CONTENTS

TABLES AND FIGURES	ix
ACKNOWLEDGMENTS	xiii
1. INTRODUCTION	1
Statement of the Problem and Objectives of the Study	1
Methodology and Review of Models of the Egyptian Economy	3
Organization of the Study	6
2. STRUCTURAL CHANGES IN THE EGYPTIAN ECONOMY	9
Introduction	9
The Egyptian Economy and the Public Sector	10
Interindustry and Structural Changes	14
Summary and Concluding Remarks	33
Appendix 2.A: Reconciliation of the Input-Output Tables	36
Appendix 2.B: Backward and Forward Linkages	38
3. MODEL OF THE EGYPTIAN ECONOMY: CONCEPTUAL FRAMEWORK AND ESTIMATION	43
Theoretical Framework	43
Macroeconometric Input-Output Model for Forecasting and Simulation of Egypt (MIMFSE)	59
Model Estimation	60
Variables Definitions	91

4. IN-SAMPLE SIMULATION EXPERIMENTS	95
Historical Simulation and Model Evaluation	96
Policy Simulation Results	99
Summary of Policy Simulations	103
5. FORECASTING SCENARIOS	127
Reference Case Forecast	128
Tight Policy Forecast	130
Alternative Policy Forecast	132
Increased Agricultural Productivity Forecast	133
Policy Package Forecast	135
Summary and Discussion	135
6. SUMMARY AND SUGGESTIONS FOR FURTHER DEVELOPMENT	151
Summary and Main Points	152
Policy Implications	154
Suggestions for Future Research	156
DATA APPENDIX	157
Data References	159
BIBLIOGRAPHY	185
INDEX	189
