilibrium, temporary equilibrium and the role of money	186
	8.5 Summary and conclusions	190
	Notes	190
<b>9</b>	<b>Debt management and government finance</b>	191
	9.1 Theory and practice of debt management	191
	9.2 The budget constraint	194
	9.3 Significance of the budget constraint	199
	9.4 Existing National Debt and wealth effects	201
	9.5 Monetarist arithmetic and mean lag theorems	204
	9.6 Summary and conclusions	205
	Notes	205
<b>10</b>	<b>Term structure of interest rates</b>	206
	10.1 Term structure and monetary policy	206
	10.2 Expectations theory	209
	10.3 Market segmentation	218
	10.4 Preferred habitat	219
	10.5 Summary and conclusions	221
	Notes	222
<b>11</b>	<b>Banking sector and supply of money</b>	223
	11.1 Supply of money	223
	11.2 Banking models: an introduction	226

**viii Contents**

11.3	Multiplier approach	228
11.4	Profit maximisation: the new view	237
11.5	Asset and liability management and the portfolio approach	241
11.6	Creditism and credit rationing	243
11.7	IS–LM models incorporating an endogenous money supply	248
11.8	Summary and conclusions	252
	Notes	252
<b>12</b>	<b>Monetary policy</b>	<b>253</b>
12.1	Introduction	253
12.2	Techniques of monetary control	253
12.3	Nature of monetary targets	260
12.4	The case for monetary targets	268
12.5	Money and interest rate targets	287
12.6	Exchange rate targets	295
12.7	Which quantity?	304
12.8	Contingent and multiple targets	307
12.9	Summary and conclusions	311
	Notes	313
	<b>Bibliography</b>	<b>314</b>
	<b>Further reading</b>	<b>328</b>
	<b>Index</b>	<b>332</b>
